## ECHOES OF SATURDAY'S GAMES

**MARATHON-MONCTON GAME.**  
 Moncton takes exception to the Greeks' statement in the Telegraph that the Marathon-Moncton game was of the rough-house calibre. The Transcript man gets tightly and hands out the following:—  
 "Well, football is not lawn tennis, and no team can expect to go through a game without getting a few bumps. The claim that any special attention was directed against Don Malcolm is nonsense. The much touted St. John half-back kept well back out of play most of the time. Once he attempted to tackle Donald, but was warded off by the Moncton captain's arm, and on another occasion he was easily tackled by Donald, but the tackle was a perfectly legitimate one."

"No football is not lawn tennis, neither is it a ball fight or pugilistic contest. Rules have yet to be devised whereby a 'lover' is permitted to strike an opponent with clenched fist when he tackles."

As for Don Malcolm, it will probably be conceded that the man Captain Malcolm is far and away superior. The former McGill star half-back doesn't begin to play the game with the captain of the Moncton team. Oh, no! Don't be alarmed, Mr. Transcript man, you have only a brain-strain.

## ALGONQUIN—U. N. B. GAME

Of the Algonquins in Saturday's game with U. N. B. the Gleaser of the Transcript says:—  
 "The Algonquin team showed lots of class at the kind of a game which was being played, and their scrimmage was composed of heavy, strong and hard working players. Capt. Finley and Clarke seemed to show up the strongest of the lot. March was in a new position at quarter-back, but Thorne showed up very strongly being always in the game, playing strong and fast, tackling well and taking advantage of every opportunity. On the half line the Algonquins had some good men, but they did not get many opportunities to run, although their tackling was good at all times. In this particular Wright showed up very strongly, keeping close to the line, and doing Dever all the time. His tackling was hard and seemed to jar the opposing players considerably. Ring also played a good game and so did Joe Howe, the former 'caddy star, and Merritt, who played on all St. John teams several years ago, but the latter pair had few opportunities. To Fred Gibson, of the local branch of Montreal, who played with the Algonquins just to help them out, belongs the credit of stopping the U. N. B. team from scoring on a number of occasions. He made several of the best tackles seen on the local field this season, although completely out of practice, and his kicking was a noticeable feature of the game played by the Algonquins. He got some hard men to tackle as Rutledge and Baird in a very neat and effective manner, taking them low and with great accuracy. An opportunity to pass the ball either."

Of the try in dispute the same paper says:—  
 "A few minutes later the Algonquins came very near getting a touch down. One of their men got over the line with the ball, but when he went down on the U. N. B. men, he put his hands and the two of them had their hands on the ball, which was apparently between them. The referee properly called for a scrimmage on the five yard line."

From where the gentleman who wrote the Gleaser's story stood, it would be out of the question for him to give opinion from his own observation. The Algonquins do not deny that several pairs of hands were on the ball, but insist that Thorne touched down with plenty of time to spare.

## SCRIBES PLAY FOOTBALL

In Halifax the newspaper men are playing football and there have been some great games. The Halifax Herald says:—  
 "The Crescents' gridiron was treated to one of the greatest stampedes ever handed out to a football arena on Saturday afternoon, when the Herald and Chronicle tackled horns for the press championship of the city. Things were set up and sent to press without the slightest pretence at wifering, the result being that some of the greatest errors in the history of journalism were put on record."

## THE LOCAL SITUATION.

It now looks as if the football attraction for Thanksgiving in this city will be a game between the Marathons and Algonquins. Moncton is after the Indians to go to the railway town for a game, and while matters have not been definitely settled, the likelihood is that the Greeks and Indians will play here. In such an event the Marathons will likely go to Fredericton Saturday to play the U. N. B. the St. Peter's game to Moncton to play St. Joseph's College.

**BOWLING**  
 Bowling is commencing in real earnest on Black's alley, and this week's benefit game is offered for competition in the roll-off which will be held next Monday night. Anyone king ninety-five qualifies for the roll-off.

## BUSTER BROWN'S IN TOWN

Buster Brown and Tige are in the city, with headquarters at The Times office. This funny little fellow, who has made millions laugh, appears in an attractive, brightly covered book, with many colored illustrations, showing Buster's many droll antics. These books will be given to the little folks who comply with the buying conditions while the supply lasts.

