

SCIENCE CURES THE KIDNEYS THROUGH "FRUIT-A-TIVES"

The Famous Medicine Made of Fruit Juices.

After careful consideration, it has been determined that "Fruit-a-tives" is a thoroughly scientific remedy. It is based on scientific facts and it cures in a scientific manner.

In fact "Fruit-a-tives" is known to be the most scientific remedy ever discovered for Kidney and Bladder Troubles. Mr. Placey thinks so, and his experience proves it.

Clarence J. Placey, Uveron, P. Q., March 17th. I suffered for some years with Kidney Trouble and Pain in the Back. I took every known kidney remedy and kidney pill, but nothing gave me relief. I was advised to try "Fruit-a-tives" and this truly medicinal remedy when every other remedy failed. I used fifteen boxes of "Fruit-a-tives." From the first, "Fruit-a-tives" gave me relief and I am now well—no pain, no suffering—and every symptom of Kidney Disease gone.

CLARENCE J. PLACEY, Uveron, P. Q., March 17th. I suffered for some years with Kidney Trouble and Pain in the Back. I took every known kidney remedy and kidney pill, but nothing gave me relief. I was advised to try "Fruit-a-tives" and this truly medicinal remedy when every other remedy failed. I used fifteen boxes of "Fruit-a-tives." From the first, "Fruit-a-tives" gave me relief and I am now well—no pain, no suffering—and every symptom of Kidney Disease gone.

LITTLE PRECAUTION AGAINST CHOLERA

Quarantine Regulations Said to be Lacking in That Sufficiently Careful Examination is Not Made.

The discovery of an alleged case of Asiatic cholera on the steamer Royal George, of the Royal Steamship Line, plying between Quebec and Bristol, and the inefficient quarantine arrangements in the ports of the river, have aroused some curiosity as to how this port is protected against a similar occurrence.

The Quebec Chronicle, commenting editorially upon this case, says:—"So far as we can learn, the victim appears to have been sick five days and has been showing the symptoms of cholera all the time. There seems to have been carelessness down to river in allowing such a case to pass notice at Gross Isle, and as a protection the examination at that station seems to be useless if this sort of thing is to continue."

Not Proper Equipment. "Is the quarantine on the Gross Isle properly equipped to conduct any bacteriological investigations? We believe that it is not. Again, is it not a fact that the examination of immigrants takes place after sunset, with the duty of looking after and enforcing the quarantine regulations here, the point is made that the law is not strict enough and that the precautions are not sufficient."

No Examination Here. A steamer touching at Halifax is examined by the government health officers at that port. She then comes coastwise and is not subject to a further examination by government health officers here.

In the case of Asiatic cholera, no provision is made for a bacteriological examination. Dr. Ruddick, quarantine officer, was asked last night about the matter and he said that the report of the case on the Royal George had not been confirmed. He had received no special instructions in reference to the case or to Asiatic cholera since last year when instructions were issued to look carefully after all passengers from continental ports.

Presbytery Committees. A committee of the district Presbytery consisting of Rev. David Lang, Rev. J. H. A. Anderson and Geo. Farquhar, of Hampton, paid a visit to the Presbyterian church at Fairville, last evening and delivered addresses before a large meeting of the congregation of that church.

