

Great snowstorms have been raging in England and Russia.

To mark the christening of the infant Princess of Germany four hundred women, who were imprisoned for various offences, have been released, and there is consequently much rejoicing among the erstwhile prisoners and their families.

The Princess of Wales and her daughters last week received Miss Kate Marsden, who is interested in a project to establish a leper hospital at Viboosh, Eastern Siberia. The Queen has summoned her to visit Balmoral Castle prior to her starting on her American tour to raise funds to carry on her work in aid of the lepers.

The Earl of Onslow, formerly governor of New Zealand, is engaged in forming a committee of five to examine the books of Gen. Booth, showing the receipts and expenditures of the Salvation Army. This is an answer to the recent challenge for such an examination, which booth accepted. The committee will make a most thorough and searching investigation. Gen. Booth defies them to find that he has spent even a half-penny wrongfully. The examination will take place next week.

Dr. Thos. Neill's trial for the murder of Matilda Clover was concluded on Friday last and a verdict was returned of wilful murder. He was sentenced to be hanged. Neill is a Canadian, born at Quebec and studied at McGill, Montreal, and graduated in 1876. He practised in Kingston, Hamilton and other places, in each place was suspected of malpractice and several times was arrested. His father left him some \$16,000 at his death, and shortly after this he went to England, where he was known as Dr. Thos. Cream.

THREW AWAY HIS CRUTCHES A TRUE ACCOUNT OF A REMARKABLE EVENT.

STATEMENT OF MR. MCNEE.

FOR eight years I was troubled with a sore on my leg, which resulted from having it broken. The doctors kept me in bed five months trying to heal it up, but all to no purpose. I tried all sorts of salves, liniments, ointments, pills and blood medicines, but with no benefit. In 1883 it became so bad that I had to sit on one chair and keep my foot on another for four months. I could not put my foot on the ground or the blood would rush out in a stream and my leg swelled to twice its natural size. Eleven running sores developed on it which reduced me to a living skeleton (I lost 70 lbs. in four months). Friends advised me to go to the Hospital; but I would not, for I knew they would take my leg off. The doctor then wanted to split it open and scrape the bone, but I was too weak to stand the operation. One old lady said it had turned to black erysipelas and could never be cured. I had never heard of Burdock Blood Bitters then, but I read of a minister, Rev. Mr. Stout, who had been cured of a severe abscess on the neck by B. B. B., after medical aid had failed, and I thought I would try it. I washed the leg with the Bitters and took them according to directions. After using one bottle I could walk on crutches, after taking three I throw away the crutches, took a scythe and went to work in the field. At the end of the sixth bottle my leg was entirely healed up; pieces of loose bone had worked out of it and the cords came back to their natural places again. That was nine years ago and it has never broken out since. I can walk five miles to day as fast as any one, and all this I owe to B. B. B., which certainly saved my leg if not my life. I cheerfully recommend it to all sufferers. Give B. B. B. a trial, and it will cure you as it did me.

Yours truly, WM. MCNEE, St. Ives P. O., Ont.

Mr. F. C. Sanderson, the druggist of St. Marys, Ont. certifies to the entire truthfulness of the remarkable statement made by Mr. Mc Nee, and says that several other wonderful cures have been made in his district by this unrivalled remedy for bad blood, dyspepsia, biliousness, constipation and all diseases of the stomach, liver, bowels and blood.

A LEEDS CO. MIRACLE.

A STORY CONTAINING A LESSON FOR PARENTS.

The Restoration of A Young Girl Whose Condition Finds a Parallel in Thousands of Canadian Homes—Not Through Wilful Neglect, but in Ignorance of the Terrible Consequences.

Brockville Times.

The great frequency with which pale, sallow, listless, and enfeebled girls are met with now-a-days is cause for genuine alarm. The young girls of the present day are not the healthy, robust, rosy-cheeked lassies their mothers and grandmothers were before them. On all sides one sees girls budding into womanhood, who should be bright of eye, light in step, and joyous in spirits, but, alas, how far from this is their condition. Their complexion is pale, sallow or waxy in appearance, they are victims of heart palpitation, ringing noises in the head, cold hands and feet, often fainting spells, racking headaches, backaches, shortness of breath, and often distressing symptoms. All these conditions betoken chlorosis or anæmia—or in other words a watery and impoverished condition of the blood, which is thus unable to perform the functions required of it by nature. When in this condition unless immediate resort is had to those natural remedies

which give richness to the blood corpuscles, organic disease and an early grave are the inevitable results. It was in a condition closely resembling the above that a young lady in Addison, Leeds County was when Dr. Williams' Pink Pills for Pale People came to her rescue, and undoubtedly saved her from premature death. This case was recently brought to the notice of The Times by H. S. Moffatt, general merchant and postmaster at Addison, of which family the young lady in question is a member. Mr. Moffatt has read the numerous articles in the Times regarding what are admitted on all sides to be marvelous cures by the use of the popular remedy above named, after all other remedies had failed, and felt it his duty to make public for the benefit of sufferers, the wonderful restoration to health and strength that had taken place in his own household. The young lady in question is his adopted daughter, and is some 16 years of age, a very critical period in the life of all young women. She had been declining in health for some time, and the family became very much alarmed that serious results would ensue. Medical advice was sought, and everything done for her that could be thought of, but without avail, the treatment did her no good and she gradually grew worse and worse. Her face was pale and almost bloodless, she was oppressed by constant headaches, and her appe-

tite completely failed. When her friends had almost despaired of a cure, some person who had purchased Dr. Williams' Pink Pills at Mr. Moffatt's store, and tested their virtues, advised their use in the young lady's case. The advice was acted upon and Mr. Moffatt says the results were marvelous. In a short time after beginning their use a decided improvement was noticed. The color began to return to her cheeks; her appetite was improved, and there was every indication of a marked improvement of the system. After taking a few boxes she was completely cured, and is now as well as ever she was. In his business Mr. Moffatt deals in various kinds of proprietary medicines, but says he has never handled any medicine that has given such universal satisfaction as Dr. Williams' Pink Pills. The demand is large and is constantly increasing, thus affording the most satisfactory evidence that they are what is claimed for them, a blood builder, nerve tonic and general re-constitutor, curing diseases hitherto held to be incurable, and restoring health where all other remedies had failed.

In view of these statements a grave responsibility rests upon parents—upon mothers especially. If your daughters are suffering from any of the troubles indicated above, or from any of the irregularities incident to a critical period in life, do not, as you value their lives, delay in procuring a remedy that will save them. Dr. Williams' Pink Pills is a remedy that never fails in such cases, and is a certain specific for the troubles peculiar to the female system, whether young or old. They act directly upon the blood and nerves and never fail in any case arising from a vitiated condition of the blood, or a shattered condition of the nervous system.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of any nature.

These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y. and are sold only in boxes bearing our trade mark and wrapper, at 50 cents a box, or two boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you, and should be avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail, from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive, as compared with other remedies or medical treatment.
