## W.C.T.U. COLUMN

This department is conducted by the local Union, and is under the charge of an Editor appointed by them. This Editor assumes the responsibility for the statements and articles which appear in this column.

The following are excerpts from an article by Elbert Hubbard which appeared in the last number of the "Cosmopolitan". Coming from such a source, they are worthy of careful attention.

"I hate drunkenness, but I do not hate the drunkard.

If any man should have our friendship it is the man who has failed to be a friend to himself.

The fact is, the victim of strong drink often has all the virtues—including high intelligence and a tender, sympathetic heart—and yet when the Demon Drink clutches him, his will is paralyzed, and Satan is in the saddle.

"The worst about strong drink has never been told. It cannot be told. It escapes the limitations of language.

But I think we err in despising the drunkard. Our hearts should go out to him in pity.

A part of his hallucination often is, that he is not a drunkard. "I can quit any time," he says. But he who says that seldom quits until Death stops his mouth with dust.

"Alcohol is a poison, and the stimulation that it produces is one form of its activity. If continued, the exhilaration will break down tissue, and may result in dementia, mania, loss of speech, paralysis, disease and death.

Good consecutive work, either mental or physical, and the use of alcohol are incompatible.

I am talking especially to young men—young men who would win their way in the world—I ask "Can you afford to run the risk of ruin by dallying with this arch-enemy which has laid so many low?"

We have been led to think that to drink is manly, and to get into a condition where common sense has fled, and the tongue is tangled, is funny. But the business world always has the drinking man, no matter how gifted, under suspicion.

The use of strong drink is neither manly nor amusing, and no one who loves you, or is interested in your welfare would think so. And the truth is, any man who deliberately turns his glass down, and declines to drink anything but pure water, when the others order "Scotch", will always have the respect of "the others." Not only this, but he will have the respect of himself.

Prize your health, prize your word; prize your reason! Hold fast to the resolve, "Touch not, taste not, handle not," and work, and you will be pointed out as a distinguished person. You will possess poise and power; responsibility will gravitate to you; wealth will be yours; honour will drift your way, friendship will be your portion, and love will illumine your pathway.

## For Dyspepsia

If you suffer Stomach Trouble, and you try our remedy, it won't cost you a cent if it fails.

To prove to you that indigestion and dyspepsia can be thoroughly relieved and that Rexall Dyspepsia Tablets will do it, we will furnish the medicine absolutely free if it fails to give you satisfaction.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been properly combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia. Their proper combination makes a remedy invaluable for stomach relief.

We are so certain that there is nothing so good for stomach ills as Rexall Dyspepsia Tablets that we urge you to try them at our risk. Three sizes, 25 cents, 50 cents, and \$1.00. You can buy Rexall Dyspepsia Tablets in this community only at our store:

THOS. WRAN,  
Campbellton New Brunswick

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall remedy for nearly every ordinary human ailment, especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores

## GIRL GOES OVER MACHIAS' FALLS

Tragic Death of Miss Beatrice Allen, a Calais Girl

Machias, May 9.—A tragic drowning accident—one of the most heart-rending which Maine has ever known—occurred here Thursday afternoon, when Miss Beatrice Allen, the 19 year old daughter of Mr. and Mrs. George Allen, of Calais, and a student of the Washington Normal School, fell into the mill pond from a boom while crossing the river after school. The swift current in the river sweep her toward the falls. She paused for a moment at the brink, catching tightly at a plank which had been thrown to her. On Thursday night, after school was over, Miss Allen, together with Ruth Bridgman, another student and her closest friend, started for the post office from Mrs. David Perkin's house at Grove and Water streets. A boom of logs stretched across the mill pond, and it is frequently used as a short cut. Beatrice usually made the trip by way of the bridge, but on Thursday night the girls were in a hurry and they started over the boom instead. A plank, which had been nailed into the boom broke and Miss Allen went into the water. A number of people rushed to the scene but were powerless to render assistance.

## BADLY ULCERATED LEG

Zam-Buk Cured Her when so Bad She Had to Use Crutches

For varicose sores, bad leg, or chronic ulcers, Zam-Buk is without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards, of 164 Amherst St., writes: "Some time ago a bad sore broke out on my left leg near the ankle. For a week or two I did not heed it, but it got so bad that I could hardly walk. I sent for my doctor, and he told me that I would have to lay up with the wound. I did so for three weeks. At the end of that time the ulcer healed a little, but I could only move about by using crutches.

