Business Men in Northern Part of City Confer With Hon. I. B. Lucas.

ASSURES CO-OPERATION

Willing to Introduce Legislation at Present Session to Have Matter Remedied.

Following closely after the clear cut arraignment of the board of con-trel and the city council by The World of the last few days and realising that no solution of the railway difficulty on Yonge street, between Price and Farnham avenue could be hoped for from the city, a number of business men in the northern part of the city Thursday night had a lengthy conference with Hon. I. B. Lucas, at-torney-general, at the parliament

The deputation which consisted of Messrs. Hill, McIntosh, Jennings, Maw, Haig, Farrnger, Skelton, Armstrong, Keith and others was introduced to Messrs. Hill, McIntosh, Jennings, Maw, Halg, Farrnger, Skelton, Armstrong, Keith and others was introduced to the attorney-general by George S. Henry, M.L.A. Dealings with the refusal of the city to try and arrive at any reasonable solution of the matter with the Toronto Street Railwoy Company the attorney-general said that the present conditions were intelerable and must be remedied. The city council had not shown any disposition to serve the people and he was willing to draft a bill giving the city every chance to incorporate any safeguard which might be deemed advisable by thein best legal talent and embodying the safeguard that any arrangement entered into was without prejudice to the appeal new pending before the Privy Council.

While I have not taken the matter post that I will do everything in my power to introduce legislation at the present session of parliament, by which the present unfortunate conditions will be done away with," said the attorney-general.

He further stated that the suggestion thrown out by several members of the executive present regarding the presence of a large deputation at the parliament buildings to back from their appeal was a good one.

Menday next at 12.45 p.m., was fixed as the time at which the minister will receive the deputation which will consist of citizens and residents from the county all along the line of the Metropolitan Railway as far north as Newmarket and Sutton. It is expected that a monster deputation of a thousand at least will be present.

### CASE MAY BE SETTLED

WITHOUT ARBITRATION Robinson Entered Claim Re Expropriation of His House on Coxwell Ave.

There is a possibility that the claims of Harry Robinson against the city for expropriation of his house at 86 Coxwell avenue, taken over in connection with the extension of Applegrove avenue, may be settled without arbitration. In this connection Official Arbitrator P. H. Drayton yesterday reserved judgment on the question as to, whether any amounts paid could be held as evidence in the event of a claim soing to arbitration.

held as evidence in the event of a claim going to arbitration.

Evidence wa staken in regard to the cleim of Richmond and Hill against the city on account of damage caused to their houses by reason of the grading of Danforth and Ladysmith avenues. Previous to the grading the houses were four feet above the level of the readway and this was reduced to about eight inches, resulting in the cellars being damp and decreasing the value of the houses. The depreciation in value was placed at \$1000 each.

# BEFORE FORMING NEW

Sir Robert Borden Does Not Commit Government to Conscription.

DELEGATION IS HEARD

No Lack of Recruits When Thousand Daily Come Forward.

OTTAWA, April 14.-National registration with a view to some form of conscription was urged upon Sir Robert Borden and members of his cabinet by a large delegation representing Ontario, the Maritime Provinces, and the west, at a gathering in the premier's office at noon to-

It was urged in support of the substitution of the compulsory for the present voluntary system that, first, the latter was not getting the men; and, secondly, that those who were coming forward were precisely those citizens whom Canada could least spare. There was too large a proportion of married men when it was considered that every married soldier cost the country \$37 more per month than a single man.

The reply of Sir Robert Borden did not commit the government to any expression of views as to the merits of compulsion or the voluntary system. The premier, however, reminded the delegation that there had so far been no lack of recruits, since men were coming forward at the rate of 1000 a day. He also pointed out that even when men had been enlisted from six months to a year's training was necessary to fit them for service.

for service.

However, the premier admitted that there were loopholes for economic waste in the system of voluntary mic waste in the system of voluntary enlistment. In an informal way, however, the government had been coping with this and had been endeavoring to arrange, as far as possible, that men be drawn as far as possible from the industries which could afford to spare them and as

essential. tion that it would be the future polganize few new units until the pre-sent ones shall all be brought up sent ones shall all be brought up to strength. As for conscription itself, he could not commit himself before conferring with his ministers, but promised earnest consideration delegation's representation.

Raw, Damp Weather Starts the Pains, But the Trouble Lies in the Blood.

Spring weather is bad for rheumatic sufferers. The changes from mild to cold the faw, damp winds start the aches and twinges, or in the more ex-treme cases, the tortures of the trouble treme cases, the tortures of the trouble going. But it must be borne in mind that it is not the weather that causes rheumatism. The trouble is rooted in the blood—the changeable weather merely starts the pains. The only way to reach the trouble and to cure it is through the blood. The poisonous rheumatic acids must be driven out. Liniments and rubbing may give temporary relief, but cannot possibly cure the trouble. The sufferer is only wasting time and money with this the trouble. The sufferer is only wasting time and money with this kind of treatment and all the time the trouble is becoming more deeply rooted—harder to cure. There is just one speedy cure for rheumatism—Dr. Williams' Pink Phils. They act directly on the impure, acid-tainted blood. They purify and strengthen it and thus root out the cause of the rheumatism. root out the cause of the rheumatism.
Here is strong proof of the above
statements. Mr. Michael Personage,
Fenlon, Man., says: "My mother suffered several years with rheumatism. We tried a number of remedies, but they all failed to cure. Then we got
