

U. S. Separator.

1904 MODEL.

A TRIUMPH OF PERFECTION. RIGHT UP TO DATE.

Not Only the Cleanest Skimming Separator
the World Has Ever Seen,

HOLDS THE WORLD'S RECORD - **AFRAID TEST FOR 25
CONSECUTIVE DAYS. .0138.**

BUT THE HANDIEST AND
EASIEST OPERATED.

The 1904 Model U. S. has the only
practical **LOW SUPPLY CAN.**

Fast Turn-Bushing - no lost motion
as soon as you pull on the Crank
the band begins to turn, and the
gearing stops when the crank is
released.

Safest Machines on the market; gear-
ing entirely opposed.

Easy for Service and Efficiency.

Investigate its merits and you will
buy none but

The U. S.

Read what President Dairying Authorities Say about the 1904 Model.

Miss Sears, Cornell, Dairy Department.

June 10th, 1904.

Your new 1904 Model U. S. Separator has just arrived at our school, and has been
tested by a committee. The final figure we were asked to operate this machine than to
get the butter yield. The working of the tank has been a great improvement. The
figures that you have had are a great improvement. I have given excellent satisfaction
to the Milkery. Professor Dairying.

Miss Dairying, Agricultural College.

Brookline, N. H., March 15, 1904.

The No. 1 U. S. Separator (1904 Model) runs much easier than the others, and is a
very attractive and well made machine.

A. H. WATSON, Prof. of Dairying.
