Marvelous Yields on the Indian Head **Experiment Farm**

The following yields were made last year at the Dominion Experiment Farm:—
Wheat—7t varieties tested; days to mature, 103 to 108; yields ranged from 62 to 67 bushels to the acre.
Barley—30 varieties tested; days to mature, 88 to 93; yields ranged from 59 to 68 bushels to the acre.
Oats—63 varieties tested; days to mature, 99 to 103; yields ranged from 30 to 147 bushels to the acre.
Peas—57 varieties tested; days to mature, 103 to 113; yields ranged from 58 to 66 bushels to the acre.
Podder Corn—4 varieties tested; planted in May and cut in September; height from 127 to 138
es; yield ranged from 24 to 36 tons to the acre.
Mangles—35 varieties tested; planted in May and pulled in October, yield ranged from 104 to 36 tons to the acre.

Mangles - 35 varieties tested; planted in May and pulled in October: yield ranged from 913 to 1,023 mishels to the acre. Turnips -29 varieties tested; planted in May and pulled in October; yield ranged from 1,155 to 1,368 bushels to the acre.

Carrots—20 varieties tested; yields ranged from 413 to 429 bushels to the acre.

Potatoes—89 varieties tested; planted in May and gathered in October; yields ranged from 591 to 646 bushels to the acre.

The test plots were all uniform in size, and the yields were not the result of luck or chance, but of intelligent cultivation. These experiments show the possibility of the Saskatchewan soil under proper cultivation.

American interest in Western Canada has turned towards the districts of Assiniboia and Saskatchewan. In the central part of these two great territories is located the great Saskatchewan River "The Nile of Western Canada." The land is a slightly undulating prairie covered with a heavy growth of grass. A rich black vegetable loam from one to three feet deep, supported by a rich chocolate colored clay sub-soil, furnishes an inexhaustible basis for agriculture. It is a country that only awaits the farmer with his plow to produce crops that will astonish the world. This district is destined to become, in the next few years, the greatest grain producing territory on the continent. The experimental stage is past. Twenty years without crop failure will satisfy any man that he takes no chances in making a home in this great valley, so long the feeding ground of the buffalo, and which in the the feeding ground of the buffalo, and which in the next few years, will be transformed into the prosperous homes of a "new nation."

SAMPLE YIELDS OF WHEAT

Our land is part of the celebrated Indian Head Wheat District. From a long list of yields last year in that district, furnished us by Supt. Angus Mackay, of the Dominion Experiment Farm at Indian Head, we select the following:

THESE LANDS POINT THE WAY TO RICH AND PORFITABLE INVESTMENTS FOR EITHER THE FARMER OR INVESTOR.

What's the Use of Paying Rent when you can get the best prairie land in the world that will produce 40 to 50 bushels of wheat to the acre. Selling at from \$6.50 to \$7.50 per acre. Small cash payment, balance in 5 years at low rate of interest. What's the Use in Trying to Make Money on land that costs \$40 to \$50 per acre when you can buy more productive land at one-eighth the cost and where farming can be done more easily

What's the Use IN HAVING YOUR IDLE MOFTLY EARNING LITTLE OR NO INTEREST. The investor will find in these lands a profitable and absolutely safe investment. This great "Sleeping Empire" has awakened. No land movement in the history of this country has equaled in magnitude the tremendous immigration or settlers that is now rushing into this fertile district. These lands will double and treble in price, and the investor who will buy lands now will be sure of a large advance.

5,000 Settlers Will Go Into this District Next Year.

Remember what we tell you, now is the time to buy. The rush is on and these land will advance tremendously by spring. There can be no question about this. The rapidly increasing demand must mean a rapid increase in price. Will you grasp this opportunity and make some big profits or let some one else have them? It's a simple proposition, the finest Farming Land in the world at from \$6.50 to \$7.50 an acre on easy terms.

POON'T WAIT FOR THE ADVANCE. BUY NOW.

Mr. Dan Trestain is busy drawing gravel. He is preparing to raise his barn in the spring, and intends to put a cement wall under it.

Mrs. Gilmore, of Peterborough, who has been boarding at Mr. C. Simpson's for the past two months, returned to her home to spend Christmas.

The county is laying plank over the Strathburn river bridge this week. The plank will be removed in the spring, when cement will be put on, and will be used to repair the Watterworth bridge. New life for a quarter. Miller's Compound Iron Pills. Sold by J. L. Luckham.

KILMARTIN.

Mrs. Dan McGugan has recovered after a short illness. Joseph Penfold, of Chatham, called on his old friends last week.

Frank Stidwill, teacher in No. 17, will spend his holidays at his home in Dutton.

Dougald McKellar has sold 50 acres of his farm to his brother, Neil, of

Alvinston. Mr. Morrow, high school teacher, of Glencoe, was the guest of Rev. Dr. McDonald last week.

Alexander Manson, who is studying in Toronto, is visiting his grandmother, Mrs. Alex. McTavish.

Mrs. Arch. McKellar, townline, who has been seriously ill, is, we are pleased to say, on the mend.

Miss L. M. Stapleton returned to her home in London for the holidays.

Miss Stapleton is engaged to teach in Riderton school at a salary of \$325. D. F. McLachlan, of Toronto Medical College, is spending the Christmas holidays at his home here.

Miss Mary Campbell, who is now teaching near Bothwell, has been engaged to teach in S. S. No. 23, Brooke, for next year.

Randall Stewart, of Dawn, who has been working with John H. McFarlane for the past two years, returned home accompanied by Jas. Munroe, of Mosa.

Duncan McKellar, who spent the summer in Manitoba, arrived home about a week ago. Duncan thinks that is the country and intends returning in a month.

IT IS KNOWN EVERYWHERE.—There is not a city, town or hamlet in Canada where Dr. Thomas's Electric Oil is not known—wherever introduced it made a foothold for itself and maintained it. Some merchants may suggest some of the Pere Manquetie Raiiroad in the Union Depot, Detroit.

Such recommendatians should be received with doubt. There is only one that is the country and intends returning in a month.

Take nothing else.
