The Best Quality at a Reasonable Price! The Beauty of Diamonds.

A Diamond is valuable principally because of the unusual brilliancy that makes it so beautiful—so desirable.

A Diamond of inferior brilliancy lacks the one thing that, above all others, makes it worth while.

Diamonds are graded according to the characteristics that produce brilliancy—color, cutting, freedom from flaws, etc.

In our buying we select stones of the finer grades only, stones in which there is no lack of brilliancy, and which will stand inspection of the most critical nature.

No matter what the price, the Diamond you buy here will be full of brilliancy and beauty. You are cordially invited to come in and inspect them.

Gold Recovered From a Dentist's Realized Seventy Pounds Value (Pearson's Weekly, London) If gold is one of the rarest and most valuable metals it is also one of the most widely diffused. We all handle gold. We have it in our purses as money, round our fingers, wrists, on necks, as rings, bracelets or necklets, and we wear it in our mouths as fillings for our teeth.

The amount of gold used by dentists is very considerable, and even dentists have no idea of how much goes to waste in the workshops where they make plates and the like. Some little time ago a Cheltenham dentist was moving house. A friend, standing in his dismantled workshop, which was in the basement of the house, remarked that there must be a good deal of gold in the floor.

The dentist thought it over and decided to take the floor up. He made a profit of £70 after paying expenses from the tiny particles of gold recovered from the floor.

Which calls to mind a case that happened in Melbourne. A contractor demolishing an old house in the rear of the bank of Australia came across a small piece of pure gold. This bullion had not strayed from the strong room of the bank. Enquiries proved to the contractor that the piece in which it was found was the site of the old smelting house of the bank in the great gold boom days.

He commenced prospecting operations and washed up about 2000 tons of fine gold, mostly in the form of dust.

If you watch a rag picker at work you will notice that he puts aside a certain amount of apparently valueless broken china. Examine these, and you find that they are ornamented with gilt lines and figures. The film of gold is very thin yet it is worth recovering. Many have been putting money into somebody's pocket when she smashes a gold ornamented plate.

It need hardly be said that at every mint, including our own on Tower Hill, there is a periodical spring clean; a very thorough one, for the dust, rubbish, and soot contain gold and silver to make the process a very profitable one.

Jewelers, too, keep all their old crucibles, which are eventually broken up and put through a process which recovers the very considerable amount of precious metal which has worked into their substance.

A great deal of silver is wasted in factories where silver plate is made. The hammering process turns the silver into dust. It has actually been found worth while to save the water in which the workmen wash before leaving, and recover from it the black sediment which is largely pure silver.

ENDS BACKACHE AND KIDNEY DISORDERS

Croxone Helps Lifeless Organs Regain Health, Strength and Activity

It is useless, dangerous and unnecessary to those who suffer from the digging, twisting pains of backache or suffer disagreeable kidney and bladder disorders when Croxone is guaranteed to promptly and surely relieve all such misery.

Croxone masters these troubles because it quickly reaches the cause of the disease. It soaks right into the stopped up, inactive kidneys; through the membranes and linings; cleans out the little filtering glands; neutralizes and dissolves the poisonous uric acid and makes the kidneys filter and sift from the blood the waste and poisonous matter that clog the system and cause such troubles.

It does not matter whether you have but slight symptoms or a chronic, aggravated case, it is practically impossible to take Croxone without result.

An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if you are not entirely satisfied the very first time you use it.

TO MY READER: Whether or not you lack an abundant vigor, here is a free offer which will surely interest you, and through which you may easily profit from now on to the end of a ripe, healthy, advanced age. I have compiled a little treatise for self help (book form) which I am pleased to send absolutely free by mail in a perfectly plain, sealed envelope to any man anywhere who writes for it. There is no obligation whatsoever involved in this offer, nothing which you are required to buy, nothing which you are required to pay for in any way, either now or in the future. It is just simply an out-and-out free proposal.

In this little book of 72 pages, 8,000 words and 30 half-tone photo reproductions, I have endeavored to give a straightforward talk to men, young and elderly, single and married, a concise compendium for self-reference, a perfectly plain discourse upon those important, personal matters relating to vital strength of men, the preservation of virility, its possible self restoration, its legitimate uses and its wanton abuses. Every man should be in possession of this book. I make and distribute, in which I make and distribute, is a little appliance that men wish to restore lost vitality are using everywhere today. The book in one part fully describes it. You wear this vitalizer comfortably upon your body all night. It weighs but a few ounces, and pours a great, gentle stream of FORCE or VITALITY into your blood, your nerves, your muscles and organs, while you sleep. Men say it drives away the nervous weakness or pain in small back often by one application; that vigor is restored in 60 to 90 days. With special attachments my vitalizer is also used for rheumatism, kidney, liver, stomach, bladder disorders, etc. It is a wonderful little appliance and generates and sends out a marvelous force. Possibly you might want to use one of these vitalizers in your own case. If so, you can, after reading the free book, let me know and I will make a special proposition whereby you may have one. If you live in or near this city I should be most pleased to have you call and get a free demonstration of the vitalizer, otherwise write. Hours 9 to 6.