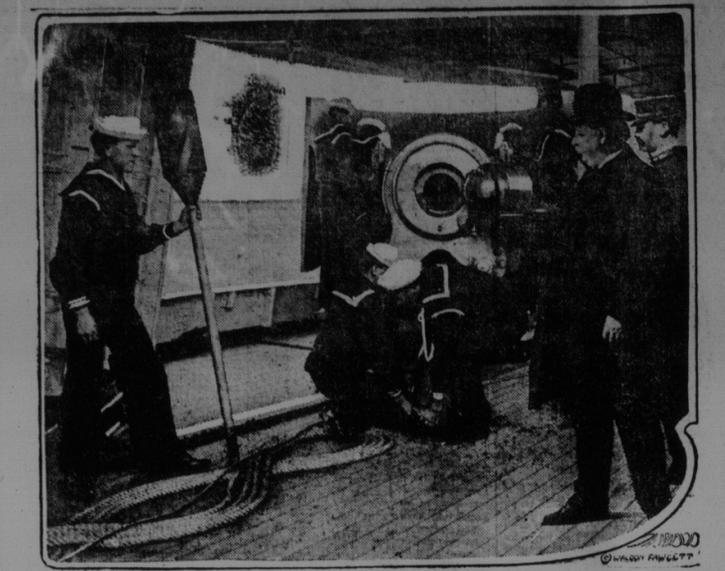

At Gomez Palacio it is acknowledged several deaths on both sides occurred, but the officials declined to give out any figures. It can be stated on good authority that the Mexican government has a cordon of troops extending from a point below Laredo to Colombia, 26 miles up the Rio Grande on the Mexican side.

Public Works Department. F. H. Tingley, of Moncton, has joined the staff of the resident engineer of the Dominion Public Works Department here.

St. Andrew's Society will celebrate the festival of St. Andrew by a Scottish Night in Keith's Assembly Rooms on Wednesday evening, Nov. 30.

G. Gilbert Vincent and Albert Pearson, of the employ of the St. John Street Railway Co., left yesterday on a hunting trip up river. They will remain about a week.

Taft on His Return Expresses Great Faith in Panama Canal

President Taft on Board the Cruiser Tennessee, and Jackies Showing Him How to Man a Gun.

Norfolk, Va., Nov. 22.—The return trip of President Taft on Panama was filled with incident. On Friday night last about 140 miles south of Guantanamo, Cuba, the Tennessee narrowly averted a collision with a German training ship, supposed to be the Freya. A heavy squall had shut in around the presidential squadron, the weather being so thick that the steersman could hardly see a ship's length ahead.

First President in Cuba. On Saturday the president spent three hours at Guantanamo looking over the American naval base, and the rifle ranges there. It was the first time an American president had set foot on the island of Cuba. The territory visited by Mr. Taft, however, is under American sovereignty.

Placed With Canal. The Mexican situation is still being handled wholly by the state department at Washington. Mr. Taft has had but meagre details. The president is deeply gratified over conditions in Panama. The canal is taking form rapidly, and its successful completion is no longer looked upon by the executive with the slightest degree of doubt.

Boy Scouts Can Learn to Walk Silently and Swiftly. There are lots of grown men who don't know how to walk. I don't mean the fatfooted, spread toed waddle some men use to take themselves from the office chair to the elevator and from the elevator to the street car.

Trinity Recital Was Much Enjoyed. An Evening of Light Opera was the appropriate description of an entertainment given in the Trinity church school room last evening under the direction of James S. Ford.

Diaz Troops Well Placed in Mexico. At Gomez Palacio it is acknowledged several deaths on both sides occurred, but the officials declined to give out any figures.

Personal. Rev. Canon Cowie who was called to the city on Friday last through the serious illness of his father, returned to his home in Fredericton last evening.

Shiloh's Cure. Shiloh's Cure quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

CONSERVATIVE CAUCUS HELD

Leader's Choice of Whips Heartily Ratified—United Party Presages Victory at Next Election.

Ottawa, Nov. 22.—The first Conservative caucus of the session was held this morning and was fully attended.

C. A. Magrath, of Alberta, was chosen as permanent chairman. At the close of last session all the whips and other officers sent in their resignations to the Conservative leader, R. L. Borden.

In making these appointments the Conservative leader stated that the old whips had discharged their duty faithfully and satisfactorily in every respect, and that he wished it distinctly understood that he was only appointing other men because the party thought it best that new blood should be taken in and thus keep up the general interest of the members in a more effective way and give a greater number of experience in the work.

Special committees were appointed under the chairmanship of Messrs. Doherty, of Montreal, Sproule, of East Grey and Lennox, of Simcoe, to watch government legislation, private bills and public legislation.

A special reorganization committee was formed under the chairmanship of H. B. Ames, of Montreal, who has had so much experience and been so successful in that direction.

