Their commendations, and their cheapness, durability, ease of working, and their never freezing make them very far ahead of any in use. By attaching a few feet of hose they will throw water on any part of a building near them. Price of pump 12 feet long \$6 00, and 25c per foot for over that length. Pumps shipped by rail to all parts. Orders may be sent stating depth of well. Address

VALUABLE INFORMATION.

THOSE who have no business, and wish to secure good lucrative employment, and those who are in business, and wish to fit themselves for conducting that business safely and systematically; farmers and mechanics, professional men and merchants, may learn how they may do so, more readily than in any other way, by sending for a circular of the London Commercial College; the best and most popular business institute in British America. ANGLO SAXON.

IS now on the Westwell Farm in Delaware and will remain there during the fall season. Terms for fall service, to insure \$3, down, and \$12 when the mare proves to be in foal, and \$60, in three years if a horse colt and kept for a Stallion; this is 25 per cent less than the spring services. Some persons may not think they have a proper opportunity in this county but many of you know that October was not considered too late last year by persons sending mares two hundred miles, and some good breeders often prefer having a fall colt. We would like to hire two or three good mares this fall. Parties having good mares and objecting to the price may have them attended to for half of the value of the colt at weaning time.

London, August 1st, 1867.
