KING'S DAUGHTERS.

After a solo by Mrs. C. H. B. Fisher of Fredericton, Miss Massie of Boston spoke on parish work. She said that ers, Doorkeepers, Merry Makers, and the city union of St. John. There were also reports from the "Speak-no-evil and Moore's Mills, Kingshurst, Rothethe modern parish with its staff of workers had proved to be an immense blessing. Near St. Stephen's church, Boston, there is a parish house and a say, and the Opportunity, St. And-The roll call resulted in the finding of twenty delegates. The rerescue home for men. Connected with the latter is a wood-yard, which both port of the provincial secretary showed progress. There were 737 enrolled furnishes employment and ds a source of income. Daily services are held for these men. A Girls' Friendly society members. The reports of the circles showed good faithful work during the year. Mrs. Davis spoke of the Silver has been of great benefit in teaching, embroidery, sewing and many other thirgs, giving the members an idea of current events and notable places. The Cross, the magazine of our order, and urged her hearers to support it. Miss Barker was re-elected provincial secretary; Miss Hanington, recording work among the little girls consist of useful lessons such as sewing. Sum-mer outings are given to these little ones. Mothers' meetings are held, and boys' clubs for the advancement of secretary, and the executive committee, Mrs. Thomson, Mrs. Macmichael. Mrs. Chipman, Mrs. Hall, Mrs. Black and Miss Thorne. At the close of the convention twenty-five members join-ed the order. Very solemn and tender were the words spoken by Mrs. Davis. The meeting ended by a consecration the boys of all classes are kept up. The foreign element is particularly strong in the parish, and work among these has been productive of good re-

sults. The aim has always been to After the reading of the interim minutes Miss Barker read her report as provincial secretary. After a few words of introduction, the report went on to say: This year has been one of carry out the idea of universal broth-erhood, and to this much of the success is attributed. Mirs. Macmichael expressed her pleasure at having so many present, especially in view of the fact that the inability of Mrs. Davis to attend was general progress in spite of ups and downs; periods of enthusiasm and downs: periods of enthusiasm and periods of depression, but all in all considering the standing of the order ganization of the King's Daughters, today in the cities of St. John and Fredericton the advance has been de-cided. Seventy-one new members have been enrolled during the year. Number of members, 766; St. John Number of members, 766; St. John elty, 371; present city membership, 318; new circles, 3; total, 26; decrease, ion, starting first in rooms on Germain street a club for working women 318; new circles, 3; total, 26; decrease, 2; received in fees, \$21.20; received in dom. fees, \$21; badges sold, 108; litera-tule, 72; letters written, 208. One of the new circles is composed of boys. They now have, the house on Chipman they now have, the house on Chipman of a large store occupying the bot-tom floor. The new building on the other side of the street, the property of a large store occupying the bot-tom floor. The new building on the other side of the street, the property of a large store occupying the bot-tom floor. The new building on the other side of the street, the property of a large store occupying the bot-tom floor. The new building on the other side of the street, the property of a large store occupying the bot-tom floor. The new building on the other side of the street, the property to revive the circles at South Bay and Milltown, I have had to mark then ness in my home I was only the the south and the work is being pushed forward to the haroff the list. I planned a series of "at The convention of the King's homes" to be held in my own home the north side: C. B. Pidgeon, two started brick building with store; D. H. Nase, three storied brick building with store; Frank Gorham, brick and with the purpose of meeting personal-ly all members, one circle being in-Daughters re-assembled Saturday morning in the Guild room. Miss Barvited to meet another. Owing to ill-ness in my home I was only able to ker was in the chair. The meeting was opened with: a short devotional sarvice, led by Mrs. C. H. B. Fisher hold two such receptions, much to my regret, for I looked forward to great of Fredericton The reception of reports was conresults from these social gatherings. More of this social work is needed. tinued. Ministering Circle, St. John, Hed by Last June rounded out the tenth year Mrs. Macmichael, thad held weekly prayer meetings, done much chartiable work anti furnisher a room at the of my secretaryship, and I feel that the time has come when I must lay down the work that another may take it up. Kingshurst Circle, Rothesay, had The reports of both the secretaries made sheets, towels and other articles for the hospital, besides making unwere accepted and committees appoint-ed as follows: Credential committee Mrs. Gillespie, Miss T. Trueman and derwear for the Little Girls' H wen shift up. The builders are, again commencing at Bridge street: John McCann, wood, two storles, with store; Mrs. Batterson, buidk, three storles, with store; E. It was moved by Mrs. Macmichae The resolution committee brought in

