CAMPBELLTON, NEW BRUNSWICK, FRIDAY, MAY 21ST, 1909

BURGLARS BUSY AT LOGGIEVILLE

Broke Into O'Leary's and Montgomery's Store Wednesday Night and Carry Away Goods.
LEFT NO CLUES.

CHATHAM, May 20.—(O'Leary & Montgomery's large store at Loggieville was broken into last night, and boots and shoes, revolvers, hardware, tobacco and groceries to the extent of \$300 were stolen. Entry was made by breaking a window in the office and climbing over the roof. The safe had a combination lock. The till was broken open and \$25 in change was also taken. The safe was not touched. Both Mr. O'Leary and Mr. Archibald were in Chatham last night and the first known of the robbery was this morn-

WILL SUE I. C. R. FOR BIG DAMAGES

Albert Jardine Asks \$25,000 For Injuries Sustained in Wreck.

ACCIDENT LAST YEAR

CHATHAM, May 20.—Proceedings preliminary to an important damage case have been begun in the Exchequer Court of Canada, at the next sitting of which in St. John, the case will come to trial. A claim for damages to the extent of \$25,000 is involved. This amount is asked from the Dominion Government by Albert R. Jardine, a chauffeur who claims that he has suffered a loss of that extent on account of injuries received in a collision on the Intercolonial Railway when Mr. Jardine's back is said to have been very severely injured, and his face to have been badly cut about the mouth.

The accident took place on April 1st, 1908, and the claimant will endeavor to show that it was through the negligence of the crew of the I. C. R. freight train, which collided with the passenger train he was aboard at that time that the accident took place. The collision took place head-on, there being only one line of rails on the branch. Mistaken orders were reported at the time to have been the cause of the trouble.

DO YOUR EARS RING?
This is the beginning of Chronic deafness. A simple remedy that many physicians advise is to slowly inhale Catarrh. If not checked, the result is "catarrh" a few times each day. The soothing vapor of Catarrh cures the Catarrhal condition and hearing impaired at once. Head aches, ringing ears are cured. For Catarrh, deafness, throat nose and lung catarrh there is probably no remedy so efficient.

THE NEW I. C. R. BOARD OF MANAGEMENT

To Have Permanent Offices in Montreal and Hold Meetings There

OTTAWA, May 18.—The New Board of Management of the Intercolonial will hold its meetings and have permanent offices in Montreal. It will have the powers of the executive of a railway company. It will be given a free hand so far as is consistent with ministerial responsibility to Parliament. It will control rates sub-ject to approval by Order-in-Council. Section et alia shrill shrill shrill

HAVE A GOOD COMPLEXION
First of all you need plenty of blood—the red kind. Have it pure, or otherwise blotches and pimples will render your natural bloom unavailing. Nothing can equal Ferrone, either as a former of rich blood or as a skin purifier. By driving out humors, Ferrone cleanses inside just as water does outside. Because of the nourishment and building properties it contains, Ferrone brings the system to a high point of vigor, from which shines vim, animation, good spirits. For good spirits. For good looks, good health, take Ferrone. It is sold in five boxes.

KANSAS STATE IS MOST FEARFULLY 'DRY'

TOPEKA, Kansas, May 18.—Henceforth it is a crime to drink intoxicating liquor even from your own bottle in the State of Kansas. The law is said to be the most drastic in existence. It was passed by the last legislature in an endeavor to supplement the prohibition law, violations of which have been notorious. The new law is now in effect.

A PAINLESS CORN CURE
Easily applied—costs but a quarter—kisses them—kills the germ—discharge and healing—cures every trace of Catarrh. You're absolutely certain of cure for Catarrh, throat irritation, colds and bronchitis. If you use Catarrh, 25c. and \$1.00 sizes sold everywhere.

BACHELOR OF ENGINEERING

Walter C. Gillis, B. Sc. of Matapedia P. Q. a graduate of the University of New Brunswick in 1907, has this year been granted the degree of Bachelor of Civil Engineering (B. C. E.) from the University of Manitoba.

FOR SALE

Two hundred acres, situated 2 1/2 miles from I. C. R. Station at Tide Head. For particulars apply to Mrs. Margaret Duncan, over the White Drug Store, Campbellton.

