# AGAIN IN LONDON

Mayor Wenige's Slogan During Reunion Week Producing Desired Results.

PROFITS BY \$300,000

It was not in vain that Mayor G. A. Wenige broadcasted throughout Old Boys' Week his famous slogan, 'why not stay here."

Two families at least, which years ago moved to the United States, have informed the mayor that they intend to return to the city.

"We didn't realize that he had left such a wonderful city. London is certainly wide awake," they informed his worship as they left for home to pack up their belongings.

their old homes. For the most part they hesitate, because they have property which they must sell before making a move.

"I am tickled to death with the everything went," the mayor The Advertiser. "Wasn't it people will vote it a success."

Mayor is Delighted.
The mayor's heart was made glad by the way in which the young people took possession of the city on the last three nights.

"I think those street carnivals are splendid things. We should have more of them. In fact, I am going to see if we can't stage them at least The mayor wishes to extend his

thanks to the citizens for decorating the hormes. Everyone responded splendidly, he said. He was pleased, too, with the performance of the police. They were very broad-minded and tolerant

throughout the week. It may be said right here that as chairman of the police commission, the mayor gave members of the pclice force a long talk before the Old Boys returned on how they should work throughout the week.

His worship does not believe that the citizens behaved any the worse ecause the police were lenient. He knew only of one instance where there was rowdyism, and the police, he said, knew all who had stepped over the mark at that time. The mayor estimates that at least \$300,000 was brought to the city by

the visitors. This money, he said, would benefit every business establishment, for eventually practically all would receive a share.

In addition to that, he said that

no one could estimate the value of the advertising the city received. People at home, too, had become more convinced than ever that London was a good city. Start Organization Now.

was none too long to make all the his brain with reparations figures." preparation 'necessary. A strong organization would be formed in London in the very near future which would work hand in hand with the international association. Edwin Smith, who as seretary of the London Old Boys' Association,

deserves much credit for the success of this year's celebration, was loud in his praise of the work done by "He worked harder than any per-

son in this city to make the reunion a success, and he deserves all the a success, and he deserves an acceptance of the success, and he deserves and success, and

committee: Mr. Hamber of the committee, he said, worked faithfully ing today throughout the world, are at all times and was fully responsible expected to bring to light the real for the beautiful appearance of the end must detamine, which in the at all times and was fully responsible decorated streets.

The secretary said there could be no doubt about the success of the re-union. In every way it had come up to his anticipation. As his books were not closed, he could make no statement at present on the financial standing of the association.

# YOUNG SWIMMER'S CONTINUED FROM PAGE ONE.

Saturday's meet. All are excellent wimmers.
"I am at a loss to know where the

dren inherited their liking for the er," Mr. Manuel told The Advertiser this morning. "I can swim about the length of a room, while Manuel has no love for the water

"For three or four years we spent the summer at Ipperwash Beach, and it was there that all of them learned to navigate. They were in the water all the time, and the boys used to be all the time "darin" their little street to do stunts in the water. I guess that's what made her such a

good swimmer."
Two years ago all the boys finished in the mile and a quarter swim at rwash, and that same year "Pat" also made quite an impression at that resort with her speed in the water. Heorge Corsan, the widely known instructor, who spent two weeks this summer teaching at Thames Park, praised the work of the girl, and prepraised the work of the girl, and pre-dicted great things for her if she continued to progress.

"Pat" is an eighth grade pupil at Victoria School, and does most of her water cavorting in the Thames tank.

### THINK CROSSING FATALITY DUE TO RACE WITH TRAIN

Associated Press Despatch.
Lake Crystal, Minn., Aug. 13.—Accidental death was the verdict given yesterday in the deaths of George E. Baker and his two daughters, Mabel. 25, and Inga, 7, of Janesville, Minn., killed in a crossing accident here on Saturday.

The coroner's jury expressed the opinion that the Baker automobile was trying to beat the train across the tracks.

Failure To Bring Allies Together Results in Critical Developments.