structure, running back fully one hundred feet. The owners of new structed their line to St. John under pressure of the late government, for the very purpose of building up a Canadian winter port. It was in order to give them return freight and make the operation of their line possible that the traffic agreement of the late government was signed. I remember that quite well. I knew also that for a long time the road did not pay, but lost money, and the company continued to aperate it at a loss because they were looking to the future. Of course Mr. Blair's position is that he wants to make all the revenue he can for the Intercolonial. That is all right, but the question is a large one and a very Nobles, all wooden structures. On Holly street, running off Main, Frank Jordan, Arch. Tapley and John Whelpimportant one, especially for the people of St. John, for their port would practically be closed if the C. P. R. diverted its winter business to Boston or New York.

"Montreal is directly interested also because such a change would affect local shippers. I don't think there is any danger of St. John losing that "The Intercolonial has not facilities

at St. John now to undertake to supply the winter service. In time I believe that the Intercolonial will carry a good deal of winter freight to the port of St. John. Freight can be hauled over the L.C. R. to St. John, in competition with the C. P. R. and Grand Trunk to Portland, without losing money on every ton hauled. Of course money on every ton hauled. Of course the mileage is longer, but the Inter-colonial has no dividends to pay. That makes a big difference. Arrangements have been made this season to handle a good deal of western freight from Ottawa, Arnprior and Parry Sound road over the I. C. R. to St. John. I have long been in favor of that scheme. have long been in favor of that scheme. It was one of my ideas in putting the amount in the astimates last session for the construction of a storage ele-vator at Montreal, that it should be used in storing grain brought east by this road until it was hauled to St. John over the intercolonial. And that will come in time. It is bound to. I believe that it can be made to new though there never will be much money in hauling freight to St. John over the I. C. R. in competition with existing roads. I am going to give this scheme my attention at once. I have a tremendous amount of statis-tical information on the subject, and

I cal information on the subject, and I am going into the matter at once. "I am glad the difference of opinion between Mr. Shaughnessy and Mr. Blair has been temporarily settled, for it would be a disastrous thing for the country was there any misunderstand-ing on that success."

SAND POINT CHANGES.

City Engineer Peters has completed plans and specifications for alterations in the wharf and warehouse accom-modation at Sand Point to give addi-tional facilities for the London steamers. Mr. Timmerman in a conference with the engineer stated that the C. P. R. would not fill in the Cennolly slip, so called, but instead would cede the property to the city. The engineer is in favor of accepting this, as it will give the city a 400 foot berth on the harbor front. His plans provide for the filling in of this slip and for the extension of No. 2 warehouse 70 feet, which will leave a 23 foot roadway be-

At a recent meeting of the managing committee of the Seamen's Mission Society, the question of accommodating cattlemen and tramps during the coming winter was fully discussed, and it was unanimously decided that the Seamen's Home building be used ex-

clusively for sailors. The society feel that it will be neces sary to have some accommodation for cattlemen and tramps during the com-ing season. Their past experience has taught them that these men should in some way be made to work for their night's lodging and board. The management feel that they have all they can do to look after the sailors, and now take the opportunity of suggest-ing that some philanthropically dis-posed persons should undertake the above mentioned work.

bove mentioned work. The society have rented a large room, which they conveniently located, which they would be glad to sub-let to any persons who would guarantee to undertake this important work. It is only probable that before long there will be a large number of cattlemen stranded in our city, and if there is not suitable accommodation provided when that time arrives, the citizens will be greatly worried by frequent calls for elp from these men.

CHEAP WATER IN GLASGOW.

