GO! GET IT

What will the new year bring? That is the question that many a man has asked himself. It is one question we cannot answer. It is one no one can reply intelligently to. But whatever it may bring, there is one sure thing, we will have to work for it all we get. So, let us put our shoulder to the wheel of industry and make it roll around. Let us pull together in business and social life alike. Let us cast out our differences and get together in a real community way. Help one another up the hill of strife. Why should people carry one another? It doesn't seem right does it? Then, let us when we have anything to say, say something worth while, and when we have anything to do, let us do it with all our might. We live in one of the best communities in the world, but few of us realize that. Here we have most everything that goes to make up a real centre, so let us get the spirit and boost, then boost some more. "Go, get it!" That's what Kitchner said, and you know the result. It was got—no matter what. And we say unto you "go, get it!" Remember, action brings results. Let us act and keep on doing it until we put this part of the world in the place it belongs "at the head of everything." Concerted, united action, with pep, zip and anything else you want to put into it—then see what happens.

COURAGE AND CONFIDENCE

Quiet courage and unwavering confidence are the qualities that will best lead all business through present day conditions. We know the cause of our trouble, but so far we are not able to effect an immediate cure. But this does not necessarily mean that the malady is incurable. So let us renew our faith in the hope born in past experiences, and do our part in restoring the equilibrium as quickly as possible.

With this spirit let us approach the difficulties of this year. They may be real difficulties—and serious ones—but we are a people nurtured in the hard school of experience, and as a consequence we are equipped to stand at least a few of the rebuffs of these trying times. And it does not profit much to be too anxious about the immediate future. What is most necessary is to be on a temporary bolstering up of business, but rather an unselfish attitude on the part of all of us to make such sacrifices as may be necessary to restore a true and stable balance to business.

WORLD TO COME TO END

OBITUARY

The home of Mr. and Mrs. Harry Palmer of North Kingston, was saddened on Jan. 6th, when their little daughter, Doris Mabel, passed away at the King's Memorial Hospital, Berwick, at the age of 6 months. Stricken with disease several weeks ago, everything that medical skill and loving care could do, was done to save the precious life, but at last gentle Jesus took the wee sufferer in His Loving Arms to the Home that knows no suffering or death.

Much sympathy is felt for the parents, brothers and sisters in their bereavement.

Oh! hearts that are mourning a little one gone That are longing its face to behold Thank God for the care That protects them there The wee white lambs in the fold.
