CALENDAR 1875.

Golden Number..... 41 Domestical Letter..... C
 Epact..... 29 Roman Indiction..... 6, 98
 Solar Cycle..... 8 Julian Period..... 5, 988

The year 565 of the Jewish Era begins Sept. 30th, 1875.
 Ramadan (Month of Abstinence observed by the Turks) begins Oct. 28, 1875.
 The year 1292 of the Mohammedan Era begins Feb. 7th, 1875.

THE SEASONS.

Sun enters Aries, Spring begins March 20d 12h
 Sun enters Cancer, Summer begins June 21d 20h
 Sun enters Libra, Autumn begins Sept. 23d 17h
 Sun enters Capricorn, Winter begins Dec. 21d 17h

ECLIPSES.

In the year 1875 there will be two Eclipses, both of the Sun.

I.—A Total Eclipse of the Sun, April 9th, 1875. Visible in portions of Africa and Asia, and the intermediate Indian Ocean.

II.—An Annular Eclipse of the Sun, September 28-29, 1875. Visible in Canada. Begins on the earth generally Sept. 28, 10h, 10m, a.m., mean time of Greenwich, in Longitude 64° W., Latitude 38° N. Ends on the earth generally Sept. 29, 5am, a.m., in Longitude 36° E., and Latitude 22° S.

The Sun's rising and settings are given, for the Sun's centre, corrected for refraction.

The Moon's rising is given from full to change, and the setting from change to full.

HYPHOPHOSPHITES, first discovered by Dr. Churchill of Paris, so far back as 1845, as the Remedy for Consumption, Throat, Bronchial and Chest Diseases, compounded according to his recipe, still stands untrifled, year by year adding fresh proof to its curative effects. It is recommended by the leading Physicians of Europe and throughout the Colonies; it is palatable to take, promotes appetite, strengthens the nervous system, improves digestion, creates healthy blood, and restores the phosphorus originally existing in the system. A fuller reference, however, to the action of this valuable preparation will be found on page 8. The *Vitellina Hypophosphites*, so well known throughout the country, is prepared according to the Formula of the Original Discoverer himself, and is obtainable at any Drug Store in Canada.