BARGAINS IN ENVELOPES

We have just received a hundred thousand good grade cream envelopes which we will print at \$1.75 per thousand. Just the thing for business correspondence.

BUOYS PLACED

The spar buoys were placed in position yesterday.

WANTED—Painters—Apply

to Geo. H. Metzler, Town.

THE KING OF FRANCE

has just received a college education makes a man a perfect gentleman.

Bill—Do you believe a college education makes a man a perfect gentleman?

Bill—No, I don't. My brother was on a college football team and he's minus a finger and part of an ear. You can't call a perfect gentleman, I'm sure.

Pat, asked Scribner's little son,

why do poets wear turn down collars. "It's a habit they acquire my son, from their experience with editors."

I heard a minister swear yesterday.

He must have missed his vocation. No, I think he missed his vacation.

ARBITRATION NOW IN PROGRESS AT COUNCIL CHAMBERS

**Proceedings Dragging Along and Expenses Piling up
---A Huge Mass of Evidence Being Taken
---Many Witnesses.
END NOT IN SIGHT.**

The arbitration proceedings are progressing slowly, and much evidence has been taken. It was thought at the outset that three days would be ample to complete the work, but the fourth day is well spent and up to noon witnesses were being examined, cross examined, recalled and recalled, until the spectator could hardly follow in the maze of evidence (and winter and summer roads through the Duncan property). From present indications it seems as though it would take some time before the proceedings will be concluded. In the meantime costs are piling up. Very little interest is being manifested in the proceedings, very few spectators being in attendance and the evidence taken is of very little general interest, and hardly worth giving space which could be used to better advantage.

SCENE IN QUEBEC LOCAL HOUSE

Oliver Asselin of La Patrie Staff Struck Hon. M. Tachereau.
ASSELIN ARRESTED.

4132000, May 18.—One of the most exciting scenes ever witnessed in the provincial parliament was enacted this morning. Just as the members were leaving the assembly chambers when Oliver Asselin, formerly editor of La Patrie, now of La Patrie, struck Hon. M. Tachereau in the face. In reply to Mr. Bourassa, Hon. Mr. Tachereau, as Mr. Asselin claims, had referred to the latter as having been a boarder in a house on St. Denis street, Montreal, where a cabdriver was received and addressed to Premier Gauthier in regard to the message which bore the latter's name, but which the premier claimed to be a forgery.

CATARRH CURED OR

The cause of Catarrh is a germ. It multiplies in the lining of the nose and throat, spreads to the bronchial tubes and finally reaches the lungs. Catarrh can't follow to the lungs—it goes to the stomach—and fails to cure—Catarrh is inhaled. It goes everywhere—gets right after the germ—kills them—kills the germ—discharge and healing—cures every trace of Catarrh. You're absolutely certain of cure for Catarrh, throat irritation, colds and bronchitis. If you use Catarrh, 25c. and \$1.00 sizes sold everywhere.

THE OLD LADY—Lor Sir, I do love

to hear you preach waven. You get so eloquent.

CONFERRED TO TWO MURDERS

PERTH AMBOY, N. J. May 19.—George Voss, the Hungarian, who surrendered himself to the police here yesterday, saying that he had murdered his wife, and showed the police where the body of his victim lay, made a second statement to Chief of Police Burke today in which he declared that he killed Joseph Ivan, in Toledo, Ohio in 1904. Voss told the police that he had lived in Toledo under the name of George Holo, that Ivan and he boarded the same hotel and that he killed Ivan as the result of a quarrel and then fled to the east.

Yes, answered Mr. Dustin Rink, if

I keep on multiplying my enormous interests I shall have every citizen practically paying me interest on my invested money.

And you will have good security of

course, Mr. Cayenne.

Of course.

Then you do not seek to be the father of your country. You merely want to be its uncle.

BORDEN TO MAKE A

TOUR OF THE WEST

OTTAWA, May 20.—Mr. R. L. Borden, who leaves shortly after the close of the session for a long summer vacation in Great Britain and the south of France, will on his return in August or September, take a trip through the western provinces, speaking at a few points and conferring with leading Conservatives as to the party's interests in the west.

I fell out of the window of my flat

yesterday.

And you were on the fourth floor.

That was terrible.

Yes, but I don't know how to face

the janitor. I'm sure Two violated some clause in my lease.

