MONTREAL, FRIDAY, AUGUST 13, 1863.  
 Purchasing Department of the TRADE  
 REVIEW. See Advertisement.

The loss of the *S.S. Germania*, from New York for  
 Hamburg, and *Cleopatra*, from Montreal for Liver-  
 pool, both near Trepassey is reported. No lives lost  
 in either case. The *Germania* had \$75,000 specie.

The deposit with Government of the Etna Insur-  
 ance Company of Dublin for its Canada business has  
 been realized, and the proceeds amounting to about  
 \$9,300 are ready to be handed to the Court of Chan-  
 cery for distribution. This sum it is believed will  
 cover amount of claims of Canadian creditors as re-  
 ported to the Finance Department.

**THE SUZ CANAL.**  
 THIS stupendous work draws near completion, the  
 opening being announced to take place on the  
 17th, 18th, 19th and 20th of November. During these  
 four days all merchant ships or vessels of war arriving  
 at either end will be allowed to pass through free of  
 dues. From the 21st the charge will be according to  
 the concession, 10f. (\$2) for every passenger, and for  
 every ton according to the legal measurement of every  
 flag.  
 The formal opening will take place with great cere-  
 mony, and will be graced by the presence of many  
 men of distinction and of high rank. Among others  
 it is now stated that Prince Arthur, who was ex-  
 pected to arrive in Canada towards the end of this  
 month, will postpone his coming here in order to take  
 part in the Suz Canal ceremonies.  
 The occasion will certainly be one of much interest,

as marking the completion not merely of a means of  
 communication between the East and the West of  
 high commercial utility, but also the final success of  
 a vast work, the construction of which seemed, and  
 was declared by many eminent engineers to be a  
 physical impossibility. It will be still another accom-  
 plished fact to add to the mass of evidence proving  
 the ability of engineering science to overcome all  
 obstacles, provided only there be sufficient money to  
 provide for the necessary appliances of labour and  
 machinery.