Other special committees for various purposes were formed under the chairmanship of Messrs. O. S. Crockett, of York, N. B.; Lake, of Qu'Appelle, and Reid, of Grenville. In addition to these committees, a number of committees were formed for the purpose of investigating the auditor general's report and the reports of the different departments and it was arranged that the chairman of these committees should form a general committee of which Mr. Crothers, of West Elgin, was made the chairman.

Great enthusiasm was shown by every one and it was felt by all that systematic work in Parliament and thorough organization throughout the country would result in a Conservative victory at the next election.

Recorder Baxter delivered an interesting address on St. John, its past and future, before a meeting held in St. Jude's church school room last evening. Rev. G. F. Scovill presided, and there was a large attendance.

In opening his address, the Recorder spoke of the woman's cause and paid an eloquent tribute to the united Empire Loyalists. After referring to the vicissitudes of the city during its early history, he said that from 1854 to 1870 it enjoyed an era of unexampled prosperity.

At that time real estate here commanded higher than it did even today, when more money is claimed in real estate transactions than in the west.

Continuing the speaker said that concurrently with the abrogation of reciprocity, ship-building began to decline, and then in June 1877 came the great fire. St. John had recovered from the shock of that disaster, and though some people were apparently of the opinion that since the fire the city had simply marked time, there was in other places a feeling of wonder that there was a city here at all.

The next important step in the history of the city was the decision to develop the port and provide facilities to handle the winter export trade of Canada. In this connection the speaker described the building of the Connolly wharf, and traced the development of the winter port up to the present time.

These developments, were he said, not brought about by any fairy godmother, by the government, or any person or interests from outside, but by the people of St. John themselves. St. John did not owe its present position to any interested politician.

Winter Port Business. Continuing, he traced the growth of the winter port business, referred to the part played by the C. P. R., in the development of the city, and said another transcendent railway was knocking at our doors. Contrasting the positions of St. John and Halifax, he said a city which like St. John had made good was too big to harbor feelings of jealousy; and that it had no reason to do so anyway since, if Canadian trade was kept in its proper channels, there would, in a few years, be plenty of business for all the ports equipped with facilities to accommodate the big steamers.

St. John was looked upon as a distributing point, but it should boom manufactures and utilize its neighboring water powers. Above all it should set before itself a plan of development, and develop a healthy type of citizenship.

During the evening there was a recitation by Mr. Spencer, a solo by Mr. McDuffie and gramophone selections by Mr. Tapley. D. C. Clarke made a short speech, extending the thanks of the audience to the lecturer and other entertainers.

Miss Rutledge Appointed. Fredericton, Nov. 22.—Miss Rutledge has been appointed postmistress of Grandis, in succession to the late Laughlin McLean. She was assistant for several years.

A Customer's Reasonable Wish is This Store's Pleasure DYKEMAN'S

Seal Plush Coats. the kind that are so much in demand and so hard to get from the makers. The best imitation of a real seal coat that it is possible to buy. They have a classy appearance are comfortable and will give the greatest of service.

Caracul Coats. made in the very latest styles from splendid quality of Caracul.

Prices \$11.95, \$15, \$19 and \$21.

F. A. DYKEMAN & CO., 59 Charlotte Street.

ST. JOHN CITY WITH FUTURE

Recorder Baxter's Eloquent Address On Opportunities Of Citizens Of Canada's Winter Port—Boom Manufactures.

Recorder Baxter delivered an interesting address on St. John, its past and future, before a meeting held in St. Jude's church school room last evening. Rev. G. F. Scovill presided, and there was a large attendance.

In opening his address, the Recorder spoke of the woman's cause and paid an eloquent tribute to the united Empire Loyalists. After referring to the vicissitudes of the city during its early history, he said that from 1854 to 1870 it enjoyed an era of unexampled prosperity.

At that time real estate here commanded higher than it did even today, when more money is claimed in real estate transactions than in the west.

