MINE DISASTER AT SHAMOKIN

Two Killed and Several Injured in Explosion—Workers Declare Other Men Are Entombed.

SHAMOKIN, Pa., June 7.—Two miners were killed and more than a dozen were injured today in an explosion in the Scott shaft, four miles from here, operated by the Susquehanna Coal Co. Officials of the company announce that no men were entombed, but mine workers declared that they believed other men were still in the mine. The explosion occurred in the second lift of a slope, almost a mile underground, and the slope immediately caught fire. John Weir, inside superintendent, and his assistants, organized a rescuing party and within an hour two dead and 14 injured were brought to the surface. The dead men were foreign-speaking miners and nearly all the injured are also foreigners. Of the injured at least two are expected to die.

Twenty Rescued. After several hours work the rescuing party came on a group of twenty men in the burning shaft. They were unhurt and were taken to the surface. It is not believed any more men are in the mine.

Montreal to Have Large Steel Works

Company Purchase Big Site and Will Build Largest Steel Plant in World.

MONTREAL, June 7.—(Special).—A British steel and forging company has purchased a big site at Longueuil, opposite the city, with a frontage of a mile and a half on the St. Lawrence, where it will erect one of the biggest steel plants in the world. The initial outlay is a million dollars, while the shops will give employment to 5000 men. Seventy thousand tons of coal have already been purchased for the use of the firm. The plant will be big enough to build battleships, if necessary, while the local one would permit of such an undertaking, too.

Mr. M. J. Butler, ex-deputy minister of railways and canals, is said to be at the head of the big concern.
