### HE'S ALIVE! LOOK AT HIM!

George Gillespie, the A. E. F.'s "finest and most complete corpse," wants the world to know he is still very much alive. He has been reported officially dead many times. At Romagne a shell splintered 10 ribs. Then he was buried in a shell-hole, but managed to crawl out. The hospital he was in was bombed, and the ship he came home on caught fire. But now he can't show any disability and the government has cut off his allowance. He is an electrical engineer at the Hawthorne works of the Western Electric Company in Chicago.

### BETTER MOVIES HIS HOBBY

George W. Bingham, though 78 years old, still is working for better movies. He has just perfected a new sprocketless camera and projector that uses perforationless film. It will permit the use of a single film for three years, he declares, while the life of a film is now three months. Bingham has been in the movie camera game more than 20 years, starting in the old Vitagraph days.

### SCENES IN MINE STRIKE ZONE

The Pineville (Ky.) mining region is beginning to resemble the western front. Here is one of the tanks national guardsmen are using in an attempt to quell fighting that broke out between union and non-union miners.

### RADIO AT BASEBALL OPENER

Radio is now an accepted attribute to baseball. The first games of the Cincinnati Reds and the Pittsburgh Pirates, at the season's opening in Cincinnati, were broadcast play by play from a transmitting set in the grandstand. The announcer and the radio operator are shown.

### BULLDOG CLUB TO HOLD SPRING SHOW

Fanciers in Eastern Canada  
Looking Forward to  
This Event.

Dog fanciers in Eastern Canada are looking forward with considerable interest to the spring show of the English Bulldog Club of Montreal, which will be held on May 17 in the Mount Royal Hotel. This exhibit will form a novel departure from the custom of other years, as this will be the first time in the history of dog breeding in the Dominion that a show has been scheduled for a hotel. In addition to this exhibit announcement has also been made that at the same time an international convention of bulldog breeders will be held at which, it is expected, delegates from all the principal cities in the United States as far

his reputation for fairness will serve as an added incentive for breeders to enter the show, as they will feel absolutely assured of receiving impartial decisions based on an exhaustive study of the requirements of the breed. Dr. Anderson, who, incidentally, has never been in Montreal before, has owned more than a dozen full fledged bulldog champions himself.  
The prize list, which will be sent to the exhibitors shortly, is reported to be the most generous ever offered by a specialty club in Montreal. No fewer than forty-six classes are provided, in