For every 50c. brought to the circulation

## CURL WITHOUT ICE

**Unique Invention by San Francisco Enthusiast Makes It Possible.**

And now comes a new game. It is really quite an innovation and may possibly find favor with some of the local Scots—for the game rightfully belongs to the Scots. Down in San Francisco, there has been invented a game of curling which is played on wooden floors instead of on ice. With the means devised for the accomplishment of this innovation there should come a general revival of the old game in this country, removing the limits that have heretofore rendered it possible to play the game only in cold climates—and then only when the weather is cold enough for the water in the lakes and rivers to freeze. With the introduction of curling as a sporting event, the year around, and the possibility of playing indoors in all sorts of weather, great interest has been aroused among the members of the Scottish organizations and some of the most prominent Scots in Winnipeg are expected to awaken a feeling that will spread and carry the game with it.

Speaking of the new game, a San Francisco sport writer says:—  
 "When it was made known that the game could be played in those climes, where ice is an exception to the general rule of weather, clubs were organized among the members of the various Scottish societies in San Francisco and preparations made for participation in the opening contests to be held in the Pavilion skating rink. The idea being submitted to Hugh Fraser, father of (Cian Fraser, he announced that he would give the game his support and further volunteered to be present at the first game with Samuel Irving and Mr. Nichol, the only two surviving members of the St. Andrew's Society, and put the first scores to the test when the contest opened. Four members of the latter organization have been appointed a committee to represent the society in the San Francisco Scottish Curling club, recently organized."

"Curling is one of the oldest games among civilized people. It is somewhat over 300 years since the first stone was put in Scotland. Since that time it has had the place among sports in that country that baseball enjoys in America. In eastern Canada, Nova Scotia, and in the old country great tournaments are held during the year and immense gatherings watch the contests on the ice."

The game is like shuffleboard. The stones are put to a tee, the players on either side alternating in sending the stones along. The positions attained with the stones by the players relative to the end and within the certain bounds score the points and the skill of the game comes in placing the stones on the one hand and shifting them from the scoring boundaries on the other.

"The stone that makes it possible to play the game without ice as flooring was invented by LeBaron Smith, of this city, and perfected by W. D. Creighton. It is made of lignum vitae and in its design is exactly like the shuffleboard stone. The feature which permits its use on wooden floors, however, is the system of three rollers, which project slightly from the bottom of the stone. These rollers are ball bearing, their action being determined as they turn on a sward by any course that the stone may take."

## A NEW GAME

The new game—Diabolo—is becoming all the rage in England and France. M. Gustave Philippart, a French engineer came across the implements of the old game Le Diable, which was very much in vogue both in England and France before the war. It occurred to him that, by making a two-headed top, and improving the implements of the old game, it might be made one of precision, and become a sort of aerial tennis of the future.

M. Philippart came over to London and saw Mr. C. R. Fry, the celebrated athlete and writer on sports, who suggested a name—"Diabolo"—which was claimed and adopted by the inventor. Mr. Fry also suggested that the top should be made of celluloid, and this, too, was adopted. So that the great English authority on sports may claim to have given the new game its name and done much to make it practicable.

Diabolo, says Mr. Fry, is not a game of strength, speed, address, and quickness and is not so difficult as looks. One great merit of the game is that the state of the surface of the ground on which it is played does not matter. The game is capable of an infinite variety, to suit almost any kind of playing area available. The feature which permits its use on a back yard in a town.

Diabolo, says Mr. Fry, is far too good for a mere toy game. It ought, he says, to become a standard game, and he believes it will.

To check a cold quickly, get your drugstore some little Candy Cold Tablets called Preventives. Drugstores everywhere are to be found. They are for prevention, not only safe, but decidedly certain and prompt. Preventives contain no Quinine, no laxative, nothing harsh nor sickening. Taken at the "snore stage" Preventives will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventives. Good for feverish children, 48 Preventives 25 cents. Trial Boxes 5 cts. Sold by all drugstores.

