

27614

Ottawa, May 10, 1916.

Dr. James Bonar,  
Master, The Royal Mint of Canada,  
Ottawa.

Dear Dr. Bonar:

-- I enclose a note of introduction to Mr. J. F. Welborn,  
President of the Colorado Fuel and Iron Company, whose head  
offices are in Denver, Colorado. Should you pass through  
Denver, I am sure you would enjoy meeting Mr. Welborn, and  
this letter to him will be quite sufficient to secure you  
introductions to other officers of the Company in Pueblo or  
elsewhere. Should you not go to Denver but be in any other  
parts of Colorado where there are mines or industries of the  
Colorado Fuel and Iron Company, if you show this letter to  
any officer of the Company I am sure that will be sufficient  
to make you sure of a welcome.

-- I am enclosing another letter, to Dr. Corwin of  
Pueblo, who is the Chief Surgeon of the Colorado Fuel and  
Iron Company. Dr. Corwin is a man I am sure you would very  
much like. He has many interests similar to your own, and  
if you are at Pueblo you should not fail to call upon him.  
He will give you a welcome, I am sure, at his residence, which  
is in the same grounds with the Company's Hospital, one of the  
finest institutions in Western America.
