PLAIN TALK FROM MR. TOLMIF.

Protestantism Needs No Unchristian Champions, But Can Delend

Itself. WINDSOR, Jan. 22.—The Presbyterian Church was filled to overflowing last n and Mr. Tolmie preached a sermon of great force. Mr. Tolmie has a way of talking right out in the meeting. Last night he spoke of the many ways in which people commit sacrilege. Starting from Biblical times he brought his discourse down to the present day, and spoke of the manner in which some men set themselves up as protectors of Protestantism and take a stand against a certain religious creed when in fact they have no interest in religion or the church at all and only take up the fight against the particular church which they oppose because of political differences. Mr. Tolmie said that Protestantism would take care of itself, and no man unless he be a Christian had any right to take part in the affairs of the church or to dictate as to the particular creed which a man should follow. He did not mention

KNIGHTS ENJOY THEMSELVES.

Prospect Lodge, No. 10, K. of P., Entertains the Grand Chancelor.

The large hall in the Duffield Block was well filled with Knights of Pythias last evening. It was the regular meeting of Prospect Lodge, No. 10, but the gathering was made more than usually interesting by the attendance of several distinguished guests. The grand chancelor, W. E. Rispin, of Chatham, paid his official visit to the London lodges, accompanied by Past Grand F. J. Fitzgerald and Grand In-

ner Guard W. Smith (London), Grand Outer Guard R. Poulton (Brantford) and District Deputy S. Southcott, of this city. After routine business was disposed of, addresses by the visitors and several local brethren were made. The grand chancelor briefly reviewed the exisiting condition of affairs and paid a high compliment to the officers and members of Prospect Lodge.

The visitors and their friends were then invited to the parlors of the Hub Restaurant, where they enjoyed the hospi-HOOD'S PILLS cure liver ills, constipation, tality of Prospect Lodge in the form of an oyster supper. The toast list began as usual with "The Queen and Royal Family," which was heartily responded to, the com-pany singing the National Anthem.

"The Governor-General and Lieutenant-Governor" was coupled with the name of Ald. F. J. Fitzgerald, who spoke in a pleasing manner.

"The Supreme Grand Lodge of Canada" could not have been linked with persons more suitable than the grand chancellor and Mr. R. Poulton, grand outer guard. Both gentlemen assured the gathering that greater prosperity than ever was in store for the order in Ontario.

Londoners only were called upon in connection with "Subordinate Lodges." They were Messrs. R. Ironsides, of Mizpah; R. Cadwallader, of Myrtle; W. Partridge, of R. Bonney, of Columbian. All spoke of the progress being made by the order in the

Noted Educational Institution.

A HOME AND SCHOOL COMBINED.

Sparham Sheldrake, Principal and Proprietor.

He Speaks in Glowing Terms of a Medicine That Has Cured Thousands.

Lakefield, in the county of Peterboro, E. R., is one of the pettiest towns in the Province of Ontario. It is beautifully situated on the Grand Trunk Railway, and can London; R. McWhinney, of Prospect, and boast of advantages which more pretentious towns cannot lay claim to. The people of Lakefield are enterprising; its business men keep abreast with the times, and heartily co-operate in every undertaking calculated

Amid the bustle of business, manufacturing enterprises and general municipal matters, the subject of education and the proper training of the young is not forgotten. The good people of Lakefield recognize the great importance of educational institutions, and have much reason for self-congratulation on their success in this direction.

The cause of education in Lakefield has received a great impetus since the establishment of Mr. Sparham Sheldrake's "Preparatory School for Boys." No other school in the Province can better qualify boys for the higher branches and a regular university course.

"The Grove" combines all the advantages of a high-class school and a refined and Christian home. Its reputation stands so high to-day that many of the best families in Canada and the United States send their boys to this ably-conducted school.

Mr. Sparham Sheldrake, the able and accomplished principal of "The Grove," though assisted by an efficient staff of work; his great aim is to make his boys what they should be, from a moral and educational point of view.

The coldest part of the State. The balloon burst when it had reached a height of 300 feet.

