

But on Saturday morning W. S. Laird assisted the Professor in his demonstration of the methods of drainage by traps, and after performing his part of the business with comparative ease, was rewarded by the remark from the Professor to the class, "You see, gentlemen, that even a two-year-old child can do it." Then, pointing to the vent through which the demonstrator was blowing vigorously, the Doctor said, "Now here comes the sewer-gas."

We have been requested by a member of '06 to insert the following advertisement in our column this week:—"Will the person who borrowed my umbrella while Miss Clark was singing 'Sunshine and Rain' at the 'At Home' on Tuesday evening, return same to locker room."

We reproduce the following from "Saturday Evening" of Dec. 5, 1920:

"On Monday last, Dr. and Mrs. R. Stobie held a very delightful little pink tea in their charming apartments in the Alexandra Flats. Dr. Stobie looked very handsome in a black suit and white shirt, with collar and cuffs to match. Mrs. Stobie wore a very recherche gown of exquisite grey chiffon with velvet applique. The guests of honour were Dr. and Mrs. Geo. Cooper, lately returned from the Orient, where they have been doing such splendid work on the China Inland Mission. Dr. Cooper was dressed in a very becoming suit of black, which matched so admirably his lovely curly hair and robust frame. Their pretty little daughter was also present, in a lovely dress of the fashionable point d'esprit and carrying pink roses and a posy of violets. That delightful bachelor Dr. Traynor was also on hand and entertained everybody with his delicious jokes and odd stories, which he tells with so much gusto. Drs. Wm. Sproule and H. A. Stewart came, as usual, arm in arm; also Dr. W. E. Browne and his charming wife, the former wearing a very stunning great-coat of black, lined with beaver, while Mrs. Browne was in white with parlettes and a touch of crimson. Prof. R. J. McMillan, of Toronto, and Prof. J. G. Crookshank, of Johns Hopkins' Universities were also among those who made up the delightful party. Prof. Crookshank was wearing a suit of grey tweed with white retousse collar and a vest of emerald green, which blended beautifully with his fine hair. Altogether the affair was a splendid success and went off with great eclat. Dr. and Mrs. Cooper leave for China again next month."

We are pleased to see that at the recent election of officers of the University Lacross Club, our already distinguished friend Mr. D. A. J. Graham was chosen President for the coming season. Other Meds. elected were R. MacIntyre, '05; J. Swayne, '06; V. Graham, '07, and O. Davidson, '08.

"Have you any paper Charley?"
"Yes-s-s-s-s-s."

Mr. Stewart After writing an equation rivaling even "Beakie" in length. "Thus comparatively simple expression may now be reduced to—etc."

Two interesting and instructive papers were read before the Engineering Society on Wednesday. Both papers dealt with Portland Cement and its manufacture.

Enter a lecturer with a bundle of papers under his arm and a smile that would rival Sunny Jim's. "Ves, I have a few friends who will be interested."

It is to be regretted that owing to his late arrival, Mr. Betts found it advisable to resign the position of editor of Varsity for the Easter term. There is no doubt that the arduous duties of Varsity Editor can hardly be undertaken in connection with a course at the School.

The committee in charge of the graduating "At Home" were elected last week. They are Messrs. Campbell, Sturritt, Munroe, Treadgold and Weddell. The dance will be held about the 27th of January.

Wm. Treadgold will represent the School at the St. Margaret's conversat this week.

A dynamite bomb was discovered in one of the lanterns in a third year lecture. Mr. Mickle promptly detected the perpetrator of the deed.

The painting on the wall of the third year draughting room is from Memory, and has been much admired. The subject could easily be recognized as one who frequently occupied a bench in Queen's Park during field work hours, and must have greatly impressed the artist.

The S. P. S. "At Home" committee have begun work. They have had their photos taken.

We would like to suggest that the persons responsible for Rayner's being elected to so many offices buy him a gown and thus save him the expense of continually renting one. He has lately had his face in no less than four photos.—Poor School!
