The Committee of Fifty Holds the Second Meeting and Organizes for Work.

Sub-Committees Appointed to Deal With Matters of Prime Interest to the Welfare of the City.

There was a very large attendance at the second meeting of the Committee of Fifty last evening in the city hlal, and the same business-like spirit characterized the proceedings as was observable at the meeting on Wednesday evening.

The sub-committee appointed on the former occasion to draft sub-committees to deal with matters affecting the interests of the city had prepared a report which commended itself very generally to the members of the committee, and which was accepted with little amendment and but a small amount of dis-cussion. The sub-committees were opproved of, the chairman and secretary of each chosen, with but one exception, and the place and time of meeting of each sub-committee decided upon. This routine business was dispatched in short order, there being nothing in the way of obstruction in any shape whatever.

There was also an interesting discussion upon the subject of the establishment of a mint, brought up by Mr. W. H. Langley, which led to the formation of a special sub-committee to deal with the subject in all its bearings and submit some report as to the best manner of bringing the advisability of the desired innovation to the attention of the

proper authorities.
His worship the mayor presided, and Mr. G. H. Barnard again discharged the duties of secretary. The meeting opened shortly after 8 oclock. The reading of the minutes of last meeting was the next business, and they were adopted unanimously. A letter from Mr. H. Dallas Helmcken asknowledging his appointment on the committee and regretting that, having to attend another meeting, he might not be able to be on hand this evening, was read, re-

Mr. C. E. Renouf made a verbal communication from Hon. Robert Beaven, to the effect that that gentleman asked for his name to be taken from off the list of members of the committee, as he believed the work should be in the hands of sounger men, although quite willing do all possible to assist the committee n their work.

Mr. Gregory moved that the secretary write Mr. Beaven to the effect that it is the wish of the members of the committee for Mr. Beaven to allow his name to remain on the list. The motion was seconded by Mr. W. H. Bone and duly carried.

The report from the sub-committee appointed at Wednesday's meeting, suggesting the proposed sub-committees and the subjects they are to deal with, was

then read by the mayor.

Mr. Renouf moved that the report be received and considered seriatim. This was seconded by Col. Prior and carried.
Committee No. 1—Charter and municipal legislation, Messrs. Hunter, Marchant, McPhillips, Redfern and Renout. C. Holland suggested that the name of a large property owner should be included among those who have to consider the charter, and recommended that Mr. F. B. Pemberton be added. Mr. A. E. McPhillips asked that his name should be removed from that particular committee, as in view of his posi-tion on the floor of the house it would place him somewhat peculiarly to be included on a committee from the citizens.

Mr. Renouf pointed out that the ob-Mr. Renout pointed out that the object of the committee was merely to discuss the abstract question, and he did not think Mr. McPhillips would find himself in any conflicting position. It was desired to have the benefit of Mr. McPhillips's advice, as it was also of that

of every city representative.

Mr. McPhillips said so long as it was understood that he was not to be expected in his position as a member of the house to be compelled to endorse everything the comittee did and that he was acting more in an advisory position, he had no objection to remain on

Mr. Pemberton's addition to the committee was then voted upon and de-feated, the committee being finally to him their work was contingent upon what the other committees did. The mayor ruled that until the report was dealt with no other subject coul be taken

ments: The committee of the whole.

Col. Gregory then moved that no instructions be given by the general committees but mittee to any of the sub-committees, but that they be left free to submit their own reports on the various subjects.

Mr. W. H. Langley brought up the matter of the banks purchasing gold from the miners from the north and from the miners from the north, and quoted instances of men having purchased large quantities of goods subsequently to having disposed of their dust here. Mr. Langley strongly favored the establishment of a mint, and thought it came well within the scope of the committee's work to press this matter upon the attention of the proper author-

Capt. Tuttle Meets a "Sealing Captain" and Pays Two Dollars For It.

A Victoria sealing captain, who has with him an interesting story of how Capt. Tuttle, of the United States rev-enue cutter Bear, lost \$2 in Seattle the other day. The captain was parading Mr. Gordon Hunter asked what this the streets, when a man whose name is—but then that is immaterial—step-ped up to him and asked if he remembered Capt. Clark, of the sealing schooner Juanita, which was seized many years ago by the Bear in Behring sea. The man, who, it seems, was one who belonged to the crew of that vessel when the seizure occurred, went over the incidents of the seizure, not forget-ting to "jolly" the American officer at every opportunity. He told of how he had enjoyed the passage down on the Bear and so on. It so happens that Capt. Clark was brought down on the Bear after the seizure and Capt. Tuttle, although he had no remembrance of the features of his passenger, had not gotten the incident. Together the American officer and the alleged sealer went along the street and interviewed a couple of bartenders on the strength of old times. After some time the alleged Capt. Clark, who had told Capt. Tuttle that he was now master of a bark just in from Nagasaki, then lying in Seattle harbor, asked the officer for the small morning the captain looked over shipping for the bark of his friend late sealer, but nary a bark could find, and inquiry showed him that no bark such as referred to had been there. He then realised —. His renewal of acquaintance with "Capt. Clark" had cost him \$2.

Mr. Hooley's statements during Wednesday's bankruptcy examination brought forth a crop of disclaimers from titled and other gentlemen whose participation in his profits, according to Mr. Hooley's evidence, was in no wise creditable. Some of these caused qualms among club men. His statements give the key to the meaning of a paragraph in Mr. Henry Labouchere's Truth, setting forth that a former millionaire was about to expose the committee of a great west end club which, having accepted money to secure his election to membership, had his name erased from the books without returning the money when he was adjudicated a bankrupt.

