The German reichstag has considered a customs tariff which amounts to a complete re-consideration of the whole question, so far as the country is concerned, and is more discussion than any other since the empire was founded. One of the principal features of the discussion is a proposal to put a tax on the importation of foodstuffs. Col. Scott, collector of customs, states that the case of Somers & Co. of St. Paul, whose catalogues were detained from being cleared through the mails, has been decided by the department. Inasmuch as there was a statement on the catalogues to the effect that the firm sold only to retailers, the department decided to take a lenient view of the matter and the catalogues addressed to dealers were forwarded, those addressed to the general public were returned.

Always set your face firmly towards health. Say that you are better when people inquire: the very declaration will assist in making you feel so. Persistent good cheer and hopefulness are remedial agents very hard to defeat in the conflict between illness and health.—November Ladies Home Journal.