## CONTESTS IN ALL THREE QUEBEC BY-ELECTIONS

**Nomination Day Yesterday in Montmorency, Nicolet and Bellechasse.**

Quebec, Oct. 28.—This was nomination day in Montmorency, Nicolet and Bellechasse. The by-elections were necessary by the decisions of C. R. Devin and L. A. Taschereau to the cabinet, and the resignation of Hon. Adolphe Turgeon, in order to test the feeling of his constituents on the charges made against him.

The candidates nominated today were: Montmorency, Hon. L. A. Taschereau and Mr. Bernier; Bellechasse, Mr. Turgeon and Mr. Bourassa. The interest centres in the latter contest.

## BLESSING TO PEOPLE

**Simple Home-made Remedy for Kidney and Bladder Trouble or Rheumatism—Is Easily Prepared by Anyone Here.**

This is a message that will bring happiness again into many families and sunshine into the lives of hundreds of heartened and discouraged men and women here. It requires just a little inconvenience, for it can't be bought already prepared. It is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder troubles which have made so many cripples and invalids and weakenings of some of our brightest and strongest people.

The druggists have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one-half ounce; Compound Syrup of Sassafras, three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments, even in severe hospital cases, prove this simple mixture the remedy for Rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels those vital organs to filter from the blood and system its waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly any symptoms such as backache, liver disorders, bladder weakness, frequent urination, painful, scaling and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure, puts new life into them and invigorates the entire tract. It makes the kidneys clean the blood. The Dandelion will take care of liver trouble and constipation, and is fine for the stomach.

All the ingredients, states a well-known local druggist, are of vegetable extraction, making it a safe and harmless prescription at any time.

Those who suffer and are accustomed to purchase a bottle of patent medicine should not let a little inconvenience interfere with making up this prescription. Wherever this becomes generally known, states a large eastern publication, it ruins the sale of the patent medicines and so-called rheumatism and kidney cures, which is its best endorsement of virtue.

## THE LADY CURLERS CHOOSE OFFICERS

**Mrs. R. Keltie Jones Chosen President of St. Andrew's Ladies' Club.**

The annual meeting of the lady curlers of St. Andrew's rink was held yesterday afternoon. The reports presented were considered very satisfactory. The election of officers resulted as follows: Mrs. R. Keltie Jones, President; Miss Helen Sydney Smith, Secretary; Mrs. Frank S. White, Treasurer; Mrs. Margaret Paine, Miss Warner and Mrs. George K. McLeod, committee of management.

It was considered too early yet to make any plans for the season's games, but it is hoped to send two rinks to the Montreal bonspiel.

Ha! it's a find! fault with nature, 'Hain't a make! no pretence To improve the frozen water, But I shall like the season, When the ice on the wall, Changes to a crimson color, And the nuts begin to fall.

Some may like the joyous springtime, Some may like the summer days, Some may like the frozen water, But I shall like the season, When the ice on the wall, Changes to a crimson color, And the nuts begin to fall.

## ST. JOHN FIRE ALARM

- SOUTH END BOXES.**
- 2 No. 2 Engine House, King Square.

- 156 Princess, near Dikeman's corner.

**A DIFFERENT GAME.**  
 De Quiz—Have you ever ducked for apples? De Whiz—No, but I've had to duck bird shot when I was looking for apples.

## COURTED HER 7 YEARS; SHE NOW WANTS \$20,000

**Miss Cecilia Davis Sues Leon Jacobs for Breach of Promise.**

NEW YORK, Oct. 28.—Miss Cecilia Davis, of No. 357 East Fifth street, values her affections at \$20,000. That, at least, is the amount she expects to get for lavishing them for seven years upon Leon Jacobs, a young and prosperous clothing manufacturer at No. 743 Myrtle avenue, Brooklyn, because, she declares, Jacobs renounced her and wooed another young woman.

Miss Davis yesterday had Leon arrested to assure his presence in the suit for breach of promise which she has begun against him in the Brooklyn supreme court.

According to the complaint which she filed, Jacobs has been introducing her as his betrothed for the last seven years. Five weeks ago he declared, she says, that he was going to marry a Miss Goldman, who lives at No. 657 Myrtle avenue, Brooklyn.

