WEDNESDAY, OCTOBER 7.

WALLACEBURG'S CLAIM.

If the facts are such as stated in the letter of Mr. T. B. Dundas, of Wallaceburg, to The Planet yesterday, there is no other honorable course open to the management of the Chatham Lacrosse Club than to hand over to the Wallaceburg team the trophy they have won.

There is no glory to be gained by hanging on tenaciously to a "championship" that has not been honestly won upon its merits. Such a course would only disgrace our club and bring condemnation and discredit upon it from all lovers of clean, sportsman-like athletics.

The Planet doesn't pretend to know all the intricacies of the dispute, but it appears to us—if no satisfactory explanation of Mr. Dundas' statement is forthcoming—that the only manly course for our boys to pursue is to hand the trophy over to the Wallaceburg club for this season.

The question of "ringers"? Yes, something might be said with advantage to both clubs in this matter, no doubt—but that's another story.

NEMESIS.

The Windsor Record contributes the following words of wisdom, which, in view of recent developments in the Maple City, should be read with interest by parents here:

The other day the triple execution of the Van Wormer brothers took place in the Danemora, N. Y., prison. Aged 28, 24 and 22 respectively, these young men were cut off at the threshold of manhood. They each possessed ability, which, had it not been perverted, would have given their native state three clever and useful citizens instead of three criminals, who in their freedom were a menace to life and property. The crime for which they paid the penalty was the murder of an uncle, who had time and again befriended them.

The circumstances in life that lead to such a deplorable and infamous taking off are not far to seek. It is the old story of an idle life, for we are told that the three young criminals had not performed three months' wholesome labor in their lives. In spite of this they were always supplied with money and dressed far better than those whose funds and wardrobe were due to honest toil. An active mind is never satisfied by idleness. If it is not rightly engaged there is great danger of it becoming perverted. Work is the natural condition for man. Perhaps no one has ever preached the divinity of labor more strongly than did Carlyle. Work is the salvation of mankind and in its performance we are carrying out the divine will. Honest industry is one of the main attributes of good citizenship. Records of crime show for the most part that criminals are such by reason of idleness and its concomitant sins.

The execution of the three Van Wormers raises another question of a sociological nature, namely, to what extent is society responsible for crime? Their mother died when they were 10, 6 and 4 years old respectively, and they were apparently left to grow up to their own liking. That discipline, which should mould the life of every child, was wanting so far as their lives were concerned. They chose the broad way instead of the straight and narrow path. There was an abuse of freedom. Society as at present constituted recognizes man's free will and his right to govern his own actions, so long as he does not encroach on the rights of others. Personal freedom means personal responsibility, and by it a person may become a self-made man, useful and honored as a citizen, or he may become a menace to society and occupy a criminal's cell. The tendency is for greater individual freedom and with it greater personal responsibility.

The 46th day of the North Ren-frew vacancy! And no sign of an election date yet.

Only its innate modesty prevents the Toronto Globe from proposing a coalition in British Columbia.

Amid all the newspaper changes it may not be amiss to note that the only change in The Planet is that it is becoming better and stronger and more firmly established in the confidence of the people.

There are two freedoms—the false, where a man is free to do what he likes; the true, where a man is free to do what he ought.

Distress After Eating

Nausea between meals, belching, vomiting, flatulence, fits of nervous headache, pain in the stomach, are all symptoms of dyspepsia, and the longer it is neglected the harder it is to cure it.

Hood's Sarsaparilla and Pills

Radically and permanently cure it—strengthen and tone the stomach and other digestive organs for the natural performance of their functions.

Accept no substitute for Hood's. "My appetite was gone; nothing tempted me to eat, and what little I did eat left un-digested and unpleasant in my stomach. I tried many remedies without any benefit whatever. Finally, Hood's Sarsaparilla having been recommended, I began its use. After taking one bottle my stomach would retain food, and my appetite began to improve. After taking three bottles I was completely cured." WILLIAM ROSE, Wellington street, Sarnia, Ontario.

Hood's Sarsaparilla promises to cure and keeps the promise.

BUSY SESSION

Water Commissioners Transact Important Business—City Solicitor's Opinion re Dow-sley Water Rates.

The monthly meeting of the Water Commissioners was held Monday evening and a very business-like session was the result. Chairman Dr. J. L. Bray, Commissioner W. D. Sheldon, Mayor McKeough, Superintendent Jones and Secretary-Treasurer Weir were present.

It was decided on motion of Mr. Sheldon that a deduction of 25 per cent. on lawn rates be made on account of the rainy season, the deduction to apply on the account of the season.

Wm. Taylor, of the T. H. Taylor Co., applied for privilege of placing a closet in the tailoring department. It was granted, to cost \$4.65. The rate for closets is \$8 but Mr. Taylor said that only two or three people would use it and the rebate was given.

A communication from Auditor Macpherson acknowledged the receipt of Secretary Weir's letter.

The cash statement for the month showed \$2,878.50 in the bank.

A letter was read from Matthew Wilson, K. C., City Solicitor, which was as follows:

Water Commissioners, Chatham.

