

GAGETOWN

Gagetown, April 14.—The annual departure of the ice in the St. John river and Gagetown creek exhibited a number of peculiarities this year, not the least of which was the remarkably low level of the water during the time the ice was going out and for a week or more after. Only during the past three days, has the water begun to come up, and it has risen about two feet in that time, making about a foot of the rise in the past twenty-four hours. There was nothing spectacular about the ice run this year. The ice seemed soft, it disappeared as if by magic, and owing to the low level of the water, there were few interesting objects carried down with the ice. People along the river always expect to see a bar or two floating past in the course of the ice run. Owing to low water on the marshes and along the smaller creeks running in from Gagetown creek, mud rats have been unusually scarce this spring, and the local Indians are complaining bitterly of their hard luck. However, things are looking brighter in the past two or three days, and quite a number of "rats" have been trapped. The skins are selling locally from \$1.75 to \$2.00.

James M. Scott, of the Fraser Companies, Fredericton, came down on the Express Wednesday morning, bringing a crew of twenty-five or thirty men for stream driving on the Millstream, where the Frasers cut some hundred thousand feet last winter. A man in the crew named Kelly, who had been out of employment all winter, got with bad luck yesterday, when he got caught among some logs and had a leg badly crushed. He was taken to Fredericton last evening destined for the hospital.

The Millstream was full of logs yesterday, in addition to the Frasers' lumber, there is a large quantity cut by Walter McKinney for the River Valley Lumber Company; another lot cut last year by Gilbert Stockford, and a smaller quantity belonging to Herman McKague.

While working on a lumber pile at Queenstown some days ago, Gilbert Cameron, brother of Fred W. Cameron, with whom he was working, fell from the pile and fractured his

A Danger Warning
—Bleeding Gums

Are your gums tender? Do they bleed when brushed? If so—watch out for Fyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Fyorrhea, the gums become spongy, then recede; the teeth decay, loosen and fall out—or must be extracted to rid the system of the infecting Fyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Fyorrhea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Fyorrhea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

CATARRH OF
THE STOMACH
FOR EIGHT YEARS

The cause of this trouble is the fermentation of food in the stomach which generates a gas that is very frequently belched up. There is also a rumbling of the bowels and a discharge of mucus, there is constant retching and the meals are frequently vomited. There is a burning pain in the stomach, the appetite is lost, the tongue coated, the breath bad, constipation is generally present and the sufferer becomes weak, nervous, depressed and exceedingly miserable.

The blame lies with a sluggish liver, for it holds back the bile which is so necessary to promote the movement of the bowels, and when the bile gets into the blood a badly disordered condition of the stomach, liver and bowels will surely follow.

Keep your liver active and you will always enjoy good health.

Mrs. Agnes Gallant, Reserve Mines, N. S., writes: "I had been a great sufferer for eight years, from catarrh of the stomach. I tried several, so-called, catarrh remedies without relief until a friend advised me to try Milburn's Laxative Pills, which I did, and four weeks completely relieved me. That was six years ago, and I have had no return of my old trouble."

**Unsightly Pimples
And Face Eruptions**

In the Spring Most People
Need a Tonic Medicine.

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the blood is impure, and that its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot get rid of these troubles by the use of purgative medicine—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, blood-improving, nerve-restoring powers. Every dose of these medicine helps make new rich blood, which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood.

Yes, you get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Housing Problems

Delegates from Thirty-Six
Countries Attended Conference in London.

London, April 14.—(By Canadian Press.)—The most remarkable gathering to discuss town planning and housing problems that ever took place in the world was that of the International Garden Cities and Town Planning Association in this city recently. At least, it was so characterized by Lord Robert Cecil in proposing a toast to the guests at a luncheon given in honor of the visitors, and it was generally agreed that Lord Robert had not exaggerated.

Delegates from 36 countries attended the conference even Hawaii and the Baltic Republic of Latvia being represented. The various Dominions of the British Empire sent delegates, and the Canadian contingent included representatives of Quebec, Ontario, British Columbia and Nova Scotia. Among the countries directly interested in the conference were Japan, Palestine, China and the new Irish Free State, Belgium, with sixty delegates, had the largest representation outside of Great Britain.