## TEA CAUSED HIS DEATH

**English Window-Cleaner Drank Beverage to Excess.**

LONDON, Oct. 27.—Excessive tea-drinking was stated at the inquest yesterday to have led to the death of William Mayo Allen, aged sixty-two, a window-cleaner, of Stoke Newington, who had been a teetotalist for thirty years.

On Friday last he ate a good supper of boiled beef, and then had some tea. Early next morning he was taken ill and died before a doctor could be procured.

Dr. Reginald Brown stated that the autopsy showed that the heart was weak and fatty, and there was some thickening of the mitral valve. The stomach contained undigested food, and was distended. Death was due to heart failure.

Mayo, who was a teetotalist for thirty years, had been drinking tea to excess for some time, and should not be taken with meat. A verdict of death from syncope, weak heart and indigestion from excess of tea-drinking was returned.

## MEAT PRICES REDUCED

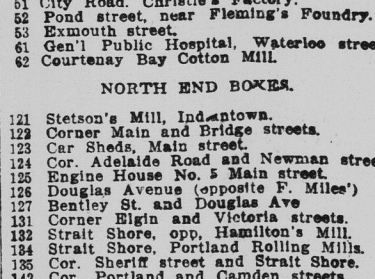

**Omaha Packing Houses Cut Them All Ten Per Cent.**

Omaha, Neb., Oct. 28.—Omaha packing houses today reduced the prices of all kinds of meat ten per cent., and expect a still further reduction. Edward A. Cudahy, of the Cudahy Packing Company, expressed the belief that the financial flurry would result in a general reduction in values.

## DOCTORS

You could not please us better than to ask your doctor about Ayer's Cherry Pectoral for coughs, colds, croup, bronchitis. Thousands of families always keep it in the house. The approval of their physician and the experience of many years have given them great confidence in it. It is, in fact, a cough medicine.

## TIMES DAILY PUZZLE PICTURE

October 29, 1781—One hundred and twenty-six years ago today Sir Henry Clinton, with a fleet of 35 vessels and 7,000 troops, arrived at the Chesapeake too late to save Cornwallis, who had surrendered.

Find a sailor. ANSWER TO YESTERDAY'S PUZZLE: Right side down, in blanket and tree.

## CHEAPEST STOVE STORE IN THE CITY.

Model Art Range, No. 8, 6 holes, high shelf, and water fruit. . . . . \$18.00  
 Magic Art Range, No. 8, 6 holes, high shelf, full nickel plate. . . . . \$20.00  
 A complete line of second hand stoves, as good as new.

**M. J. SLINNEY, Cor. Waterloo and Paddock Sts.**  
 Phone 1730.

## KILLED BY A COW'S TAIL

Binghamton, N. Y.—Wm. A. Wells, of Neward Valley, was milking, when a cow swished her tail, striking him on the forehead with the fleshy part of the appendage. Shortly afterwards, Mr. Wells returned to the house, complaining of a pain in the head, which rapidly grew worse. Physicians pronounced it apoplexy, brought on by the blow from the cow's tail. Mr. Wells died the same night.

Apoplexy is the result of poisoned blood. Bowels become constipated, kidneys get weakened, skin action becomes poor, and the blood is loaded with impurities, which produces weakness in the blood vessels.

Whenever there is headache, backache, neuralgia, rheumatism—it means blood poisoning. "Fruit-a-tive" are a certain cure for all these troubles.

"Fruit-a-tive" are made of fruit juices and tonics. 50c. a box. At all dealers.

## Some day when you're at the grocers ask him for the bread that's good

Take it home you'll say like others

## SCOTCH ZEST BREAD

is "O SO GOOD!"

Some day, but some day soon, if you want bread that is wholesome and moist, ask your grocer for **Scotch Zest Bread**. 'Twill please you.

UNION BAKERY,  
**GEO. J. SMITH, Prop.**  
 122 Charlotte Street.

remote regions have perished from starvation and exhaustion, and the survivors have been forced to cannibalism to sustain life.

Recently the crew of a Newfoundland vessel, which was in Ungava Bay, discovered thirty skeletons lying unburied on the beaches. It is supposed that these were the remains of some of the victims of the famine.
