

MCGILL UNIVERSITY

MONTREAL

THE MACDONALD PHYSICS LABORATORY

February 18th. 1932.

Dr. W.H. Hatcher,
McGill University,
Montreal.

Dear Dr. Hatcher,

Time-table

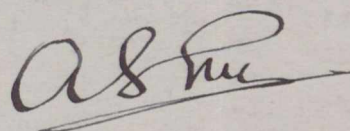

(1) Our present time-table existing this session is, on the whole, satisfactory except that Commerce has bad hours - in the afternoon, two days running.

~~(2)~~ We have no suggestion to offer, for lack of time and space.

(2) Your new suggestions, so far, seem practicable both in lecture room and laboratory.

(3) With reference to honour courses and graduate courses our present scheme is satisfactory. As to schemes for the future we may run into great difficulties in adjusting professors, students and lecture rooms. We have always managed to get past these difficulties before, and we hope to be able to do so in the future.

Yours sincerely,

A. S. Eve,
Director,
Department of Physics.
