Chicago Gossip.

John J. Dixon had the following from Chicago at the close of the market to-day: Wheat—The wheat market has been a small one. It broke a cent with corn and rallied slightly from the bottom. The Northwest led the buying, said to be covering hedges. Minneapolis reported flour sales. Receipts were smaller—very small Southwest and not so large in the Northwest. Clearances were light—337,000 bushels. Cables closed nearly steady. The adjournment Thursday curtails trade. Local professionals were the best sellers. Cash demand slow here and East.

Corn—A good share of Tuesday's corn advance was lost to-day. The price at one time was 2c under yesterday's close. There was no new move by that interest which bought so largely yesterday. Undecided whether purchases have been for long or short account, but market acted as if the big buyers had been covered. There was some important selling by Cadahy and Robson. Freezing weather as far south as Kansas and frosts everywhere. On the break there was reinstaing of some of the corn sold-yesterday. Receipts small—144 cars, with 180 to-morrow.

Oats—Have followed corn, losing about \$\frac{3}{2}\$C, and recovering a trifle. Elevator people sold. Certain of the bull interests bought. Receipts small—102 cars, with 110 for to-morrow.

Provisions—Opened strong and active and hogs less than expected. Good cash demand. On the advance packers and local longs sold freely, and prices declined. The large buyers of October ribs of yesterday were sellers to-day, and seem to have an unlimited quantity to sell. Market closed steady at small decline from top prices; 35,000 hogs to-morrow.