Continuing the speaker said that concurrently with the abrogation of reciprocity, ship-building began to decline, and then in June 1877 came the great fire. St. John had recovered from the shock of that disaster, and though some people were apparently of the opinion that since the fire the city had simply marked time, there was in other places a feeling of wonder that there was a city here at all.

The next important step in the history of the city was the decision to develop the port and provide facilities to handle the winter export trade of Canada. In this connection the speaker described the building of the Connolly wharf, and traced the development of the winter port up to the present time.

These developments, were he said, not brought about by any fairy godmother, by the government, or any person or interests from outside, but by the people of St. John themselves. St. John did not owe its present position to any interested politician.

Winter Port Business. Continuing, he traced the growth of the winter port business, referred to the part played by the C. P. R., in the development of the city, and said another transcendent railway was knocking at our doors. Contrasting the positions of St. John and Halifax, he said a city which like St. John had made good was too big to harbor feelings of jealousy; and that it had no reason to do so anyway since, if Canadian trade was kept in its proper channels, there would, in a few years, be plenty of business for all the ports equipped with facilities to accommodate the big steamers.

St. John was looked upon as a distributing point, but it should boom manufactures and utilize its neighboring water powers. Above all it should set before itself a plan of development, and develop a healthy type of citizenship.

TAYLOR'S Sugar Cured BACON. FINEST ON THE MARKET LONG ROLLS, SHORT ROLLS, FLAT BACON HAMS DELICATE FLAVOR, CAREFULLY CURED. Ask Your Dealer for TAYLOR'S BITTERNESS CAMPAIGN

Continued from page 1. Mrs. Emmeline Fanchurst, the leader of the suffragettes, was among those taken to jail. Her sister, Mrs. Grant, denied admittance, threw a missile through the jail window. She also was incarcerated. Miss Grace Johnson was the only American arrested. Miss Annie Martin, of Nevada, who was taken to the police station on Friday, and later was released, was not among those arrested tonight.

Mr. Churchill addressed a big meeting this evening from which several men adherent to the woman's cause were dragged out by the police. Mr. Churchill strongly defended the propriety of Irish-Americans contributing to the home rule cause. The cry of American dollars was likely to be used as a retort by the Liberals, he said, since Waldorf Astor had announced that he was again the candidate of the Conservatives for Plymouth. Bitterness promises to be an interesting campaign ground, Sir John Harrington, who married the daughter of Senator McMillen, having thrown down the gauntlet as the Conservative candidate to John Burns, president of the local government board.

Laborites Not Satisfied. The principal move of the day was Premier Asquith's attempt to placate the Laborites by promising to introduce legislation solving the difficulty which has arisen on account of the Osborne Judgment. The Labor party met tonight and declared that the scheme suggested by the Premier was wholly unsatisfactory.

The United Irish has issued a manifesto against the lords, calling land-lordism and the House of Lords system to an end.

The manifesto, which is signed by John E. Redmond, and T. P. O'Connor, is a violent arraignment of the House of Lords, as the only obstacle to home rule. It describes Lansdowne as an "Anglo-Irish landlord whose family name is written deep in that coffin slab, the Lansdowne hospital ward, and thousands of unmarked graves where perished our people driven from the Lansdowne property in the days of the famine."

"At the door of the House of Lords," continues the manifesto, "lies mainly the guilt for all those laws for an increase in landlord power and for the rejection of all measures for tenant relief, whereby the great famine and the great exodus were the plain and direct consequence."

"To every Irishman of this generation, appeal the voices of a million of our people who died of hunger and five millions driven to exile to de-throne the iniquitous body to which they owed their boundless suffering. True to its iniquitous history the House of Lords alone today stands athwart the path of Irish victory. Its fall is the rise of Ireland. If this election is won, the battle for home rule is won."

The manifesto quotes numerous declarations of Premier Asquith and Chamberlain Lloyd-George committing the Liberal party to the policy of home rule. Referring to the "dollar bogey" it says, "No American dollars for the cause of Irish freedom; millions of American dollars for the cause of the sacred rack rent, such is the cry of the Tory party."
