

HAGYARD'S PECTORAL BALSAM

For the speedy and permanent cure of
Coughs, Colds and all diseases
of the Throat and Lungs.

HAS NO EQUAL.

It is manufactured from the best known and most reliable BALSAMS, GUMS AND VEGETABLE TONICS, in chemical union with the extract of Wild Cherry Bark and Liquorice, in their fresh and unadulterated forms, and is the most pleasant and effective combination that can be secured, with a view to permanent relief or cure.

ITS MEDICAL PROPERTIES.

Its chief medicinal properties are HEALING, SOOTHING, STIMULATING, TONIC, AND EXPECTORANT. The Liquorice soothes and removes all irritation and inflammation, cleansing and healing the mucous surfaces of the throat and air passages leading to the lungs; and Wild Cherry Bark has a superior Tonic power, and is among the most valuable medicines in use.

From its very nature it becomes almost a specific in all diseases affecting the mucous surfaces, such as we find in the Stomach, Bowels, and Digestive System; in the Lungs and Respiratory System, and in the Uterine and Urinary Systems. Hence from acting on the mucous surfaces of the entire Respiratory System, its wonderful curative efficacy is seen in curing:

Hoarseness, Coughs, Colds,
Quinsy, Influenza, Croup,
Whooping Cough, Asthma,
Bronchitis, Spitting of Blood,
Wasting of Flesh, and all
Diseases of the Lungs.

All the above complaints and many complicated cases of inflammation of the mucous surfaces are the neglect of a slight cold, which might easily have been averted by the timely use of the Pectoral Balm. Sometimes there is a chilliness or creeping sensation pervading the whole system, or there may be a violent headache, accompanied with constipation of the bowels, and in other cases pains and aches, or a tightness across the chest. When any of these symptoms are present there is something radically wrong, and which requires prompt attention, otherwise the blood will take up the poisonous matter that the mucous surfaces are charged with, and the whole system becomes deranged. Then local fever commences. The cheeks are flushed, the air passages from the throat to the lungs become coated with a thick glue substance, making it difficult to breathe, which if not removed, will, in a very short space of time, produce Ulcers or Chronic complaints difficult to cure, such as Asthma, Bronchitis, Consumption, and other diseases of the throat and lungs, the strength fails, cold sweats, sleep disturbed, dry hard cough, the flesh wastes, and general debility sets in. Hagyard's Pectoral Balm, when used according to directions, will cure or relieve any of the above complaints unless Consumption in the third stage. One 25c. bottle has cured hoarseness of three or four weeks' standing. One or two bottles have cured old coughs. One or two doses often relieve sore-throat. One bottle has cured Bronchitis. A few doses will relieve Croup or Asthma. There is no case of Throat or Lung Disease that the Balm will not relieve and do all we claim for it. Its healing, soothing and Balsamic properties are such that they act direct on the diseased parts. Thousands of bottles have been sold annually and are highly spoken of by those who have used it. Mothers and nurses should keep it for cases of emergency.

A cure will be greatly assisted by applying Hagyard's Yellow Oil freely over the Throat and Lungs, or when there is a Constipation of the Bowels, Dizziness of the Head, Debility, Depression of the Spirits, Prostration, Chilliness, and a feeling of soreness all over the body, the patient should take one or two doses of Hagyard's Pills or some other good opening medicine, which will in ninety-nine cases out of every hundred hasten a cure.

FULL DIRECTIONS ACCOMPANY EACH BOTTLE.

Price Two and Five Cents.
