

	PAGE
Gum, absorption of, due to presence of calculus.....	6
Gum depressor, use of.....	61
Gutta-percha as a filling material, advantages and limitations of..	162
Gutta-percha for capping pulps...	262
Gutta-percha for filling pulp-canals	272
Gutta-percha for wedging.....	84, 116
Gutta-percha, manipulation of...	239

H

Hand mallet, the.....	176
Hand pressure indispensable in certain locations.....	185
Hand pressure compared with mallet force.....	185
High-fusing and low-fusing porcelain	251
Hypersensitive dentine	143

I

Incisors and cuspids, proximal cavities in.....	80
Inlays, advantages and limitations of	162
Inlays in permanent teeth of children	299
Inlays, gold	164, 255
Inlays, cavity-preparation for...	243
Inlays, porcelain.....	162, 241
Instruction to patients as to the care of the teeth.....	25
Instruments for the removal of calculus	16
Instruments for removal of the pulp	269
Interproximal space, the.....	110
Introductory	1
Iridium, gold and.....	158

J

Jaws, force exerted by in mastication	105, 125, 219
---	---------------

L

Ligatures, use of.....	56
------------------------	----

M

Mallet, the electric.....	184
Mallets and malleting	176

PAGE

Mallets, automatic.....	182
Mallets, experiments to determine the relative condensing power of.....	178
Management of children's teeth...	288
Management of permanent teeth in childhood.....	294
Management of pulpless teeth to prevent discoloration.....	286
Manipulation of amalgam.....	232
Manipulation of cements.....	237
Manipulation of gutta-percha.....	239
Manipulation of platinum-and-gold	226
Manipulation of tin-and-gold.....	228
Manner of applying the dam in the different locations in the mouth	63
Mastication, force exerted in.	105, 125, 219
Materials for capping pulps.....	261
Matching shades in porcelain inlays	252
Matrices for special cases.....	206
Matrix, advantages and limitations of the.....	201
Matrix, fitting the, for inlays...	247
Matrix, manner of using the.....	206
Matrix, objections to the use of...	202
Mercury, amount required in amalgam	232
Mesio-occlusal fillings in bicuspid and molars.....	217
Method of capping pulps.....	263
Method of packing amalgam.....	234
Micro-organisms, their relation to caries.....	29, 140
Moisture, exclusion of, during operations.....	44
Molars and bicuspids, clamps for.	52
Mouth-mirror, use of.....	43

N

Napkins, the use of.....	46, 76
Nausea, from the use of rubber dam, to overcome.....	46

O

Occlusal cavities in bicuspids and molars	132
---	-----
