Stetson & Cutler's big mill, Indian town, will commence operations for the season on Saturday. This will be the earliest commencement in years. The firm owning the mill has a considerable quantity of logs on hand, and it is expected the full mill crew will be to work within a fortnight. During the winter repairs were made to the mill's gear and machinery, which is now in excellent condition. For three weeks past an expert chimney builder has been making secure the towering shaft of masonry.

MARKET DEALERS PETITION.

Ask the Council Not to Raise the Price of Eggs.

At the common council meeting this afternoon the holders of the commission stalls in the market will ask that they be given the stalls they now occupy at the rate they paid last year \$51.

This request is signed by W. W. Howe, Keith & Co., James E. Earle, H. S. Hamming and J. R. Quinn.

The reason for this move is that the council have under consideration the question of market stalls and may go to Fredericton to leave here either Monday or Tuesday, according to what arrangement is made by Robert Maxwell, M. P. The city bills are three in number. One deals with the assessment of the Street Railway, another with the defining of the foreshore's limit, and the third with the proposed municipal telephone system. All are of importance to the tax payers of the city.

CITY BILLS IN FREDERICTON.

Civic Committee Appointed to Go Up and See Them Through.

A meeting of the bills and bye-laws committee of the common council was held in City Hall this morning, when the final consideration of the city's bills before the local legislature took place. The committee appointed to go to Fredericton will leave here either Monday or Tuesday, according to what arrangement is made by Robert Maxwell, M. P. The city bills are three in number. One deals with the assessment of the Street Railway, another with the defining of the foreshore's limit, and the third with the proposed municipal telephone system. All are of importance to the tax payers of the city.

SUGAR AGAIN.

Another advance may be expected in refined sugar very shortly. Yesterday raw sugar advanced 1-16 of a cent per pound in New York, one firm paying 47-8 cents per pound for a cargo of Centrifugal. This makes an advance of 1-8 in two days. In London raw beet sugar has advanced to £14. 6d. 3 f. per hundred. Yesterday the American sugar refinery in New Orleans advanced the price for granulated sugar five cents per hundred pounds. Though the rise has not yet been felt here, the effect of these advances cannot be long delayed.

AN IMPORTANT DECISION.

Judge Wedderburn Declares a Policeman's

Salary Can't Be Attached—High Compliments For Chief Clarke.

In the County Court this forenoon Judge Wedderburn gave a rather important judgment in the case of White v. Hamm.

White, it will be remembered, recovered a judgment for some \$700 against Hamm for false arrest, and is seeking to garnish Hamm's salary as a policeman for the month ending April 6th.

The first objection to allowing the garnishment was (a) that the policeman are not employees of or paid by the city. This his honor considered unsustainable, holding that the whole purview of the acts relating to the matter is to provide a police force for the city of St. John; and that while the local government appoints the chief of police, who in turn appoints the policemen, they, including the chief, look to the city for their pay, and the relation of master and servant exists between the police force and the city. His honor also remarked that the system of appointing the chief by the local government, and keeping the appointment out of the control of local elective bodies, and out of the domain of local politics, was an excellent one, the result of which was that the city had a most competent chief and an excellent police force.

It was then urged that (b) even if the policemen were servants of the city, their pay could not be garnished on the ground that it would be against public policy to allow the public services of public corporations to be interfered with in order to allow private persons to collect their debts. His honor stated that the American law upheld this contention, but as the question had not been settled in New Brunswick he would give no decision on that point, and would leave the matter open.

While the policemen are paid at the rate of so much per day, yet by the regulations of the common council they are paid monthly, and in fact by 19 Vict. (1856) the council must pay monthly, therefore Hamm has nothing due him in April 5, and cannot be a "debtor due or owing to the party" as required by the Garnishee Act. While the form at the end of the act uses the words "accruing due," the railway is assisting. If an accident occurs on any of the railways, the L. C. R. excepted, the railway management must report to the commission which sends an inspector to look into the matter.

FLOATING STEAMER PHARSALIA. Messrs. Wm. Thomson & Co. have received word that the London Salvage Association, on behalf of the underwriters, are making a contract for the floating of this steamer, now ashore at the Philippines, for the sum of \$5,000, no cure no pay. It may be several weeks before the result of these salvage operations is known.

On these grounds the application to set aside the attaching order was granted with costs.

During the course of his judgment his honor referred to the chief's application for an increase of pay, and highly commended the chief on his efficient management of the force, and said that the provision of the law allowing him to appoint the policemen was a most wise one, as the chief, being an expert, could make a much better selection than if the matter was left in other hands. G. H. V. Belyea for the plaintiff, C. N. Skinner and W. W. Allen for the defendant.

MERCHANTS GETTING ANXIOUS.

St. John merchants are anxiously awaiting the trans-shipment of freight on the ill-fated steamer Pharsalia, for this season is coming on apace and there may be some inconveniences if the goods are not forthcoming, especially if they are damaged or entirely destroyed. The Pharsalia's cargo, as far as St. John houses are concerned, will complete spring stocks, and therefore the delay and possible loss of these goods is a matter of apprehension. Upper Canadian wholesalers are a bit worried, too, for they have an enormous quantity of stuff, which they are unable to distribute to various parts of the dominion for the Easter rush.

CENTENARY MISSION ENDED.

Last night's service closed the ten days' mission held in Centenary church by Rev. Dr. Bates, of Boston. A large congregation was present, and a number of clergymen occupied the platform. Dr. Bates spoke of the friends he had made while here and of the encouraging prospects of the work going on in St. John. A resolution was passed thanking Dr. Bates for his work here and wishing him God-speed in his work when he returns home. Dr. Bates will go back to Boston today.

HAVE ARRIVED OUT WEST.

Mr. and Mrs. Warren Vincent, of North End, have arrived in their new home at Deloraine, out west. They spent last Sunday in Winnipeg and, according to a letter from Mr. Vincent, the country is very attractive. Spring is far advanced and grass is growing in many places. Nearly all the farmers are well along with their ploughing. Mr. Vincent is at work in S. K. Colquhoun's store.

STREETS SWEET CLEAN.

Mill and Main streets are as clean and free from ice and snow now as they are in the middle of July. The street gangs have not only removed all that was left of the winter's stuff, but the sweeper has been to work, followed by dirt carts and the long thoroughfare and its feeder, Mill street, are as spick and span as a new pin.

Benjamin Lang, brother of Rev. David Lang, of this city, left on last night's C. P. R. for Winnipeg. Mr. Lang has been studying medicine and will enter on his third year when he gets back to Winnipeg, where he is attending the Northwest University. For some time past Mr. Lang has not been in good health and he took a trip to the old country and, passing through here, he stopped to visit his brother for some days. His health has been much improved by his trip.

INVESTIGATING C. P. R. ACCIDENT.

Edward G. Lalonde, of Ottawa, inspector of accidents for the railway commission of Canada, is in the city, making an investigation of the C. P. R. accident last week. The investigation is being made entirely independent of the C. P. R., though the railway is assisting. If an accident occurs on any of the railways, the L. C. R. excepted, the railway management must report to the commission which sends an inspector to look into the matter.
