FIFTEENTH YEAR

LOCAL OPTION IS A FRAUD.

GLADSTONE'S SAYING SO RECALLED HIS TEMPERANCE PEOPLE.

Harcourt is Pledged to Local Option and the G.O.M. Throws a Bomb into the Party Hands by Rescinding the Prohibition System—General British Gossip.

London, Sept. 22.—Mr. Gladstone, in reply to a request for his views as to the proper method of dealing with the House of Lords, declines to express an opinion upon the subject, because of his retirement from the leadership of his party. At about the same time, however, the ex-Premier has thrown a bombshell into the midst of the temperance group of followers by addressing a letter to the Bishop of Chester against local option.

In this letter Mr. Gladstone declares that if local option pretends to be a remedy for evils for drinking it is little better than an imposture. The principles of the temperance party are maintained to be the only ones permissible or admissible, and to the great amazement of both the Gladstonians and the Conservatives adds that for long years he has been strongly of this opinion.

The Temperance Party Scandalized. The temperance party in Great Britain has been highly scandalized by this declaration, and their organs recall the fact that when Mr. Gladstone last came into power it was largely in consequence of his having repeatedly pledged himself to secure the passage of a local option measure. Consequently during his incumbency of the Premiership he approved the bill, and did not say a word in reference to the temperance party.

Since Mr. Gladstone's retirement Sir William Harcourt, who is his successor in the leadership of the party, has made the pledge made, absolutely and unqualifiedly committing the Government to the introduction of a local option bill before the dissolution of Parliament. In the course of his letter to the Bishop, however, Mr. Gladstone said: "I am glad to see that Chamberlain actively supports the temperance party."

A Heavy Blow for the Cold Water People. Sir Wilfrid Lawson, M.P., President of the United Kingdom Alliance for the suppression of the liquor traffic, has written against the change of front, saying that if the Liberals now depart from the principle of prohibition, the Government will moderate moderate drinking under the temperance party, he declares, will return to accept any compromise.

The Influential British Weekly Review (Lancet) in commenting on the declaration of Mr. Gladstone, says: "To what things are we coming if Mr. Gladstone has taken the field in this way against measures of his own Cabinet? What does the reference to Mr. Chamberlain mean? It is a serious question."

Labor Unions Opposed. Two of the strongest and wealthiest labor organizations in the United States, the Holmer makers and Shipbuilders Unions, have issued a joint manifesto denouncing the socialist movement, and the majority of delegates to the Trades Union Congress recently held at London, are in favor of a close working relationship with the State. Collectivism cannot take the place of individualism, the manifesto declares, and has become a gathering of uneducated specialists, who, were they to be put to work, would ultimately result in restricted freedom of action.

Progress would be arrested, and in a short time the working classes would be placed in a condition of absolute dependence upon the State. Collectivism cannot take the place of individualism, the manifesto declares, and has become a gathering of uneducated specialists, who, were they to be put to work, would ultimately result in restricted freedom of action.

Ports and Sherris. In ports, Marsala \$8 per dozen. Two cases of Marsala, 1890 vintage, \$10.00. In ports, Marsala \$8 per dozen. Two cases of Marsala, 1890 vintage, \$10.00.

Local Meetings. Seventy-six births, 35 deaths and 21 marriages were registered with the City Clerk last week.

Deaths. On Saturday, Sept. 22, at the residence of Mrs. E. M. Byrne, teller in the Standard Bank, Parkdale, fell from his wheel, dislocating his right shoulder. He was taken to St. Michael's Hospital, where he died this morning. Thomas P. O'Brien, 34, Queen's Park, died of a heart attack.

BEHRING SEA ARBITRATION FAILS.

Fearful Slaughter of Seals This Season, Says the Fisheries Commission.

London, Sept. 22.—The news comes from Behring Sea that the decision of the arbitration tribunal of Arbitration at Paris has proved to be a failure so far as the protection of the seals is concerned. Fully 80 per cent. of the seals have been taken this season, it is reported, were killed outside of the limits prescribed by the arbitrator.

The seals slain by the pelagic sealers are females, whose destruction by the whalers in this manner creates a practical extermination on the species in a comparatively few years.

Female Sealers of the Catch. Washington, Sept. 23.—Reports lately received from the Treasury Department have indicated that the work of the Paris arbitration tribunal would come to naught, first, because the action taken in conformity with the findings of the tribunal came too late, and second, because the restrictions upon sealers' operations were too lax.

Seals are being taken in the Behring Sea in a manner which is practically exterminating the species in a comparatively few years.

Seals are being taken in the Behring Sea in a manner which is practically exterminating the species in a comparatively few years.
