Prices are still soaring upwards and advances have been recorded this week on tin, solder, files, screen wire, fish lines, tire and stove bolts, iror rivets and burns, crow bars, galvanized sheets, squares, hammers, levels, vises, screw and strap hinges. Prices on washing machines have been withdrawn. A new and higher list, it is understood, is being prepared. In the meantime prices are quoted only on application. The demand for steel is as insistent as ever. The United States Steel Corporation this week reported unfilled orders aggregating 9,262,564 tons on the books of business September 80. RUSSIA IN WAR TIME

(Nicholas Oliger in Cartoons Magazine.)

The conflagration of the world war easily gained entrance to our hearts and purged our cool and musty souls. Imprisoned within the narrow cells of our studios, our offices and workshops, we suddenly awoke to find our muscles grown tenger. We witnessed the birth of bright new thoughts in our minds and strange desires within our hearts. We understood at once that this bloody war, regardless of its origin, was our common affair, and we feared no defeat, for defeat did not exist for us. The passionate ardor of the earlier days of the war gave us strength to overcome the dull monotony of life. We summoned all our forces and began to examine our abilities and ambitions. Hannibal anterportas! Hannibal with his cheap cafes and "Busy Berthas" in place of elephants and catapults!

Mere before the hot weather sets in.—
Judge.

A certain lawyer who was a candidate for a municipal office went out canvassing one day and knocked at a cottage door. The door was opened by a woman.

"Is your husband in, Mrs. ——?"

No, sit,(" was the reply; "but I know vote for you because you got him off for stealing that ham last week."

"No, no, alleged stealing of the ham," corrected the lawyer.

"Alleged be blowed," was the woman's reply. "We've got a bit of it left still. Lemme give you a sandwich cut of it, sir."

## SIR SAM TO STAY IN BECAUSE THEY D. R.: NOT PUT HIM OUT

But He Is Being Gradually Stripped of All His Power and Principal Duties; A Dominion Election a Distant Possibility of the Spring

(By a Staff Correspondent of the Star Weekly.)

Ottawa, Oct 18—Uttawa continues to write a big question mark after the name of Sir Sam Hughes. "What's going to happen to Sam?" was heard everywhere in political circles this week, Somehow or other the politicans, officials and correspondents have got the idea that General Sam's star, dimmed for some time past, is about due for total ecipse. The only thing that seems the ceipse. The only thing that seems the usual crop of speculations, some possible, some probable, some foolish. One strongly supported opinion is that Sir Sam will go out of the cabinet in the general shuffle that is expected shortly. Others claim to know that the general's case will be dealt with separately and that his days in the Borden cabinet are already numbered. Finally, there is a well informed Conservative group who profess knowledge that Sir Sam is not to be dropped from the cabinet at all, but will be rendered impotent in his department of the government.

After a canvass of the situation, the correspondent of The Star Weekly is convinced that this latter opinion is neares the truth. In fact, Sir Sam's retirement for general shuffle the prime minister or a sub-committee of the government.

the to do with their training, and noform thing to do with their command or
strategy at the front. A further extension of the process of gradually relieving
him of his authority would place him in
a position where, except for the matter
of indiscreet speech, he would be impotent to do anything particularly in any
direction.

GROWTH OF WESTERN CITIES

Ottawa, Oct. 17—A preliminary return issued today of the results of the quinquennial census of the prairie provinces taken last June gives the population of cities, towns and villages in the

three provinces,
Winnipeg, the largest city in the middle west, increased its population from 136,025 in 1911 to 168,005 in 1916, being a gain of 29,970 or nearly 20 per cent in five years. For the ten years, 1906 to 1916, Winnipeg shows an increase of 72,852, or more than 60 per cent.