WORST SINCE

By HAL O'FLAHERTY. Special Cable to The Advertiser.

Copyright. London, Aug. 13.-Great Britain's attempt to bring her war allies to a sense of the realities now existing in Europe failed more completely than the most pessimistic believed possible.

Grave Turning Point.

The series of solemn documents on the reparations question published today marks the gravest turning And that is not all. Mayor Wenige point in world affairs since 1914. They open roads of new alignment and new diplomatic action so dangerous seriously thinking of returning to not at once grasp the whole signifi-ance of their government's new foreign policy.

A sharp division exists amongst

the various newspapers. One section, represented by the Manchester Guardian, the London Telegraph, the Times, and the Daily News, is supporting the government of the control of the contr porting the government, while the Daily Mail and reactionary Morning great. There may be a few pessimists left, usually there are, but I believe that more than 99 per cent of the win's firm expression of rights win's firm expression of rights.

If any majority opinion exists in
England today it must be on the side of the government, because the average Englishman believes his country has as much right to independent action as France, but has hoped against hope that some middle ground could be found on which the two governments could stand to-gether, facing the once common enemy. He feels that his representa-

> now has arrived for decisive separate action with, if possible, some expression of friendship for France. Expected to Change. Those who still feel that Great shows how terribly the country has suffered financially and economically

> as the result of the disintegration of middle Europe.
>
> The Daily Mail is appealing to men of limited mental calibre or grossly mistaken, and obviously are pursuing the wrong course. They are pulling up faggots for another Euro-pean conflagration. They are back-ing the Germans while the nation backs France. This bitter tirade parallels the surprising line taken by the Morning Post, which declares that separate action may lead to an

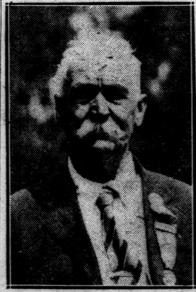

"It may be difficult for us to agree with France," says the Post, "but it He stated that organization in 1926 would men who seldom reads diplomatic documents and has never bemused

Believed To Be Right. The Morning Post is believed to be right about the opinion of men who never read diplomatic documents, but owing to the publicity given the recent exchange of notes between France and England the average newspaper reader is becoming fairly familiar with the intricacies of the Anglo-French argument. He sees not quist, whom she resembles, only the logic of his government's strange occurrences which only the logic of his government's case, but agrees with it. It is believed generally he learns for the first time that during the peace treaty

## THEFT OF SAMPLES SENT OUT BY MAIL

Canadian Press Despatch.
Winnipeg, Aug. 13.—Declaring that he considered their chief punishment was the loss of their positions and the attendant disgrace, Magistrate R. M. Noble, sentenced Samuel Thompson and George Wood, two street railway employees, to ten days in jail. They were convicted of stealing car tickets. Street railway officials say that thefts amounting to \$25,000 have been discovered lately.

The service of the positions and the mails have noticed a large the mails have noticed a large that the mails have noticed a large to the sender. The irregularities have been most noticeable in the case of tea samples and after thorough investigation the Inspection Division of the Post Office Department has found that many of the omployees are responsible for the petty thefts. A strict warning against the continuance of this practice has therefore been sent to every office in Canada.

In a communication received in London office the Inspection office in Canada.

Young Grandson of James Gray Tells of Fun in Ashcroft, B. C.

CITY BOYS JEALOUS

The following description of the good times had by a boys' cowboy band from Ashcroft, B.C., is written By Mervyn Huston, 10-year-old grandson of James Gray president of the London Chamber of Commerce. Mervyn has a sense of humor, and as he says: "Gee, I bet this will make all those city kids wish they lived in Ashcroft."

Last year a bunch of us boys in Ashcroft started up a cowboy band. We built a little shack in Dr. Beech's yard, where we always had our meet-ings. We selected Harold Berry for captain. The sign that we belonged Berlin, Aug. 13.—Grover Cleveland prince; Roger Sperber, a French de-Bergdoll, the United States draft tective and a citizen of France; and a red bandana around our necks. During the winter we played hockey. and one time we played the girls' cowboy band, but it would not be to mention who won. On Camping Trip.

