

THE DUKE OF WELLINGTON, THE PRESENT CRISIS, AND THE EMANCIPATION ACT (1829.)

The London papers of Monday contain a long correspondence between the Duke of Wellington and Mr. Thomas H. Thomson of Dublin, on the subject of the present crisis and the circumstances attending the passing of the Roman Catholic Emancipation Bill in 1829. Mr. Thomson forwarded to his Grace an address, reminding him of "the following remarkable words" understood to have been used by his Grace in his place in the House of Lords, when urging the adoption of the Roman Catholic Relief Bill:—

"I will say, however, that if I am disappointed in my hopes of tranquility, after a trial has been given to the measure, I shall have no scruple in coming down to Parliament, and laying before it the state of the case, and calling for the necessary powers to enable the Government to take the steps suited to the occasion."

The reply of the noble Duke is in his usual characteristic style. He says—

"Field Marshal the Duke of Wellington presents his compliments to Mr. Thomas H. Thomson. He has received Mr. Thomson's letter, dated November 23, in which Mr. Thomson has enclosed an address to the Duke, signed by himself and others, denominated Protestant inhabitants of the city of Dublin, on a subject on which he had received anonymous letters, and he had observed paragraphs in libelous newspapers, but which he considered unworthy the consideration of any respectable person."

His Grace then explains the statement by showing that the words were misreported, and that he had used arguments in support of the measure with which such a statement was perfectly inconsistent, coming as it did from a member of the Government, and concludes his letter as follows:—

"F. M. the Duke of Wellington requests that Mr. Thomson will, in answer to the application of the Protestant inhabitants of Dublin, inform them that although in the service of her Majesty, in capacity of Commander-in-Chief of her Majesty's Land Forces, he is not called to her Majesty's Council. That in the capacity of Commander-in-Chief it is no part of his duty to receive, take into consideration, and submit to Parliament, the proposition of measures to relieve the inconvenience and evils of which her Majesty's subjects in Ireland may complain, as resulting from the operation of any law. It is the duty of the Lord-Lieutenant of Ireland, an officer of great power and influence, to superintend the execution of the law in Ireland, and to observe its operation—to receive the complaints of any of her Majesty's subjects upon the operations of particular laws—to report to her Majesty's servants in this country the nature of such complaints, and whether there is any foundation for them. F. M. the Duke of Wellington desires to suggest to the Protestants of Dublin, that they should adopt this, the natural course, in order that their complaints may be taken into consideration, as he positively and distinctly declines to interfere in them in any manner whatever."—*Edinburgh Advertiser.*

DISCOVERY OF SHIPWRECKED MARINERS ON A DESERT ISLAND.