The temperance party won a moral victory this week in attacking the sale of intoxicants within the houses of parliament, which is in the anomalous po-sition of breaking the laws made by its members. The action was an appeal from the decision of a magistrate who held that the licensing act did not apply to houses of parliament, and the appeal court practically admitted that the magistrate's decision was wrong in view of the present state of the licensing law, but the court dismissed the ing law, but the court dismissed the appeal on a technical point. The lord chief justice, Baron Russell of Killowen, however, recommended parliament to pass a bill legalizing its position.

from France and paid her semi-annual visit to all authorities. She was per mitted to visit her daughter, Mrs. Maybrick, who is undergoing imprisonment for life, after having been convicted of poisoning her husband, in Ailsbury prison, on Wednesday. She reports the prisoner in a lamentable condition, worn to the bone, and still unable to work. She is confined in the infirmary and her is utterly broken. Friends of spirit is utterly broken. Friends of Mrs. Maybrick here are convinced that some influence which does not appear on the surface is alone responsible for the opposition of the home office to the release Mrs. Maybrick. It is known that Col. John Hay, just before leaving the United States embassy here to assume the duties of secretary of state at Washngton, made another unsuccessful effort obtain her release and that the lord chief justice also lately took steps in the same direction. A peculiar feature in connection with the case is the per-sistency with which reports are appearing in the English papers saying that some one in New Zealand left Mrs. Maybrick a fortune. Mrs. Maybrick's mother wrote to the British officials and to the United States consul at Wellington, N.Z., and both replied that there was no such man known as the one named in the items and that no such will had been probated. In spite of this paragraphs saying the fortune is being carefully husbanded for Mrs. Maybrick

by trustees are again appearing in Liverpool and other papers.

FATAL COLLIERY DISASTER.

Engineer's Carelessness Causes Loss of Seven Lives at Wilkesbarre. Wilkesbarre, Pa., Nov. 5.-Seven men

Wilkesbarre, Pa., Nov. 5.—Seven men were killed and three fatally injured at Exeter colliery, on the Lehigh Valley Coal Company's grounds at West Pittson, near here, this morning. The accident was due to the alleged carelessness of the engineer; David Price, who, acting in dischadiance of vecitives. acting in disobedience of positive or-ders, caused the three cars to run into the top shaft. These cars Joadel and weighing eleven tons, fell down the 360-foot shaft and crashed with frightful force upon a carriage carrying ten men. Seven were almost instantly killed. The accident occurred at 6.30 o'clock as the men were going to work and being sent down the Exeter shaft in parties of ten at the same time. Enparties of ten at the same time. Engineer Price, in charge of the little donkey engine, was shifting loaded cars from the new Redash shaft, several hundred years away, to the Exeter breaker. This track, approached the head of the Exeter shaft, and a distance of 30 feet from it curved gently to the right and around the shaft to the breaker. At a point where this breaker. At a point where this track commenced to curve was a switch and 30 feet of track leading to the head shaft, which was used for storing crippled cars. Close to the head of the crippled cars. Close to the head of the shaft it was closed by a headblock. Price's orders were to approach the breaker with the engine at the head of the train. A few days ago he was caught pushing cars, and was threatened with discharge for disoleying the order. To-day he did the same thing. The train was going at a good speed when, instead of curving around the shaft, the cars dashed into the shaft, which was open. Price reversed the engine, but it was too late. The cars engine, but it was too late. The cars struck the head block, smashed it, and three of them toppled down the shaft. About 20 feet from the bottom they struck the carriage with fearful force. completely wrecking it. A mass of wreckage fell to the foot of the shaft, choking it, and when, after hard work, the men were extricated seven were dead and three fatally hurt.

OWEN SOUND SENSATION. A Banker Gives a Check for Two Thous-and Dollars Under Force.

Owen Sound, Nov. 4.—In the police court to-day Mr. Burt, a moulder, appeared, charged with feloniously wounding Joseph P. Raven, a private banker. Raven's story is that he had a chattel mortgage on the furniture of the Burt family. One morning have less than the same of the start of the start of the start of the same family. One morning he called and asked for payment of the rent, and while conversing with Mrs. Burt her husband entered the room and drawing a revolver threatened to blow Rayen's brains out unless he signed an acknowledgment that he had been guilty of improper relations with Mrs. Burt and also agreed to pay \$2,000. Mr. Raven signed a check on the Merchants' Bank of Canada for the \$2,000, which Mrs. Burt went and presented while he remained still under the revolver. There not being sufficient funds in the bank, he was compelled to give an I.O.U. for \$1,000 and

check. According to Burt's story had instructed his twelve-yearold daughter to notify Raven to keep away from the house, but on re-turning this day he found Raven and his wife in what he considered a compromising position. Burt then drew a evolver from a drawer with the inten-ion of shooting Raven, but it was taken away from him and he knocked Raven down with a stick. Raven then volun-tarily gave a check for \$2,000 to hush the matter up. The case was remanded.

CANADIAN BRIEFS.

Toronto, Nov. 4.-The bureau of mines has the following statement giving the values of the mineral production of Ontario for the first nine months of the present year, compared with the total production for 1897: During the present year 38,035 tons of gold ore have been treated, yielding 11,4891 ounces of bullion, exceeding the total output of last year. In 1897 no silver mining was done, while this year 673 tons have been milled with a product of 20,867 ounces. Of nickel and copper 85,254 tons were smelted in the nine months; the matte product was 13.472 tons, which when refined gave 1,830 tons of nickel, valued at \$339,216, and 2,266 tons of copper, valued at \$208,569. The production of iron ore increased from 2,763 tons in 1897 to 28,334 tons, valued at \$36,338 at
