gentlemen who are endeavoring to themselves believe that the National Policy is dead will be able to draw but little comfort from the proceedings of the Canadian Commissioners at Washington. The manner in which our representatives approached the complex question of the relations between the two countries is a proof of the firm grasp that our Government have of the true situation. If reciprocity is sever obtained from the United States it will be obtained in instalments, and the instalment that is most likely to ripen first is that which has for its key the Atlantic fisheries. DRA SER.—For about 28 years I have had a cancerous growth from my upper jaw filling the whole of the front of my mouth and making me almost unable to speak. I went over to the Hospital here a short time ago and asked them if they could take it out, they told me they could and they would have to give me chloroform and cut out the lump and also a piece of the jaw. I am an old woman, over 50 years old, and I felt I would die if they started to practice their ways on me, so I went to Dr. McCully, he gave me no chloroform, he did not lay me up one day, he did not cut a hole in my jaw, but he did take out the big lump of disease, and thank God I was not butchered and am now well again and owe my life to his skill.

MRS. SARAH RACHEGORD

This cancerous growth was in years gone by removed in Guy's Hospital, London, England, and at the Old Mill they proposed to give this poor old woman chloroform; in her feeble state, 70 years old, such a course meant death, but to make assurance doubly sure it was proposed to resect the upper jaw, cut away a large portion of the bone and destroy the last hope of recovery. We beg The Telegram's pardon: We have been informed by the proprietor that criticism of the Toronte Ganaral Hospital "IS ONLY DISCREDITING A PUBLIC INSTITUTION THAT IS A PUBLIC BENEFACTION." So in future we will take them up tenderly and administer only Homeopathic doses. As there are other papers in Toronto that are not in the hands of the School Men of this city, we shall shortly open up new channels to expose the gangrene these men have temporarily succeeded in covering up.
