The Sydney Empire says, the accounts from the gold fields of the colony justify us in the expectation of an increased yield from the mines. We may mention, too, that copper has become an item of export, a shipment having been made by the Phænician. In connection with our mineral interests, it may be mentioned that the supply of coal has of late increased, and the price has so far been reduced as to render coal an article of fuel equally cheap as wood.

We have lately had very extensive arrivals of breadstuffs, and the prices of provisions have been somewhat reduced. A considerable tendency to a reduction in the rate of wages is, however, at the same time noticeable, so that in many instances, considerable pressuse is felt by the working classes. which is also shared by the trading classes.

The agricultural prospects of the colony are we believe favorable. The weather has generally been propitious, although from some quarters complaints of want of rain have reached us. A much increased breadth of land has generally been sown with wheat.

The Churchman's Friend FOR THE DIPPUSION OF INFORMATION

RELATIVE TO THE United Church of England and Ireland Her Doctrines and Her Ordinances.

Edited by Clergymen.] [Published Monthly PARIS, 1st OCTOBER, 1855.

PROSPECTUS The CHURCHMAN'S PRIEND is intended to supply a want, which, we believe, every Canadian Clergyman must have often and painfully expe-rienced. We cannot perhaps be surprised that in a land where the number of the mir intersof the in a land where the number of the mir inters of the Church is so disproportionate to the population and extent of the country, there should be a lamentable degree of ignorance respecting the history of the Church, Her ductrines, and Her or Janances. Yet it is plainty impossible to bring there subjects prominently forward from the pulpits there we must need a reach on mare desirate.

the litte; namely, to convey information, relative to the subjects indicated.

The Theology which we wish to impart is apty and honestly expressed in the first motto which we placed at the head of our publication, "Quod semper, quod ubique, quod ab omnibus, creditum est, teneumus, "Lot us hold fast that, which always, which every where, which by all has been believed," for that only is the faith of the Catholic Church. While the temper and spiritin which we desire to convey those truths, is with equal simplicity and correctness indicated by our second motto, In necessariis Unites, in dubits liberates, in omnibus curates.

Unites, in dubits liberatas, in omnibus caritas.
"In necessary things unity, in doubtful things liberty, in all things charity."
With this object in view, we purpose to usue, for the present, one number monthly, commencing on the 1st October; but we hope considerably to enlarge, or to publish more frequently, as soon as we receive the requisite amount of encouragement. A large proportion of each number will be filled with original matter in the form of abort tracts, dialogues, and takes. each number will be filled with original cruater in the form of short tracts, dialoguos, and tales; which, with anecdotes, scraps of information and other selections, all strictly tending to illustrate the principles we wish to advocate, will make up the contents. While we hope to offer matter sufficiently interesting as to make it not without value even to the more highly educated, it will be our endeavour to clothe it in such plain and simple language, as to render our little publication a welcome visitor in the farm house and the cottage, and a source of pleasure, as all as profit. cottage, and a source of pleasure, as well as profit to both young and old. For the young especi-ally, some porti no four space will slways be set apart; and we venture to suggest to clergymen and superintendents of Sunday Schools, the adand superintendents of Sunday Schools, the advantage of encouraging their elderly scholars to avail the meelves of the reduced terms offered to those who subscribe for a number of copies.—
They will thus be furnishing the young persons committed to their charge with a supply of reading, at once sound in its teaching and attractive in character, and at the same time be lightening

in character, and at the same time be lightening their own labor.

We been particluarly to call attention to our terms of publication, from which it will be seen that eight copies will be forwarded to one address for fifteen shillings, currency, a your, and fifteen copies for £1 five shillings. But as these summers so small that they will not pay for the trouble of collecting, it is absolutely necessary to at all subsectiptions be paid in advance.