"The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to lay up for a year. This, I knew, was impossible, as I had a family to attend to.

"My son had cured a bad cut on his finger by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it gave me wonderful relief. It stopped the pain, which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I had no more sleepless nights, and was able to move about and do my work. I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as sound and strong as ever. To any person suffering from ulcerated sores I would say, 'try Zam-Buk.'

Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison, festering wounds, cuts, burns, scalds, bruises, eczema, eruptions, and all other injuries and diseases. All druggists and stores 50c. box, or Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

Have you tried Zam-Buk Soap? 25c. tablet.

## WHY WOMEN LIVE LONGER THAN MEN

Do Not Expend Their Vital Strength Unnecessarily—Their Figures Are Changing

Statistics prove that women live longer than men. From this point arises an extremely interesting physiological question—how is it to be accounted for that the sex which always has been considered physically stronger than men should in the majority of instances outlive men?

If we are to believe the latest authorities on the subject, we find that women are much more tenacious of life and resist disease much more readily than the average man. She is in many respects the superior of the two.

As a rule, she does not expend her vital strength unnecessarily, while the majority of men either in work, in play, or in pleasure are literally prodigal of their store.

One writer has turned out some instructive comparative figures with regard to the liability of men and women to disease and death. He says from 3 to 35 years of age the death rate between the sexes remains about even, but afterwards the scale turns in favor of women. At 40 a woman has seventy-eight chances to one against dying, while man has only forty-nine chances to one. At 60 the odds are nearly twice as large in favor of woman, and at 80 they are five times as great.

Prof. Sargent of Harvard says their figures are changing to resemble more the men: More height, deeper chests, smaller hips.

**MASTER MASON CUT PLUG Tobacco**

Some of the Pretty Girls With "MUTT and JEFF"

## "MUTT AND JEFF"

"Mutt and Jeff", an all new show this trip, will be the attraction at the Campbellton Opera House, Monday, May 19th. It is described as one of the funniest plays ever written, and certainly if not the funniest, is laughable enough to satisfy the most blasé and exacting theatre goer. "Mutt and Jeff" is a dramatization of the cartoons of Bud Fisher which appear in the New York American and other daily newspapers throughout the United States, and which are perhaps more widely enjoyed by a great majority of readers than any other feature of their paper. The play was constructed by

Gus Hill, the well known New York producer, who has spared no expense nor time to make of it one of the best musical comedy productions ever sent on tour by this enterprising manager. The play is said to be a musical comedy farce of a much higher order than the cartoon comedy playgoers have been accustomed to in the past. The present offering is easily a dollar and a half production. More than fifty people are in the organization which will present "Mutt and Jeff" here for the first time. It includes a handsome girls chorus for whom Mr. Hill has provided some very fetching costumes, and their singing and dancing is of a very high order. The antics of "Mutt and Jeff" are, of course, the principal features, but the play is so well constructed that one is royally entertained even when they are not on the stage. The best mechanics of the stage have provided the new scenic production which rivals in beauty anything seen off Broadway in years. The costuming is quite a feature and are all new from original designs of A. Edel of Paris. Some of the dancing numbers are creating a furore wherever seen this season, while the tuneful songs are very pleasing, particularly "Spanish Moon" sung in the last act.

**Canada Cement**

This label has no "second grade"

THERE'S only one quality of Canada Cement. It is the highest quality that can possibly be made with modern equipment, scientific methods and rigid inspection by expert chemists.

The Canada Cement you buy for a garden walk is the same cement that is sold by the trainload for great dams, elevators and bridges. The engineers in charge of these great works have ample facilities for testing the quality of cement.

comes up to their most rigid requirements.

The farmer has not these facilities for testing the quality of cement. He must buy a product upon which he can depend for a grade that is always of highest quality, and that therefore does not need to be tested.

You can place absolute reliance upon the quality of Canada Cement.

It's always the same and always the best. The large output—which enables us to keep the price down, enables us also to maintain the factory equipment and organization that keeps the quality up.

A Canada Cement label appears on every bag and barrel of genuine Canada Cement. See that it's on the bags and barrels of cement that you buy.

WRITE for our free book "What the Farmer Can Do With Concrete." It has told a hundred thousand Canadian farmers of the money-saving and profit-making possibilities of concrete.