OBJECTION TO THE WORLD

**Britain And America Will Be Such
Says Canadian Speaker at Arbitration Conference.**
WATERWAYS TREATY SOON.

LAKE MOHONK, May 20.—At this morning's session of the Lake Mohonk conference on international arbitration, Hon. Mr. Wu Ting Fung, Chinese minister to the United States spoke on China's attitude toward arbitration and was followed by Justice J. J. MacLaren of Toronto.

After referring to the amiable relations between the United States and Canada, Justice MacLaren outlined the methods under which the bodies of fresh water which separate Canada from the United States have for nearly a century been free from all warlike demonstration or display. In April 1927, he said "without a formal treaty or even a convention by a simple interchange of short letters between the British Minister, Mr. Bagen, and Mr. Rush the American acting secretary of state, it was agreed that the naval force to be maintained on the lakes would be confined to a definite small number of vessels. It was a simple stipulation that might be terminated by either country on six months' notice. To their everlasting credit, he said that they have not only kept strictly within the limit but actually dispensed with the war vessels entirely and that this pacific condition has now been maintained for more than eighty years. May the day be so far distant when any contrary policy may obtain."

The speaker then told of the successive peaceful steps taken in the definition of the boundary between the two countries and said that the land portion is as free from military display as the water portion from naval show. "What an object lesson that," he exclaimed, "on land and water for these nations at present so heavily armed and burdened with militarism. But the greatest triumph for the principles for which this conference stands is likely to be gained within the next few months. Most of you are aware of what is known as the Waterways Treaty agreed to between the governments of the countries in January of the present year and which would not doubt have ratified already had not a member of the U. S. Senate succeeded in persuading the body to add to some grant to his state an additional advantage on conceding an equivalent or compensation to the other side."

It has been a great cause of surprise to nations whose subjects or citizens settle their differences through arbitration or the courts have been so long in the same manner. The fact is that while in a measure we have as individuals become civilized and civilized nations remain as nations and collectively largely barbarian and heathen. We need to cultivate the corporate and national conscience. In our opinion, it is greatly to be desired for our getting back to first principles.

Possibly the adoption tomorrow at the Lake Mohonk conference of the International Arbitration of a platform plank favoring a limitation of armaments among the nations is believed to be indicated by the conservation of leaders of the conference now in session here. Dean Kirschewy of Columbia University who was one of the leaders in the successful fight for such a plank two years ago, is now chairman of the business committee of the conference which prepares the platform and connects among the delegates at the conference. It is a criticism of the financial and other burdens of militarism and the wisdom of war talk between Great Britain and Germany. Albert K. Stanley the founder and host of the conference, who threw his influence against adopting such a plank last year and two years ago is understood to have modified his view, although skeptical as to any immediate possibility in the adoption of limiting armaments.

FAST TRAIN WRECKED

VINITA, Okla. May 20.—The "Meteor" a fast passenger train on the St. Louis and San Francisco Railway, east bound, was derailed at midnight at a point 22 miles west of Vinita. An unknown tramp was killed and seven passengers were seriously injured.

Why do you wear that ridiculous

hat, he growled.

Do you really think it ridiculous?

she replied graciously. How lovely you. I was afraid it wasn't quite the style.

Rach—Is your wife a good cook?

Neered—Well, just between ourselves I must confess that what she calls "floating island" always feel like calling "dismal swamp."

I am proud to say that my grand

father made his mark in the world, observed the conceited youth.

Well, I suppose he wasn't the only

man in those days who couldn't write his name, replied the bored companion.

ABLE TO BE OUT

Many friends are pleased to see Mr. Jack Cool able to enjoy a drive after his long illness.

ARRIVED TODAY

The S. S. Canada arrived from Gagetown at 2.30 this afternoon.

PROSPECTS BAD

Ontario's Minister of Agriculture is pessimistic.

TOPEKA, May 18.—Hon. James

Duff, provincial minister of agriculture is pessimistic over Ontario crop conditions.

Unless we have a good spell of

warm weather agricultural conditions this year will be very serious, said he tonight. This is the most backward spring in forty years, and only a spell of steady warm dry weather can save the situation.

BOUGHT PRIZE TOGS

The Shovel Lumber Company this afternoon purchased at auction the prize togs to be raffled in the Boston-Boston boom this season.
