We may congratulate DR. H. GUARD KNAGGS on the fact that his "Lepidopterists' Guide for the Use of the Young Collector of Butterflies and Moths" has this year been reprinted for the third time. (Published by Gurney & Jackson, 1 Paternoster Row, London, E. C., England. Price, one shilling.) It is 30 years since the first edition appeared, and many thousand copies have been sold during that time. Though written so long ago, it is as useful and interesting as ever.