Odell cut the parachute loose on the

In the work of directing and teaching, Mr. Sheldrake has been eminently successful. Like many other men he has overworked and overtasked his physical powers. The strongest systems must suffer when this is done; ordinary human strength cannot hope to accomplish herculean labor incessantly. Mr. Sheldrake soon felt the effects of continued overwork; there naturally came a depression of strength and vigor, a failing of appetite, inability to rest properly, and a general lowering of the nervous system.

At this serious and critical time, Mr. Sheldrake at once recognized the necessity of prompt treatment with a reliable and honest medicine. He had a knowledge of what Paine's Celery Compound had done for the sick and suffering in Canada, and he wisely decided to use this medicine that had cured, strengthened and given a new life to thousands of others.

The results in this case are too well known to require details. Mr. Sheldrake's success with Paine's celery compound is a fact known to scores of people in Lakefield and elsewhere. He was so impressed with the marvelous healing powers of the great medicine, that he felt it his duty to strongly recommend it to others who

No other medicine of this century has ever received such a hearty indorsation from our best people. Such men as Mr. Sheldrake do not tolerate or countenance the ordinary and useless advertised medicines of the day. Men and women who have the same social standing as Mr. Sheldrake are never imposed on or influenced by dealers to take something they represent as just as good. If Paine's celery compound was sold at double its present price, all the wiles, schemes and artifices of dealers would not prevent or curtail the present tremendous demand for nature's true life-giver.

Mr. Sheldrake, for the encouragement of the sick and suffering, writes as follows: "I have used Paine's celery compound for several years with unvarying beneficial results; in fact I seldom use any other. As a nerve tonic, and in cases of over-work or depression, I firmly believe it to be unequaled; it is also a splendid appetizer. I have constantly recommended it to my friends, and shall continue to do so as long

as it retains its present excellence." Surely this testimony is sufficiently strong and assuring for all who stand in need of a medicine to drive off disease. Paine's celery compound is guaranteed to do for the weak, broken-down, rheumatic, dyspeptic, nervous and sleepless, a work that no other medicine can accomplish; it always cures because it reaches the direct seat of trouble. Reader, if you think Paine's celery compound is what you need for your case, do not for one moment be influenced to use any other, no matter how strongly recommended by dealers.

We, the Liberal party of Canada, in con-

vention assembled declare: That the customs tariff of the Dominion should be based, not as it now is, upon the protective principle, but upon the require-

ments of the public service. That the existing tariff, founded upon an unsound principle and used as it has been by the Government as a corrupting agency, wherewith to keep themselves in office, has developed monopolies, trusts and combina-

It has decreased the value of farm and other landed property;
It has oppressed the masses to the enrichment of the few:

It has checked immigration; It has caused great loss of population; It has impeded commerce; It has discriminated against Great

In these, and in many other ways, it has occasioned great public and private injury, all of which evils must continue to grow in intensity so long as the present tariff system remains in force.

That the highest interests of Canada demand a removal of this obstacle to our country's progress, by the adoption of a sound fiscal policy, which, while not doing injustice to any class, will promote domestic and foreign trade and hasten the re turn of prosperity to our people

That to that end, the tariff should be reduced to the needs of honest, economical and efficient government

That it should be so adjusted as to make free, or to bear as lightly as possible upon the necessaries of life and should be so arranged as to promote freer trade with the whole world, more particularly Great

Britain and the United States We believe that the results of the protective system have grievously disappointed thousands of persons who honestly sup-ported it, and that the country in the light of experience is now prepared to declare for a sound fiscal policy.

The issue between the two political parties on this great question is new clearly defined.

The Government themselves admit the failure of their fiscal policy, and now profess their willingness to make some changes, but they say that such changes must be based only on the principle of protection.

We denounce the principle of protection as radically unsound and unjust to the masses of the people, and we declare our conviction that any tariff changes based on that principle must fail to afford any substantial relief from the burdens under which the country labors.

This issue we unhesitatingly accept and upon it we await with the fullest con dence the verdict of the electors of Canada