Gentlemen,—Re Dow-sley. In reply to your request for my opinion in regard to the charge for water supplied and to be supplied to the Dow-sley Company, I beg to say that upon the same matter the city obtained my opinion at the time that they were entering into the contract and I then advised the City Council that they were contracting to give to the Dow-sley Company water which was under the control of the Water Commissioners only, and that the city should in such cases first make an agreement with the Water Commissioners so as to know and fix exactly the worth or value of what the City Council undertook to give to the company. In the Dow-sley case I believe that no such agreement was made because the City Council was fully satisfied that a reasonable bargain could be made with the Water Commissioners in the event of the Council's by-law being approved by the ratepayers. The by-law of the Council and the agreement made by the Council with the Dow-sley Company was not binding upon the Water Commissioners. The Water Commissioners are entitled to charge the Dow-sley Company the same as any other ratepayer requiring the same amount of water under similar circumstances; but if the Dow-sley Company should be compelled to pay for such water the Company could immediately recover the amount paid from the city, and therefore it might simplify the practical working out of the arrangement for the city to authorize Water Commissioners. The Commissioners to charge the price of the water as agreed upon to the city. If no such agreement could be made between the Commissioners and the City Council then the Commissioners could only charge the Dow-sley Company for the water in the usual way, and as the Dow-sley Company receive the accounts from time to time for the water the company must either pay the amount to the Water Commissioners or procure the Council to pay it to the company. The Commissioners have no power or right to charge the price of the water to the Council or corporation of Chatham unless the Council authorize the Commissioners to do so, but the only remedy would be to charge the amount to the company.

SCOTT'S EMULSION

makes pale, thin children fat and chubby. Overcomes wasting tendencies and brings back rosy cheeks and bright eyes.

It's surprising how quickly children respond to Scott's Emulsion. It contains just the element of nourishment their little bodies need. They thrive on it.

Even a few drops in the baby's bottle have a noticeable effect for good. Nothing better than Scott's Emulsion for growing children.

We'll send you a sample free upon request.

and then allow the company to look to the Council for payment.

You informed me that you put a meter on the pipe which supplied the Dow-sley Co., at your own expense, and that recently the Dow-sley Co. have required a greater supply of water than the pipe which they formerly connected with the waterworks would give to them. As you instructed me the company wants more water and your engineer desires to enlarge the present pipe so that the water would all pass through the meter which you put in place, but the Dow-sley Co. for their own convenience, desired to have another pipe connected with another part or branch of the waterworks, and the engineer consented to the company doing this on condition that the company purchase another meter so that you would know the amount of water supplied to the Dow-sley Company; and the Dow-sley Co. thereupon got the additional connection and obtained and put in an additional meter. You are not, in my opinion, liable at all for this meter. The placing of the meter was a reasonable regulation and a sufficient meter was placed by you to measure the water. The Dow-sley Co. has the right to ask you to carry out the agreement made by the Council. You were not a party to the Council's agreement or the Council's by-law. The money which you handle is the money received from those who happen to be water takers, and it might create an injustice if you reduce the amount of that money by allowing some ratepayers to take water without compensation. The ratepayers who voted the bonus to the Dow-sley Co. were the ratepayers of the city at large, both those who took and those who did not take water.

If you charge the Dow-sley Co. and the Dow-sley Co. then present your bills to the city, and the city pay these bills for water, then, in my opinion, the proper parties will bear the burden; but (as I advised the Council) in all such cases the Council should, before granting a bonus of free water, make a definite agreement with the commissioners so that the Council will know what a burden agreement will place upon the ratepayers at large.

Yours truly,
MATTHEW WILSON.
The commissioners decided to act upon the advice of the city solicitor. The following accounts were passed:

FINE CONCERT

The anniversary tea-meeting in St. Paul's Presbyterian church, Harwich, Monday night, was very largely attended. It was after ten o'clock before all had dined. Neil Watson presided during the presentation of the program. The Rev. Dr. Battisby, pastor of St. Andrew's church, was the speaker of the evening. The doctor never made a brighter speech than he did that night. He kept the large audience both amused and interested and they were not at all tired in listening to his address. Miss Gertrude Somerville rendered a number of very pleasing solos and was most heartily received. Miss Macdonald, of Ridgetown, and Miss Young, of Harwich, gave readings. Splendid addresses were given by the Rev. Mr. Gilmore, of Blenheim, the Rev. Mr. Macdonald, of Detroit, Judge Houston, Chatham, and Dr. Jamieson, pastor of the church. The Darrell orchestra furnished music.

STRUCK THE BOOT OF HIS TROUBLE

James Atwell Cured his Kidneys by using Dodd's Kidney Pills.

And his Lumbago and Urinary Troubles Vanished once and for all—He Tells His Story.

Campbellford, Ont., Oct. 5.—(Special).—That Urinary Troubles and Lumbago are the result of disorder of the Kidneys has been proved by James Atwell of this place. He had Lumbago and pains in the bladder, and in passing his urine would hurt him so as to almost cause tears to come to his eyes.

He cured his Kidneys by using Dodd's Kidney Pills and his pains of all kinds vanished. Speaking of his case, Mr. Atwell says:

"I think Dodd's Kidney Pills made a permanent cure in my case, but I will never be without them in the house. I had Lumbago and Bladder Trouble for years. I tried other medicines and a headache prescribed by the doctor, but I could get no relief till I used Dodd's Kidney Pills and they cured me."

If the disease is of the Kidneys or from the Kidneys, Dodd's Kidney Pills will cure it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
