"Endowment at Life Rate"

SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY PERSON who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency of the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price, \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

Making Money and Saving Money

THE FARMER WHO TRIES TO GET ALONG
with a wheelbarrow and its back-breaking
drudgery when cleaning out his stable, is not saving
money, and he's not making any.

LOUDEN

Feed and Litter Carriers
are money savers

Stalls and Stanchions
are money makers

LABOR costs money, and
half a day spent doing a job
that machinery could do in half an
hour is bad business and bad farming.
The saving of time alone (to say
nothing of increase in value of
properly handled manure) by the use
of a Louden Litter Carrier will pay
handsomely on the investment.

CLEANLINESS on a farm
is as important as clean-
ness in the home. Clean healthy
contented cows give a greater flow
of milk. Sanitary surroundings are
essential to profitable dairy farming.
With Louden's Steel Stalls and
Stanchions, the cows get freedom of
movement, and lots of air and light.

We want every Farmer to have our Book, "Perfect Barn Equip-
ments," because it describes Louden's Litter Carriers, and Stalls
and Stanchions, and many other labor-saving, money-making de-
vices for the farm. It is free for the asking—you'll find it a help.

**Are "Threshing Spots" Ruining
Your Barn's Roof?**

Read about the cure in that splen-
did book, "How to Build a Barn"
—sent free on your request.

THOUSANDS of barns in
Canada are suffering from
"threshing spots." The re-
sult in each case is leaky roofs and
damaged crops in the mows.

"Threshing spots" come from the dust
and chaff of threshing time. It sticks like
glue to wooden shingles. The next fall of
rain soaks this refuse and starts it rotting.
Then the shingles start decaying. Pretty
soon there is a soft spot—then a hole—and
a bad leak has commenced.

Wooden shingle roofs are unreliable in
this and many other respects. At best they
are the most costly kind of roof you can
have, no matter how you consider them.

Let us send you a copy of that splendid
book, "How to Build a Barn." It tells
you about the only kind of roof which
"threshing spots" will not affect. It
describes fully the merits of Galt Steel
Shingles and gives you the exact facts which
prove their great durability and superiority
in every way over wooden shingles.
