

Heaves CURED

—by removing the cause—and cured to stay cured—If 3 boxes of

Fleming's Tonic Heave Remedy fall to effect a cure of any case—old or new, we will refund the full amount paid.

Par Box 1.00. 3 for 2.50
Mailed on Receipt of price

Scratches Disappeared
Gentlemen:—I gave a course of your Tonic Powders, which has put a horse and his mate in fine shape, and a touch of scratches has quite disappeared.

W. A. Douglas, R. R. No. 2, Caledonia, Ont.

Questions and Answers. Miscellaneous.

Barbed Wire Fence.

A and B own lots side by side. B's part of the line fence is built of barbed wire, not over forty inches high, and no pole on top. Is this a lawful line fence? If not, what action must A take to have it removed?

Ontario.

Ans.—Probably not; but for definite information you should see the Clerk of the municipality, as the matter is one usually regulated by local municipal by-law.

Veterinary Fees.

What is the farm regarding veterinary fees, mileage, etc.?

Ontario.

A SUBSCRIBER.

Ans.—We do not think that there is any, excepting that they must be reasonable, and also that a veterinary surgeon, when called upon to give evidence in consequence of any professional services rendered by them, or to give professional opinions (in either supreme or County Court), is entitled to a professional fee of \$5 per day, and travelling expenses, over three miles, not exceeding 20 cents per mile one way.

Mortgagor vs. Mortgagee.

1. A has a farm against which there is a mortgage. Can A remove hay-fork outfit from barn, or will the mortgage hold it?

2. In case A cannot meet his payments, can B, who holds the mortgage, take A's chattels if the farm does not sell for enough to satisfy the mortgage?

Ontario.

A SUBSCRIBER.

Ans.—1. Yes, provided he can do so without serious injury to the barn.

2. Not without first obtaining judgment and execution, and then only through the Sheriff or Bailiff of the Court, and to the extent only to which the chattels are not exempt from seizure.

Four-Horse Lines.

Would you publish cut of lines for driving a four-horse team?

J. A. C.

Ans.—We publish this illustration as being quite suitable for driving such a team.

Bee Books.

1. Will you kindly publish the name, price, and where obtained, a first-class book on bee culture, suitable for one who has had no experience with bees?

2. The name and address of parties from whom I could purchase a colony of bees in healthy condition?

A. L.

Ans.—The A B C and X Y Z of Bee Culture, is a very good book for the beginner, or even for an experienced beekeeper. It may be procured through this office for \$2.25, postpaid.

2. We could give you the names of beekeepers who would likely be willing to sell you a colony of bees, but we do not know of any in your immediate vicinity. It would be better for you to look around, or put a small advertisement in your local paper, and inspect the yard from which you are likely to purchase, assuring yourself that there is no foul-brood or other diseases. It will be wise to avoid all diseases when establishing your yard, therefore, it is to your advantage to purchase near at home, where you know the keeper and his bees. Find out a reliable man, and purchase from him.

HUNDREDS of farmers are proving to their own satisfaction that

Caldwell's Cream Substitute Calf-Meal

is a good business proposition any way they like to figure it out. The Meal is precisely what the name implies—a substitute for Cream or Whole Milk. You can veal up or raise just as good calves on Cream Substitute as you can raise on whole milk and at a cost which is trifling in comparison. You owe it to your bank account to find out all there is to know about Caldwell's Cream Substitute Calf Meal.

Ask your Feedman about it or write to us for full particulars. 40

THE CALDWELL FEED CO., LTD., DUNDAS, ONT.

F. W. EWING, R. R. NO. 1, ELORA, ONTARIO.

SIMPLICITY—EASE and DURABILITY

Every extra moving part adds its weight to the load you must turn and adds friction which takes its toll of the life of a separator.

Choose then the

EMPIRE DISC SEPARATOR

because these features eliminate waste of power and friction:—

Its bowl is smaller and 20% lighter than any other disc bowl of equal capacity.

It has only 6 points of contact of moving parts. Its three main bearings are of unique design that are infinitely superior to closed bearings.

Its exclusive clutch makes starting easy and allows not running but the bowl to spin in "running down."

For the use of small dairy herds we recommend the Baltic separator—the smallest of which sells at \$15.00.

Write for information about the famous "Sta-Rite" gas-engine engines—"they start right and sta-rite."

Clip the coupon and mail it to-day for our booklet.
