

Use All of the Milk—Waste No Part of It. Issued by the Canada Food Board

**White for Coolness**  
**Pumps for Daintiness**  
**Cool White Pumps**  
**for Dainty Women**  
**Handsome Styles, Leather**  
**and Fabric, High Curved**  
**Heels, Light, Flexible Soles**

There never yet has been such a "white summer" as this promises to be. There are several reasons for this. First—White is essentially cool and clean looking. Second—It is truly a patriotic practice to wear white when possible.

And there is another reason of a bit more personal note why you will be glad to wear White Pumps. There is the most charming array of handsome, summerish footwear at our stores you could hope to see. Each style daintier than the rest. Each number so proud as to make it an object for you to co-operate in making this the Great White Summer.

Nothing so Cool—Nothing so Dainty

**MORNING NEWS OVER THE WIRES**

Arrangements are being made to have a regular Dominion chaplain service. Chaplains will be chosen to represent each denomination. Col. G. H. Williams is in Ottawa making final arrangements. The report of the Royal Commission appointed to enquire into the dispute between the Dominion Iron and Steel Company and its employees at Sydney, N. S., has been received by Hon. T. W. Crothers. The commission recommends increases in the wages of the low-paid men and that the company be requested to make provision for meeting committees of its employees to discuss any grievance. At an executive meeting of the United Farmers of New Brunswick held in Woodstock last Friday arrangements were made to carry on an extensive organizing programme throughout the province. London, June 4.—Noel Pemberton-Billing, who has been on trial on a charge of libel preferred by Miss Maud Allen and J. T. Grell, manager of the Inde-

pendent Theatre, was found not guilty today.

There are 1,800 racehorses in training in Great Britain, says Mr. Wardle.

\$2.00 WORTH OF ANY  
STICKY FLY CATCHER

Clean to handle. Sold by all Drug-gists, Grocers and General Stores.

**LEMONS BEAUTIFY!**

Strain Lemon Juice Well Before  
Mixing and Massage Face,  
Neck, Arms, Hands.

Here is told how to prepare an inexpensive lemon lotion which can be used to bring back to any skin the sweet freshness of which it has been robbed by trying atmospheric conditions. Wind-chafe, roughness, tan and redness are washed off and those tell-tale lines of care or of age are softened away. The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands, and see for yourself.

**War Garden Bulletin**

**PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACK-YARD GARDENERS EN-LISTED IN GREAT-ER PRODUCTION CAMPAIGN**

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm

**GET READY FOR CANNING**  
Although it is still early in the season, be forehand in your preparations to take care of the fruit and vegetable crop. Don't wait until the vegetables become overgrown, old, tough or stringy before you can them. Make this a record canning and drying year. That is one of the objects of your war garden. And start early. Pickle young beets right now.

Conservative estimates show that 4,000,000 gardeners can produce the equivalent of enough food to sustain 1,000,000 soldiers for 288 days, or almost eight months. Each individual home gardener this year should make it a point to study the comparative food value of the different vegetables and to concentrate on those which add most to the country's food supply. Cabbage, for instance, is ninety-eight per cent. water and requires at least 100 days to become fit for food. On the other hand, beans represent food in highly concentrated form, mature readily and the dry product is easy to keep. Don't forget about the second planting of beans and corn some day this week.

**COMMON COUNCIL**

St. John is to have free hand concerts as usual this summer, according to a decision of the common council in session yesterday afternoon. The commissioners felt that under existing conditions these concerts should be continued and that if anything their frequency increased for the benefit of the citizens who were unable to go to the country over the week-ends and the holidays. The much advertised single tender for coal in response to the city's requests for tenders was opened. If the number of replies to the call for tenders was disappointing the contents of the single tender were equally so for it was in reply to a request for tenders for ten tons of blacksmith coal for the water and sewerage department. The C. P. R. requested the council to permit for four years after the conclusion of the war in which to move their tracks in German street, West St. John, this was not looked upon favorably by the commissioners but will be finally dealt with on Thursday next. The recommendation for repairs for Quinn's wharf was laid over until Thursday for the purpose of inquiring into the best price available for birch timbers. Authority was given to call for tenders and to issue bonds up to \$7,500 for repairs to the west side ferry wharf. The E. S. S. Company lease of the Block's Point wharf was renewed at the same rental. A communication from the Toronto city council asking support for a petition for the abolition of the Canadian senate was referred to the committee of the whole. The by-law fixing a rental of ten cents per square foot for space under sidewalks was read for the first and second time and a rebate on rentals paid or billed at the rate of fifteen cents was ordered. The by-law increasing the license fee on pool and billiard rooms was read the first and second times, passed and ordered. The solitary coal tender was opened and was found to be from J. S. Gibbon & Co. for ten tons of blacksmith coal at \$10.50 per ton. It was referred to the commissioner of water and sewerage. The council went into committee and Commissioner Bullock reported that it was impossible to secure birch timbers for wharf construction but that hemlock is available at \$80 per thousand. Inquiries will be made throughout the province in the hope of securing a better rate. J. Fred Belyea was heard with regard to fishery matters and the council promised consideration on Thursday.

**FEDERAL MINISTERS ARE COMING TO CITY**

Hon. J. D. Reid, minister of railways, is expected to arrive in St. John within the next week or ten days on a tour of inspection of the maritime provinces. It is understood that he will be accompanied by Hon. F. B. Carvell, minister of public works, and, together, they will make the inspection.

**F. L. SMITH, SECRETARY OF Y. M. C. A., RESIGNS**

The announcement that Frank L. Smith has resigned as general secretary of the Y. M. C. A. in this city, will be received with regret by his many friends. It is understood that he is retiring to his old home at Annapolis where he owns a large farm. He has been a very efficient officer and his departure will give cause for regret, especially in Y. M. C. A. circles.
