IS THIS THE WAR'S LAST YEAR?

IN THE PAPER OUT TONIGHT

W. H. STEWART

The Sunday World's War Expert

WILL DISCUSS THE PROSPECTS OF THE WAR'S ENDING.

With three pages at his disposal, Mr. Stewart will sum the situation broadly, and also make plain, in detail, the meaning of the many sides of the struggle, something lost when one attempts to grasp the significance of the news from day to day.

The war review will be accurate, and neither optimistic nor pessimistic. The review will be worthy of its subject.

WINNIPEG WHEAT MARKET.

WINNIPEG, Dec. 31.—The final market of 1915 had its ups and downs and finished down very much. Winnipeg dropped ¾c to 1c. There was no interest in cash wheat, beyond winding up thru the clearing house. Inspections for Thursday amounted to 942 cars; in sight, 850.

SMELTERS STRONG IN LOCAL MARKET

Last Session of the Year Passes Out With a Generally Good Undertone.

The Toronto stock market closed the last session of the year with a distinctly good undertone and some buoyancy. The market was even active for such shares as Smelters and N.S. Steel. Smelters had a three-point rally to 140½ and lost only part of the further advance on profit realizing. Nova Scotia Steel was absorbed around 102, the recent high price. This stock and Steel Corporation are said to be in the period of accumulation, the result of which will be seen in a responsible advance early in the new year. General Electric sold a point higher and Crow's Nest was up a similar amount. Other issues were quiet but steadily firm. Mining shares formed the principal business of the curb section, and these were dealt in at steady prices.

STRONG STATEMENT BY HOLLINGER MINE

Profits for Four Weeks Reach Over Two Hundred Thousand.

The report of Hollinger Mines for the four weeks ending Dec. 2, which was issued yesterday, shows that the gross profits for that period amounted to $210,558.52.

The total assets are given at $4,750,806.91. Expenditures on the plant for the four weeks amounted to $19,759.01.

Ore was hoisted as follows: 100-foot level 200-foot level, 300-foot level, 425-foot level, 550-foot level, 675 foot level, and 800-foot level.

Waste rock from development amounting to 4362 tons was hoisted, bringing the ore and waste up to 33,729 tons.

The mill ran 93.8 per cent. of the possible running time, treating 40,662 tons, of which 29,448 tons were Hollinger ore and 11,214 tons were treated for the Acme Gold Mines Limited.

The average value of Hollinger ore treated was $10.99.

Milling costs on 29,448 tons were $0.882 per ton.

MINING STOCKS ACTIVE.

R. E. Kemerer, in his market letter, says: "The holiday markets for the Porcupine and Cobalt issues have been exceptional in every respect. Not only has the volume of trading been far above normal, but the remarkable strength which was exhibited in the general list and the absolute lack of anything which might justly be termed a reaction, was surprising to even the most optimistic and the public buying, which was commented upon in my letter of last week, has been even more in evidence this second week of the holiday season.

"A consideration of the market at large leads inevitably to the conclusion that this is but the precursor of a market which in activity and advances will far exceed anything which has been recorded in the past. Those who have been receiving these letters regularly know the confidence which I have in the immediate future of the market. I can only reiterate my advice—buy the issues of merit now. Advances are as assured as anything can be on the stock market and these advances will be rapid."

DECEMBER BANK CLEARINGS.

OTTAWA, Dec. 31.—Bank clearings for the month of December, 1915, were $20,830,545, as compared with $19,911,640 in December, 1914. For the year 1915, $211,656,519; 1914, $209,662,599.

WINNIPEG BANK CLEARINGS.

WINNIPEG, Dec. 31.—Bank clearings for December, 1915, were $261,568,585; December, 1914, $115,444,430. December, 1913, $173,904,858; for the year 1915, $1,530,682,124; 1914, $1,370,96..806; 1913, $1,664,977,287.

MONTREAL BANK CLEARINGS.

MONTREAL, Dec. 31.—The bank clearings in Montreal for the month ended today were the largest in this city's history, $299,162,549, as compared with $197,162,549 for December, 1914. The past year's clearings totalled $2,628,122,219, as against $2,631,412,620 for 1914.

MINING MARKET ENDS YEAR SATISFACTORILY

Recent Strength and Activity Keeps Up Till the Last.

The activity in mining stocks which has been a feature recently continued right to the end of the year. The volume of trading at the Standard Exchange yesterday morning was large, totaling some 87,000 shares.

There was no session in the afternoon. Values held remarkably well, there being no material recessions with the exception of McKinley-Darragh, while leading stocks showed strength. The features were Dome Extension, McIntyre, Timiskaming and Dome Consolidated.

