# FARM AND DAIRY

Commissioner Dairy and Cattle Division

## RURAL HOME

PETERBORO, ONT.

JANUARY 20, 1910.

A PRIME SPECIMEN OF A DAIRY BREED THAT SHOULD BE REPRESENTED AT THE C. E. F., OTTAWA. Jerseys have well demonstrated themselves to be in the foremost ranks of dairy cattle as producers. Their champions claim that as producers of the most milk and butter for the least amount of food consumed, Jerseys stand at the top. The individual illustrated is one from the well-known Brampton herd, owned by B. H. Bull & Sons.