Captain Bernard, commanding a French vessel, lately returned from Rio Janerio, gives an interesting account of the delivery of four British mariners, who had been cast on a desert island in the midst of the ocean, and whose lives were saved by the intrepid courage of Captain Bernard. His report states that on the 30th November he passed the Isle of Trinity, and approached as close as possible in order to observe whether any shipwrecked persons were on the coast. About ten o'clock (continues Captain Bernard) we perceived a smoke on the south-east point of the island, and concluded there must be somebody there. The first object which caught our sight was a rag tied to the end of a broken piece of mast, and waved in the air. Presently we saw two men on the shore. I sent out a long-boat, having on board four sailors of tried courage. I had placed some provisions in this boat, and recommended the mate to use all possible precaution, the sea rolling heavily at the time. Immediately that the men whom we were attempting to succor saw the boat their signal dropped and they ran to the point for which it was making; but the coast, bordered by a reef on which the sea broke with force, could not be approached on that side, and the mate was compelled to look about him for a more convenient access. The shipwrecked men, four in number, followed the boat slowly along the coast. Having arrived at the south side of the island, the mate resolved to effect the embarkation where two rocks afforded an opening. The boat remaining without the breakers, a sailor named Augustus leaped out of the boat with a long piece of sail cloth, for the purpose of forming a communication with the shore. The poor man was often covered and much beaten by the waves, but at last he gained the shore, and each man having laid hold of the sail cloth, the unfortunate men were drawn into the boat, but not without great difficulty, as they were so weak from hunger and exposure, that they could make no movement in the water. The boat being provided with provisions, the newly found men threw themselves on the latter with eagerness, and would have eaten the whole had they not been restrained by the mate, who feared the injurious consequences to be apprehended to their health. They were so weak that probably two more days on the island would have caused their death. He gave them clothes, and his crew were eager to pay them all the attention that their situation required. After the men had recovered from the effects of their exposure, the mate, one of those saved, made a statement to the following effect:—"We left London, Sept. 28, in 1850, in the English ship *Letitia*, Captain Roberts, for Valparaiso. We came within view of the isles of Martin-Vas, at four o'clock in the morning of Nov. 20. I informed the captain that we were near the Trinity Island; he ordered the boat, saying that there were pigs and goats to be found there, and directed those who were setting out to take guns for the purpose of shooting some. The carpenter was also to take his axe and cut staves. I, the mate, McGregor by name, G. Challis, the carpenter, Manguel Howet, a passenger, David Rogerson and George Shipp, sailors, the latter

of whom was drowned, embarked in the boat. Immediately we got on shore I set out to look for animals, but could not find one. I returned to the boat, but the sea had become so rough that it was impossible for us to go out, notwithstanding all our efforts. We then made a great fire, hoping that they whom we had left in the ship would see it during the night, and thus be assured that we were not drowned. Unhappily during the night the wind was very violent; it rained abundantly, and the sea was high. In the morning I ascended an eminence. We saw the brig at some distance. We made signals by means of a handkerchief fastened to the end of my firelock. Presently we saw the vessel bearing away, and at noon she was in full sail to continue her voyage, no one having been sent to the island to see what became of us. The chief nutriment during the twenty days we were on this island consisted of snakes, crabs, and aquatic birds."

- And many other Catholic Standard Works, for sale at the New York prices, by JOHN M'COY. Montreal, Dec. 19, 1850.

Still the Forest is the Best Medical School!!
That predisposition which exposes the human frame to the infection and virulence of all diseases, proceeds directly or indirectly from a disordered state of the System, caused by Impure Blood, Bilious and Morbid condition of the Stomach and Bowels.

DR. HALSEY'S GUM-COATED FOREST PILLS.

(A Sarsaparilla preparation of unexampled efficacy.)
These Pills are prepared from the best Sarsaparilla, combined with other Vegetable properties of the highest Medicinal virtue. They are warranted not to contain any Mercury or Mineral whatever. They purge without griping, nauseating, or weakening; can be taken at any time, without hindrance from business, change of diet, or danger of taking cold. They neither have the taste nor the smell of medicine, and are five times more effectual in the cure of diseases than any Pills in use. But a short time has elapsed, since these great and good Pills were first made known to the public, yet thousands have already experienced their good effects. Invalids, given over by their Physicians, as incurable, have found relief, and been restored to sound and vigorous health from their use.

TO FATHERS OF FAMILIES.
Bile and foul state of the stomach occasions more sickness and deaths in families, than all other causes of disease put together. Sometimes whole families are taken down by malignant fevers, Fever and Ague, and other dangerous disorders, all proceeding from a bilious and foul state of the stomach. No parent can be so ignorant as not to know the great danger existing from biliousness—no parent would be guilty of causing the

DEATH OF HIS OWN CHILDREN!!
Yet thousands of children and adults die every year through neglect of parents to attend to the early symptoms of bile and foul stomach. Superfluity of bile may always be known by some unfavorable symptom which it produces, such as sick stomach, headache, loss of appetite, bitter taste in the mouth, yellow tint of the skin, languidness, costiveness, or other symptoms of a similar nature. Almost every person gets bilious, the neglect of which is sure to bring on some dangerous disorder, frequently terminating in death. A single 25 cent box of Dr. Halsey's Gum-coated Forest Pills, is sufficient to keep a whole family from bilious attacks and sickness, from six months to a year. A single dose, from 1 to 3 of these mild and excellent Pills, for a child; from 3 to 4, for an adult; and from 5 to 6, for a grown person, carry off all bilious and morbid matter, and restore the stomach and bowels, curing and preventing all manner of bilious attacks, and many other disorders.

