Position after Black's	23rd move

24 R to B8 ch!1 R takes R 25 K to B7 ch, and Black resigns as he must submit to loss of the Q, or mate in three moves.

NOTES.

a A weak move giving White an immediate advantage.

b There was nothing better to be done, if K to B3, White takes it with the Rook.

c This move threatens mate in three moves, or to win the Knight.

It appears that the mission of Ministers Thompson, Bowell and Fost to Washington to attempt to re-open negotiations for a reciprocity treat between the United States and Canada has not proved a success at preser The former country seems unwilling to treat on any basis that the press Government of Canada is likely to propose.

The Cemetary Committee has reported to the City Council that in visit of the decided opinions held by the authorities of the Roman Catholi Church, it is impossible for the city to purchase and control one place on for interments, and that the difficulties that have arisen made it advisable for the Committe not to take any further steps before reporting the facts; the Council.

Moncton has a priest who thinks there are not enough marriages take; place in that town. He is reported to have said that all, except those wa expect to become priests, or when for physical reasons it is not desirable should be wedded. He evidently believes firmly that it is not good for man to be alone, and that people should obey the divine command the increase and multiply.

The U. S lessees of the Canadian river salmon fisheries have address: a petition to Hon. C. H. Tupper, praying that on account of the growing scarcity of salmon an Order-in-Council shall be issued prohibiting the Canadian net fisherman who has vested rights from his nets, three consective days and nights in each week. They contend that such an Order would not seriously affect any Canadian fisherman, but would prove to the benefit of all.

Mr. F. N. Gisborne, Superintendent of Government Telegraph Linu states that it is probable a motion will be made next session for the Govern ment to acquire the telegraph lines and operate them in connection with the postal service, as in Eugland. He has prepared an elaborate report of the subject, which will be presented. He claims that a large amount of interest can be made on the first cost, and that the amount of many telegraphed would be materially increased.

A gentleman engaged extensively in the phosphate and mica busines says that the prospects for the demand of high grade Canadian phosphic are commencing to brighten a little now, after a lengthy spell of dulner Since last fall no sales have been effected except in a few cases where small quantities were sold at a loss. In mics business is comparatively dull, the only transaction of any importance recently being the sale of 57 tons a ter days ago to the Thomson-Houston electric firm.

The Windsor Tribune says :- "A couple of men carrying a wild call through the streets on Wednesday attracted considerable interest, and was quite an unusual eight in the town. The animal was a very large speciment measuring four feet between the fore and hind claws when stretched out. It was shot at Mount Denson by Mr. Chas. States, and had been prowling oberless around Mr. Robert Bishop's farm presumably in search of mutton. It was purchased by A. A. Jordan, who intends having it stuffed."
