

Excellent Profits from Poultry and Eggs

THOUSANDS of others have made a success of raising poultry and eggs for market—you, too, can be successful by giving a part or all of your time to it.

Right now the demand for high grade poultry and eggs in Canada and Europe is much greater than the supply. This is your opportunity.

Those who make the greatest profits are those who begin earliest. Your first step is to

Send for our Free Book
"How to Hatch Chicks that Live"

It tells about the kind of incubators and hovers that have been endorsed by all our Canadian Agricultural Colleges—it shows how to build your own brooders at small cost—the kind of feed that produces quick, healthy growth and winter eggs, and how to obtain the experience of successful poultry raisers.

We will help you to begin and we will pay you top prices for all the poultry and eggs that you can produce. Write today.

For You—a wonderful Book on Farm Drainage—FREE!

Do you know you can take as much crop off 100 acres properly drained as you can off 200 acres not drained and save half the labor? It's a fact. Do you know that proper, inexpensive tile drainage assists pulverization—lengthens the season—prevents surface washing—makes your land lighter to work—prevents drought and increases the quantity and improves the quality of your crops?

Why not have us send you, today, free of charge, a very interesting booklet on this subject? Much to learn—nothing to pay. Don't neglect anything that will help you grow better, bigger crops. Proper drainage means as much as two dollars in your bank account for every one that goes there now, and the Government lends you money for the tile if desired.

Write us today. Mention this paper. Your book is waiting.

ESSEX FARM SEED CORN

Why has corn grown from Essex Farm Seed Corn won more prizes in Field Competition in Canada than all others combined?

This is not an accident. There is a reason and the reason is this:

Corn with vitality does the growing.

Corn with breeding does the yielding.

Vitality is maintained to the highest degree because of our seed corn houses, the largest in the world, which are built with the one idea of maintaining vitality.

Essex Farm Seed Corn breeding means the same thing to corn as a wonderful yearly milk and butterfat record does to a dairy cow.

Some one of the following five varieties grown by us will be what you want to insure a bumper 1915 crop.

Gossip.

See the big Stallion Sale advertisement in this issue. Dr. McEachran, of Orms-town, Que., is offering some horses which should attract the attention of prospective buyers. Buy early.

Illustrated in this issue is that grand Clydesdale stallion, Dunure David (imp.) [13674] (16563), a big, massive, brown son of the great Baron's Pride. He was imported in 1912, is thoroughly acclimatized, and is ready to go into any stable, and with good care, improve the Clydesdale stock of the country. He will be sold at a low price, and on reasonable terms.

It will be worth many a breeder's while to secure a sire or a daughter from Pontiac Creamelle Korndyke De Kol, now in the herd of Richard Clarke, Atwood, Ont. This bull combines the blood of the celebrated Colantha Johanna Lad, Creamelle Vale, Pontiac Korndyke, and Hengerveld De Kol. In addition to the pure-bred Holsteins offered at Mr. Clarke's sale to be held on Wednesday, March 3, are four registered Clydesdale mares and four Clydesdale geldings, the latter all being under four years of age. In addition to the pure-bred Holsteins and Clydesdales offered are half a dozen splendid grade Holsteins, practically all young stuff. Write Mr. Clarke, Atwood, Ont., for a catalogue describing the breeding of this stock.

MORRISTON SHORTHORNS AND TAMWORTHES.

The noted heavy-milking herd of Shorthorns and prize-winning herd of Tamworths owned by Chas. Currie, of Morriston, are still to the front, and in their usual good form. Among the Shorthorns for sale are half a dozen useful heifers rising two years, out of cows bred from Bates foundation that Mr. Currie says milk from 50 to 60 pounds a day, and sired by the Marr Flora-bred bull, Proud Royalist (imp.). These heifers are bred to Blyth Chief 94509, a son of the great sire Right Sort (imp.), and out of Blythsome 2nd. They look like good buying for anyone looking for Shorthorns bred on milk-producing lines. Bred along the same lines are two young bulls, six and nine months of age. With the twenty brood sows in breeding, Mr. Currie is always in a position to supply breeding stock in Tamworths of either sex and any desired age, not akin if desired. Just now he is particularly strong in young sows bred and of breeding age. He is also offering for sale a choice young Clydesdale stallion. He is a bay, rising two years, sired by Imp. King's Seal, dam Imp. Bandeau Susan, by Fashion Plate. Write Mr. Currie your wants.

HARRY SMITH'S SHORTHORNS

For strictly high-class quality, for the low, thick, mellow, heavy-boned type, the 1915 supply of young Shorthorn bulls and heifers in the herd of Harry Smith, of Hay, Ont., has never been surpassed in all the many years of the herd's great success at the big shows. The great majority of them were sired by the present stock bull, the very low and massive, thick-boned roan, Barney Stone, a Crick-shank Butterfly-bred son of the champion, Mutimer. On their dam's side they represent the Crickshank Village Blossom, Marr Roan Lady's, Diamonds and Van-atic, males that have produced for Mr. Smith more prizewinners than any other herd in Ontario, and, as stated above, not this year is the best ever seen in any one year on this noted farm. In young bulls, there are several of breeding age and several about six months of age. The heifers range from one to two and a half years. One of the seven-months' heifers is one of a Roan Lady cow that is now in milk. The R. O. P. test, and other records, show a remarkably high level of breeding. He is an extra good sire, and a very good sire of both bulls and heifers. The heifers are sons of the Crickshank Village Blossom, Marr Roan Lady's, Diamonds and Van-atic, and the bulls are sired by the Crickshank Village Blossom, Marr Roan Lady's, Diamonds and Van-atic. The heifers are sired by the Crickshank Village Blossom, Marr Roan Lady's, Diamonds and Van-atic, and the bulls are sired by the Crickshank Village Blossom, Marr Roan Lady's, Diamonds and Van-atic.

Earns Many Times its Cost in a Season!

That's what this SPRAMOTOR will do on your farm. It will earn you a profit the very first year. This style SPRAMOTOR is built to supply the demand for a good rig at a moderate price. It is equally suitable for spraying trees, row crops, potatoes, vineyards, mustard, weeds; also does your painting and whitewashing at a tenth the cost of hand work. We make the
