The food which is taken to nourish the body and keep up vigor and strength becomes a poison to the system when digestion fails. You feel drowsy after meals, lose appetite, suffer from constipation, have pains in the bowels and through the body. Instead of being digested, the food ferments and gives rise to gas or wind on the stomach, which crowds about the heart, causing suffocating feelings and derangements of the heart's action.

Resort to aids to digestion cannot afford more than temporary relief, for the trouble is caused by torpid, sluggish action of the liver and bowels. These organs must be awakened so that they will filter the

poisons from the blood and remove from the system the accumulating waste matter.

Here lies the cause of indigestion and dyspepsia, and neglect only leads to chronic and complicated derangements, which destroy all comfort and shorten life.

The ideal treatment for indigestion is Dr. Chase's Kidney-Liver Pills, because they promptly and positively remove the cause of trouble. Acting directly and specifically on the liver, kidneys and bowels, they cleanse the system of all impurities, and their occasional use keeps these filtering and excretory organs regular and active. The blood is purified, pains and aches disappear, and such derangements as indigestion, constipation, biliousness, back-ache and kidney derangements are cured.

One pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappoint.