Mr. Cameron, one of the boys' fathers, said if we stayed together

all winter he would take the whole band out on a camping trip in the summer holidays. It seemed a long time coming, but at last it really did. Gee, we were excited. We found out that it was going to be a round-up at McLean's Lake. There was only a wagon road, so Mr. Cameron got horses and saddles for all of us, and a big wagon pulled by four horses took our grub. I worked hard and saved all my money and bought a lasso and borrowed a pair of chaps. The ranchers around here all turn their cattle out in the mountains, and once or twice a year they drive then called a round-up. There are often from 500 to 1,000 head of cattle in a round-up.

I had a kit-bag and I packed it full train from the C. N. R. station for Sarnia. There they will celebrate "Derry Day," which is always the bathing suit and a hat. At 8 in the supreme event of the year for the morning we were off. The horse I had was once a race horse, and I am go ing to try and buy him, for Grandpa Gray sent me money to get a horse with a colt, and she was very hard hundred pounds, but it would go dandy. Everybody was satisfied with their mounts. We stopped at ation.

Miss Holmquist bears a striking resemblance to Miss Minter. Some days later, during a dinner party at the house, Miss Holmquist stepped through the French windows to the porch. A shot was fired, evidently from the shrubbery on the dark lawn. The bullet grazed Miss Holmquist's shoulder, inflicting a flesh wound. dandy. got there it had stopped, so we put up our tents, cooked supper and went to bed. It was cold that night.

know, because I slept with my feet sticking out. got up. There was just a little fire left, so we warmed ourselves. The men were not up yet, but got up soon and made breakfast, and we had a football game afterwards. Then we went after cattle. Mr. Cameron put us all at posts to stop the cattle from getting away. We chased them down to the lake and separated the cows with calves from the others and chased them into the corral, and then separated the calves from their mothers and branded them. Out of 50, we boys roped 48. That night we made

a big camp fire and went to bed.

Cook Was Indian.

Our cook was an Indian chief named Scotty, and next morning he made flapjacks for breakfast. It was most exciting to watch him, because he had two frying pans on and he would first flip one flapjack up in the air to turn it over and then the other. Then, we found that two calves had got away without branding, so Scotty and another man went after them, and Scotty chased one of the calves right into the lake, and his horse went right in after it and swam to catch it, and at last they got them both branded. Afterwards Mr. Cameron took us around the lake and we

eron took us around the lake and we
went in for a swim.
Casualty list of the trip:
Max Earle got his shin kicked in a
football game.
Alan Cameron got four hornet

stings. I roped a calf and was trying to ride, but the mean thing bucked me off and stepped on me.

After that Mr. Cameron thought he would try to ride one, so he put a surcingle on, but the calf got the best of him. He had a good ride, but landed on his back at the finish, but

It all came to an end at last though we wished we could stay all summer. We all think a round-up is as good as Christmas. We were all sunburned when we got home, and some of the lays that hadn't been used to the boys that hadn't been used to walked kind of funny. We all thanked Mr. Cameron very much, and we all hugged ourselves because we lived in Ashcroff and not in a city.

## **WESTERN LOOKS FOR** MANY MORE STUDENTS

Increased Enrollment of 200 **Expected When Coming** Term Opens.

An increase of 200 students is expected at the University of Western Ontario for the coming term, according to Col. W. J. Brown, executive secretary of the university. Last year some 600 men from Western Ontario attended the classes and took work leading to degrees. This coming year there will be near 800 men in attendance. It depends largely on what classes are being taken as to how many the university can acas to now many the university can accommodate. More men have already applied for admission than can possibly be taken care of this term.

The new buildings are not made with the view to being resident dormitories, but in the future, when the organization of the university is complete and

but in the ruture, when the organiza-tion of the university is complete and the benefits of the work are more widely understood in the province, it is hoped that the student body will be a resident one, and that dormitories will be in-cluded in the buildings,