(Engineering Magazine.) In Glasgow a £15 householder ob-tains for 71d. per annum a continuous, neverfailing, unrestricted stream of the purest water in the world deliver-ed right into his kitchen, washroom and bathroom. It is calculated that 380 gallons of pure water are delivered to the citizens of Glasgow for superroad over the I. C. R. to St. John. I have long been in favor of that scheme. It was one of my ideas in putting the amount in the astimates last session for the construction of a storage ele-vator at Montreal, that is should be used in storing grain brought east by this road until it was hauled to St. John over the Intercolonial. And that will come in time. It is bound to. I telieve that it can be made to pay, though there are delivered to the citizens of Glasgow for every penny paid. And it is water of such peculiar softness that the householders of Glasgow can pay their water rate of Glasgow can pay their water are delivered to the citizens of Glasgow for every penny paid. And it is water of such peculiar softness that the householders of Glasgow can pay their water rate of Glasgow can pay their water are delivered to the citizens of Glasgow for every penny paid. And it is water of such peculiar softness that the householders of Glasgow can pay their water are delivered to the citizens of Glasgow for every penny paid. And it is water of such peculiar softness that the householders of Glasgow can pay their water are of the bare and precipitous character of the bare and precipitous character of the bare and precipitous character of the bare soft and the loch. It is uniform in color, temperature and quality, is absolutely free from rollution, and must remain so because the corporation have now bought up the building rights of the whole drainage area; it needs no filtration and is practically unaffected by the change of sensons.

A PECULIAR CASE

Word was received last evenin bout six o'clock that an elderly lady was lying in an unconscious condition in the park, near Lily lake. Officer Hamm went out to the place and found the woman lying on the ground and apparently lifeless. Ordinary me-thods proved unavailing to restore her, and the ambulance was immedi-ately sent for and the woman taken to the hompital. These was very little vas lying in an unconsci accey sent for and the woman taken to the hospital. There was very little sign of life when she reached the in-stitution, but after some hours' work, her condition was much improved, al-though she was still unconscious. The woman is probably between The woman is probably between sixty and seventy years old and very well dressed. The only clue to her identity was found on an envelope in her pocket, which bore the name of Miss Kearns, with the address, corner of Sydney and Britain streets.

If any one hates you, overcome his hatred by asking him for any kind of information. -Atching Giobe

FREDERICTON.

DeWitt Manslaughter Case-Private Blair of the 71st Battalion in Trouble.

FREDERICTON, N. B., Sept. 24.-The trial of Chas. DeWitt, for manaughter, which was to have been held by Judge Wilson yesterday morheld by Judge Wilson yesterday mor-ring, was adjourned until tomorrow at 10 o'clock. The adjournment was made on account of O. S. Crockett, counsel for defence, not being prepared for his case. Mr. Crockett had not bee in-formed that he had been assigned by udge Wilson to conduct the defence

until yesterday morning. The 71st battalion arrived home from Sussex via C. P. R., at 3 o'clock yesterday afternoon, and headed by the battalion band, marched into barthe battalion band, marched into bar-racks. While the battalion were at Fredericton Junction, a rather serious affair took place. Privats Harry Blair, by way of a joke, placed his rifle, containing a blank cartridge, against the trousers of Private Alf. Bishop, and fired. Bishop was injured quite badly, and upon his arrival in the city was conveyed to the hospital. Blair was placed under arrest, and it is said will be dealt with to the full extent of the law.

Ottawa was selected as the next convention city.

A resolution passed denouncing Lau-rier for not keeping his pledge to re-strict Chinese immigration.

THE PRICE OF COFFEE

THE PRICE OF COFFEE. On the New York coffee exchange within the last few days coffee has reached unprecedentedly low prices. This extraordinary depreciation is ac-credited to an unusual crop, which is estimated at 11,000,000 bags. In Aug-uet the increase in the world's visible supply was \$90,000 bags, which is the largest increase ever known in a sin-sile month. During the last few years the high price and the consequent - enormous profits of coffee-raising have induced many persons to enter into that in-dustry. New plantations, established when the price was high, are just now beginning to produce, while many oth-

beginning to produce, while many oth-ors that have not yet begun to bear, will add to the crop next year and in

vcceeding years.

make a great difference in the appear-ance of that part of St. John, which elready gives tokens of being a far more handsome and more comfortable before.
