REVOLT IN CAPE CULUNY SEEMS TO BE A REALITY

Tactics of Dewet and Steyn in Rallying the Dutch in the **Back Country Have Apparently Resulted** as They Hoped.

There is Likely to Be Sharp Fighting on a Rather Large Scale Before the Rebellion Is Crushed-Baden-Powell and Brabant Ordered to the Front.

(SEE ALSO PAGES TWO AND TEN FOR WAR NEWS.)

London, Dec. 22.—"We understand that reliable private advices have been received in London," says The Daily Mail, "to the effect that virtually all the districts of Cape Colony in the vicinity of the Orange River are in more or less open revolt, and that there is likely to be sharp fighting on a large scale before the invasion is crushed. The tactics of the Boers in railying as many as possible of the Dutch in the back country to their cause are proving successful."

Concentration of Troops.

From its Cape Town correspondent The Daily Mail has received the following:

"The second invading force was designed to occupy Britstown; but, being checked by the De Aar troops, it has disappeared in the second correspondent last night, adding:

"We still loope to see independence restored to the South African republics. It is cannot be we want the most liberal terms possible granted to the Boers. The latter have helped their cause greatly by persevering energetically in their cause greatly by persevering energetically in their resistance. Undoubtedly Lord Salisbury thinks now that Mis Government will never deal otherwise than arbitrarily with our adversaries, but that does not settle the matter. Similarly 32 years got the British Government with the American revolutionists, but was finally compelled to do so.

"Sooner or later, provided that the Boers hold out, as they give every evidence of doing, we must negotiate with them. We cannot afford to wage perpetual warfare in South Africa."

Boers Have 20,000 Men.

Wrong impressions prevail regarding the relative strength of the forces actually engaged in the South African struggle. Perhaps two-thirds of Lord Kitchener's army is doing guard duty, while recent estimates indicate that the Boers must have a total of nearly 20,000 men scattered about the theatre of war. Many of these enjoy the advantage of having rested from time to time on their farms. For the British troops there has been no rest. They have been in the field constantly, often without shelter for many months and always sparingly fed. Their courage and obedience remain beyond reproach, but military authorities agree that they have traveled far towards the limit of human endurance. The Ontario Cabinet will make a serious mistake if it overlooks the claims of East York when filling the vacancy for the York County Court Clerkship. East York has always supported the Ontario Government, but has never as yet been recognized by an appointment of any note. It is true that the late G. W. Badgerow, who represented East York in the Jocal for eight years, received the County Crown Attorneyship, but Mr. Badgerow was a citizen of Toronto and could scarcely be looked upon as an East Yorker properly. There are plenty of good and capable men in East York who would fill the County Court Clerkship with honor to themselves and the office. Toronto has always been antagonistic to the Government, and has no claim whatever, yet has received nine-tenths of the appointments. West York and North York have been amply recognized by both the Dominion and Local Governments. This is quite cyclonic-it means that orm may blow, and it means that either Mr. John Richardson wants to be County tainly wants the office, and thinks it is fairly due him as a veteran fighter in municipal and provincial politics.
