WHOLESALE VENDORS WILL SELL LIQUORS

Three in Ontario Have Been Appointed by License Board.

AT CENTRAL POINTS

Others Will Be Appointed If There is Need for More.

The appointment of three wholesale vendors under the Ontario Temperance Act, was announced yesterday. They are R. H. Howard & Co., 28 Front street, Toronto; E. B. Smith, 141 Dundas street, London; and William Cleland, 29 Charles street, Hamilton. Others will be appointed later at the discretion of the board, if the members find that there is need for them.

The act defines a vendor's license as one that "shall mean a license authorizing a person, firm or incorporated company, to sell, subject to the provisions of this act, in the warehouse or store in which such person, firm or incorporated company carry on business, alcohol or other liquors, to such persons as are entitled to purchase the same."

Provisions of the Act.
The act further provides that "no vendor shall sell any alcohol for medicinal or scientific purposes except upon the affidavit of the applicant (in the form provided) and which shall set forth that the alcohol is required for medicinal and scientific purposes alone, and not to be used as a beverage, or to be mixed with any other liquid, or for any other purpose, and that it is intended only for the applicant's own use for medicinal or scientific purposes, and that the applicant is over 21 years of age, and shall also set forth the quantity desired."

Not more than one sale must be made on any affidavit, and a record of sales must be kept, and a return of these records must be made to the board, as in the case of druggists and wholesale druggists, on the first day of March and September.

The supply of druggists with liquor with which to fill doctors' prescriptions is to be left in the hands of "wholesale druggists," a term which means a person, firm or company engaged in supplying druggists with drugs, patent or proprietary medicines, compounds, or other articles and commodities usually kept and dealt in by druggists.

There appears to have been a misconception in the popular mind that druggists would be dependent for their supply upon the vendors.

The act does not interfere with the manufacture of "any tincture, fluid, extract, essence or medicated spirit containing alcohol, prepared according to a formula of the British Pharmacopoeia, or other recognized standard work on pharmacy, or medicine or perfume, or for purely medical purposes."

which he overheard while traveling to Toronto on the train.

P. W. Ellis was to have delivered an address, but owing to government business was unable to present.

On Sept. 16 the 350 teamsters employed by the railway transport companies will receive an increase in wages of \$3 per month. The employees of the Dominion Transport and Shedd Forwarding Companies asked for an increase of \$6 a month some time ago and threatened to go out on strike. They have also obtained concessions in the matter of holidays and Sunday labor.

The men will receive \$59 a month and will only have to work around the stables one Sunday out of six. They will receive an extra day's wages for this.

RESISTED ARREST AND IS ACCIDENTALLY SHOT

Arrested on a charge of trespassing on railway property near the foot of the armory street, yesterday morning Martin Turtell struggled so hard that he was accidentally shot in the foot by G. T. R. Constable James Copley.

According to the police, Turtell resisted the interference of Copley, and proceeded to assault him. In the struggle which ensued, he managed to get the armory street stationer, drawing his revolver, Copley aimed one shot into the ground in the effort to quieten the disturbance. A second shot, however, wounded Turtell in the foot. The injured man was removed to the Western Hospital in the police ambulance. The wound is not serious.

LACK OF QUORUM DOES NOT MATTER

Advisory Industrial Committee of Board of Education Made Decisions.

LEAVE GIVEN TEACHER

Miss Agnes Robertson Granted Leave While at Shorncliffe Hospital.

The advisory industrial committee of the board of education are apparently not one of the most active organizations in the city hall. Yesterday afternoon it had a meeting at 4.30, and the members waited until long after that hour, only three of the six trustees put in an appearance, and there were even fewer of the outside representatives.

There was no quorum during the hour and a quarter that the faithful members were in session, but a method of overcoming this difficulty has apparently been found by the convener, because when the minutes of the last meeting were read there was an enlightening paragraph to this effect: "a general discussion was held, but in the absence of a quorum no business was transacted."

Proceeding on this precedent, there followed another discussion yesterday, during which many clauses were read from contracts relating to a defective steam boiler installed at the Central Technical High School and a course of action was decided upon. At one point Chairman McTaggart asked, "What is your pleasure, gentlemen?"

"We have no pleasure about it; we have no quorum!" was the come back of Trustees Dr. Noble, who every once in a while reminded the committee that what they were doing was not according to Hoyle.

Miss Agnes Robertson, a domestic sciences teacher at the technical school, went to England soon after the close of school and took an appointment in a Shorncliffe hospital. She intends to remain there a year, and Principal McKay was given authority to grant her leave of absence without salary for that length of time.

Several other matters were dealt with in the same way before the members adjourned after deciding to hold another meeting on Friday, before which there will be a special effort made to secure a quorum for the meeting, which is called for 3.30.

CITY HALL NOTES

A recommendation from Chief Inspector Cowley to the committee of management, that Miss Nora D. Doran, the Roman Catholic school teacher, whose father is a public school supporter, be promoted to kindergarten director at Bolton Avenue school, recalls the debate in the committee a few months ago, when it was held by some that Miss Doran's religion was a barrier to her advancement.

The minister of education has notified the inspector that framed facsimiles of the famous "Scout's Paper," will be sent to the different schools as an interesting historical document, and as a reminder of the cause of the great war.
