## PLAYING WITH WATER.

The day was very warm and the mother of a young flock set near a window sewing with her house guest who was making a stay of some weeks. Suddenly the mother lifted her head, listening.

"There's that clump of a baby turning on the water faucets again. She's simply crazy about playing with water," she exclaimed. "She soaks her little rompers and dresses as fast as I get dry ones on her, and I cannot keep her out of the bathroom, where she can reach the tub faucets. I don't know what to do with her."

"Why not let her play with water?" inquired the guest quietly. "I think it is entirely natural that little children should be fascinated with water. Look at them at the seashore or the lake, and see how they love to go in wading in cool, rocky brooks. Such weather as this your baby couldn't catch cold. If she were at the beach, her little feet would be wet half the time, but the warm sun would protect her."

"I think it is Dorothy Canfield Fisher, in her book on Montessori, who tells of her discovery about letting her little girl play with water. Instead of scolding her for it, she deliberately gave her a big dishpan of water out on the grass and two little tin cups. The child not only had a joyous time but, by pouring water from one cup to another and back again, gained excellent control of her muscles and a trained eye."

"If I were you, I would sink a large foot-tub out here in the yard and fill it with water every day. Put it where the sun will warm it, and let the children play in it. You live so far from the water that they never have the fun that many children know, and it isn't fair to them. They will be rapturous over this

miniature lake, and you can keep an eye on them and see that they do not stay wet too long. Let them splash and dangle their toes and sail small boats. Even if they fall in it can't hurt them, as it would be only eight or ten inches deep. It will equal the sandpile as a source of healthy enjoyment and a means of body-building."

ORGANIZE NEW LODGE  
OF FORESTERS IN CITY

Last night saw the birth of a new Foresters' lodge in London. It is to be known by the patriotic name of "Pride of London." Sixty women were initiated into the new lodge at the big ceremonial and banquet held last night in the Ancient Order of Foresters' Hall, London East. Mrs. Rhoda Stoneman of Dundas, high chief companion, and Mrs. M. Chuskey of St. Thomas, past high chief companion, were present and conducted the initiation service. Among those initiated last night was Dr. Cameron Wilson, who was received into the new lodge.

The energetic work of Mrs. B. M. Davis, secretary of the old Princess Magnolia Circle, out of which the new lodge had its beginnings, was largely

responsible for the success which has accompanied the organization efforts. Others equally industrious in connection with the formation of the new lodge were Mrs. Elizabeth Sherridan and Mrs. Emma Melin.

The election of officers and initiation was followed by the banquet and a dance.

## Mothers and Their Children

A Sick-a-bed Cupboard.

One Mother Says:  
Mothers often find it hard to amuse children who are ill. I have found it a great help to keep a cupboard filled with games, puzzles, paint boxes, and illustrated magazines which may be painted or cut out. This cupboard is called the Sick-a-bed Cupboard, and is never opened except in case of illness. (Copyright, 1923, Associated Editors.)

young lads will be then given an opportunity of displaying their sportsmanship. A silver cup donated by Mr. Charles Hunt will be competed for, and a silver medal will be presented to the boy who has the highest standing for efficiency and good behavior. Numerous other prizes have been donated by members of the cathedral.

The camp leaders will be assisted by three of the older boys, who are too old to sing in the choir, but who still take an interest in its activities. These boys are Messrs. Jack Marvell, Melbourne Turner and Don Colerick. During Mr. Dickinson's absence at camp, Mr. J. H. C. Woodward will act as organist at the cathedral.

## Thin, Impure Blood

Means a General Weakness and Loss of Health.

If people would realize the importance of keeping the blood rich and pure, there would be less sickness. The blood is the means through which the nourishment gained from food reaches the different parts of the nourishment that reaches the food and organs of the body is tainted with poison, and disease follows. The blood also is the medium by which the body fights off disease. If the blood is thin and watery the power of resistance to disease is weakened. If you are weak and rundown, if your nerves are frayed, if you lack ambition, have no appetite, and are short of breath after slight exertion, the trouble is almost always due to poor blood. In case of this kind you should take Dr. Williams' Pink Pills to build up the blood. They help to enrich and purify the blood from first to last, and in this way bring new health and strength to weak, run-down people. Mrs. John Timmons, Elmville, Ont., tells the benefit Dr. Williams' Pink Pills were to her, as follows: "I became very weak, and was hardly able to walk, and had to be helped upstairs. I had no appetite and slept poorly at night. I finally went to a doctor, who told me the trouble was lack of blood, and that my condition was serious. He gave me medicine, which I took faithfully, but did not improve. I was advised to try Dr. Williams' Pink Pills and did so, and after I had taken two or three boxes felt that they were helping me. I could eat better, and I slept better. I continued using the pills for some time longer, and quite recovered my old-time strength and feel that I have to thank Dr. Williams' Pink Pills that I am not an invalid today."

You can get these pills through any drug dealer in medicine, or by mail, post paid, at 50 cents a box, from The Dr. Williams Medicine Company, Brockville, Ont.—Adv.
