WASHINGTON, April 25.—Andrew Carnegie has offered \$1,509,000 to the government of the Netherlands for the establishment at the Hague of an international library and temple of peace. THE TEAMSTER'S REPLY,
To the Editor of the Star:

Sir,—It is strange that Fruit Merchant would make a statement like that in the Star and Sun in re truckmen that they won't go to St. John (west), yet they haul planks from above Loch Lomond. West End Job nets them \$5 per day (single); Loch Lomond Job nets them about \$4 per day (double),
Fruit Merchant states they could haul twenty boxes at a load (single horse)—twenty boxes, weight 170 pounds each—3-500 pounds. What does Mr. Wetmore think of this load to haul up the floats?

The Teamsters' Union stands ready to sign a contract to haul freight at fair wages any where between St. John and Vancouver. I trust this is broad enough to suit Fruit Merchant.

I will not find fault with the service siven at the sheds; the merchants know all bout that, but we as truckmen don't want to bear the blame much longer. If there is to be mud thrown let it strike the right parties, not make the truckment the target. We only ask to be allowed to earn our daily bread as citizens, and if an old established right is sought to be taken away without an equivalent we will protest and ask our friends to do likewise.

We thank Mr. Oborne for his kindly feelings towards us, and would ask him to consider the sellish motive that actuated a wealthy firm: Freight rates, 000; trucking, 000; profits as shown by wealth possessed, 100 per cent.; truckman's horse, rack of bones; wealthy merchant's horse, fat and slick, livered servants, etc.

High Time Somebody Woke Up and Did Something.

Did Something.

Many North End citizens complain of the way in which a number of foreigners doing business on Main street are allowed to dispose of their old paper, ashes and other garbage. Not far from the head of Long Wharf on Main street is a vacant lot which is the favorite dumping ground of these people. There is nothing to prevent the wind blowing the trash out on the street, which at times is in a disgraceful condition.

If those that look after the street cleaning department and control such rubbish heaps do not care what our citizens have to put up with they might at least have compasion on strangers in our city. The season is rapidly approaching when tourists will be looking this way and it would certainly give them, to say the least an unpleasant impression of our city to have cabbage leaves, old and fithy paper blown into their faces as they walk or drive by.

It is time some one woke up and did something.