Apex was steady, selling up to 8 and closing strong at 7¾. Hollinger was strong at $29.00 and an odd lot sold at $29.30 which established a record price for this stock. The statement presented today is said to be the best in the history of the company.

Jupiter held steady at 21½. McIntyre opened at 107 and sold up to 108, closing at 106 bid. There was an excellent class of buying going on in this stock and big interests are said to be accumulating stock at every opportunity. Vipond was strong, selling up to 67 after opening at 66½, and closing at the high point. This issue has held remarkably well during the past few days despite persistent efforts to depress it.

West Dome maintained its position strongly, opening at 15¾ and selling up to 16 at which point it closed. In the old Cobalt days this stock was regarded as one of the richest properties in the district. With the reorganization of the company completed and with ample financial backing the stock is expected to become one of the leading group. Dome Extension was strong, opening at 36½ and selling up to 38¾ and closing at the high price. Insiders are reported to be optimistic regarding the properties and the old engineers who were in control previously are confident they will be able to strike extensions of the Big Dome veins.

Dome Consolidated closed at 27½ bid. It is stated that the contract for five thousand feet of diamond drilling has been let by the controlling interests. McIntyre Extension was steady at 29½ bid. Teck Hughes sold at the uniform price of 21 and closed there. Moneta was in demand at 13 bid.

In the Cobalts Timiskaming was steady after its recent advance. The stock opened at 67½, advanced fractionally to 68 and relapsed to the former price at the close. Chambers-Ferland sold up to 30 and closed ½ point down at 29¾. Gifford was strong selling up to 4½ and finishing at 4⅝ bid. This property is well located and dealers regard its future confidently providing it is re-financed.

Crown Reserve experienced a small reaction, opening at 56 and selling off to 54 at the close. McKinley-Darragh was the only really weak stock and this easing off was occasioned by unfavorable reports concerning the mine's ore reserves. It is said that the reserves are decreasing and that the statement which will be presented to the shareholders in the near future will not make a very good showing. Nipissing was steady and Peterson Lake fairly strong, closing at 37¼.

Silver continued its upward movement, advancing to 55.

MONTREAL GRAIN MARKETS.

MONTREAL, Dec. 31.—There was some demand from foreign buyers for Manitoba spring wheat today, and on the decline in prices in the Winnipeg market exporters worked a little business. The trade in grain on spot was quiet, and prices were unchanged. Flour is firm, but the volume of new business doing is small at present, both for domestic and export account. Demand for mill feed is good, and the market is active and firm. Butter and cheese quiet, and the demand for eggs is fair.

ALD. BALL'S RECORD.

The Telegram: Mr. H. H. Ball has cast some good votes in the city council this year. He voted for a fire-fighting chief. He voted for the radials. He is a strict economist, and has placed himself on record against fat salaries. Mr. Ball's chief plank is assessment reform.

Ald. Ball has made a fair showing during his year in the council, and may merit another term.

EXCURSION TO LAKELAND
POLK COUNTY
SOUTH FLORIDA
JANUARY 10th, 1916
$33.50 One Way - $50.00 Return
PULLMANS AT REGULAR RATES

See Tampa, Jacksonville and other places. Fre motor trips. No board to pay while in Lakeland.

WE ARE RUNNING this excursion to enable Canadians to learn the truth about Florida. Many persons have the idea they have seen Florida when they have seen the low, sandy lands and winter resorts of the east coast, where the rich man goes to spend his surplus money.

THE EAST COAST does not do Florida justice any more than the Muskoka resorts are a fair representation of the garden spots of Ontario.

REAL FLORIDA is high, tropical, inland Florida, the fruit country, the land of lakes, the territory which gave the state its name, "The Land of Flowers," where every door yard has its trees laden with golden fruits, its fragrant bed of flowers, and where the air is scented with the perfume of orange blossoms.

THIS IS THE COUNTRY where the poor man is made rich and the rich man richer; this is the country which supplies the north with oranges, grapefruit, strawberries, vegetables, etc., at a season no other place can supply them, assuring the growers immense profits.

OUR LANDS are in the Lakeland district, the highest point of South Florida; the soil cannot be excelled in the state; transportation is the very best; our farms are cleared, ready for the plow; house is built for you; finest drinking water in the state at your door.

WE EXTEND YOU a cordial invitation to visit Lakeland as our guest. Let us show you what we have to offer. You will be under no obligation to buy. We want you to join us. We know if you are looking for a place to make money and live in the finest climate in the world, we can suit you.

COME ON THIS EXCURSION—We have no land to sell you, unless you see it, and we pay your railway fare from Toronto to Lakeland if you buy.