SALTS AND CASTOR OIL.
No reliance can be placed on Salts or Castor Oil. These, as well as all common purgatives, pass off without touching the bile, leaving the bowels costive, and the stomach in as bad condition as before. Dr. Halsey's Forest Pills act on the gall-ducts, and carry all morbid, bilious matter, from the stomach and bowels, leaving the system strong and buoyant—mind, clear; producing permanent good health.

NOTICE TO THE PUBLIC.
In 1845, Dr. Halsey's Pills were first made known to the public, under the denomination of "Halsey's Sugar-coated Pills." Their excellent qualities soon gained for them a high reputation, and the annual sale of many thousand boxes. This great success excited the avarice of designing men, who commenced the manufacture of common Pills, which they coated with Sugar, to give them the outward appearance of Dr. Halsey's, in order to sell them under the good will Dr. Halsey's Pills had gained, by curing thousands of disease. The public are now most respectfully notified, that Dr. Halsey's genuine Pills will henceforth be coated with

GUM ARABIC.
An article which, in every respect, supersedes Sugar, both on account of its healing virtues, and its durability. The discovery of this improvement, is the result of a succession of experiments, during three years. For the invention of which, Dr. Halsey has been awarded the only patent ever granted on Pills by the Government of the United States of America.

The Gum-coated Forest Pills present a beautiful transparent, glossy appearance. The well-known wholesome qualities of pure Gum Arabic, with which they are coated, renders them still better than Dr. Halsey's celebrated Sugar-coated Pills. The Gum-coated Pills are never liable to injury from dampness, but remain the same, retaining all their virtues to an indefinite period of time, and are perfectly free from the disagreeable and nauseating taste of Medicine. In order to avoid all impositions, and to obtain Dr. Halsey's true and genuine Pills, see that the label of each box bears the signature of G. W. HALSEY. Reader!!! If you wish to be sure of a medicine which does not contain that lurking poison, Calomel or Mercury, purchase HALSEY'S GUM-COATED FOREST PILLS, and avoid all others. If you desire a mild and gentle purgative, which neither nauseates nor gives rise to griping, seek for HALSEY'S PILLS. If you would have the most concentrated, as well as the best compound Sarsaparilla Extract in the world, for purifying the blood, obtain Dr. HALSEY'S PILLS. If you do not wish to fall a victim to dangerous illness, and be subjected to a Physician's bill of 20 or 50 dollars, take a dose of Dr. HALSEY'S PILLS as soon as unfavorable symptoms are experienced. If you would have a Medicine which does not leave the bowels costive, but gives strength instead of weakness, procure HALSEY'S PILLS, and avoid Salts and Castor Oil, and all common purgatives. Parents, if you wish your families to continue in good health, keep a box of HALSEY'S PILLS in your house. Ladies, Dr. HALSEY'S PILLS are mild and perfectly harmless, and well adapted to the peculiar delicacy of your constitutions. Procure them. Travellers and Mariners, before undertaking long voyages, provide yourselves with Dr. HALSEY'S PILLS, as a safeguard against sickness. Wholesale and retail Agents:—In Montreal, Wm. LYMAN & Co., and R. W. REXFORD; Three-Rivers, JOHN KEENAN; Quebec, JOHN MUSSON; St. Johns, BISSETT & TILTON. 5th Feb., 1851.
