CATARRH.

Catarrhal Deafness and Hay Fever— A New Treatment.

Sufferers are not generally aware that these diseases are contagious or that they are due to living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research has proved this fact, and it is now made easy to cure this curse of our country in one or two simple applications made once in two weeks by the patient at home. Send stamp for circulars describing this new treatment to A. H. Dixon & Son, 303 King St. West, Toronto, Can.

I DON'T see," observed Boggs, as he leaned back in his chair, "how any man of sense can be led to embezzle \$50,000 or \$100,000 and skip the country! He is disgraced, his future ruined, and what good can the money do him?" "You don't take the right view of it," replied Stebbins. "Why?" "The idea, my dear sir, is to settle for half the sum stolen and return home to be looked upon as a smart man and re-elected president of a rival institution."—*Wall Street News.*
