WOMAN'S WORK IN THE WAR

It forms a glorious chapter in the history of Canadian womanhood. She has nursed the sick and wounded—she has cared for the widows and orphans. While working for the Nation her work for the Home can be lightened by serving Shredded Wheat Biscuit, a ready-cooked whole wheat food that combines deliciously and wholesomely with berries or other fruits. A Summer life-saver.

MADE IN CANADA

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Heavy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing sagging hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by the Ross Drug Co. in St. John and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces the transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, disappear. The dull eyes become bright, and pale cheeks glow with the bloom of perfect health.
