MONTREAL HOG MARKET

Montreal, Saturday, October 10.—There is no change in the prices for live hogs as compared with last week, although there is a decidedly easy tendency to the market. Sales of selected lots of live hogs weighed off cars were made at \$7 a cwt, with other grades down to \$6.50.

Prices have been reduced on dressed hogs and they have been selling this week at 89.75 to \$10 a cwt, with only a fair passing trade.

EXPORT BUTTER AND CHEESE

Montreal, Saturday, October 10.—The demand for cheese this week has been quiet and prices have been deeddedly easy and somewhat lower than last week. The country markets this week have ruled from 120 to 12 i-te, the bulk of the offerings selling at the even money. Even at the lower range there was no disposition shown to buy and there is every likeli-hood of prices going still lower next

week.

The stock of cheese in all positions is
large and the grand total shows an increase over last year in spite of the fact
that our make has been considerably
smaller, and this all goes to show that
there is not the same quantity of Canadian cheese being consumed in Great

dian cheese being consumed in Great Britain as last year.

The receipts this week show a big fall-ing off from last week but it is not at all behind last year's, showing that the make this fall in spite of the dry weather is fully equal to last year.
